FISHER DEPARTED UNDER CLOUD

TOOK MRS. TRUDO'S WATCH; LEAVES SEVERAL BILLS UNPAID.

SHERIFF KENNEDY GOT WATCH

County Attorney Gutterson Could Not Issue Warrant for His Arrest And He was Allowed to Remain in Grand Island.

Will Fisher, a painter who has been in the city for six months, left Monday night for Grand Island and took with him a gold watch and fob belonging to Mrs. Trudo, daughter of Mrs. A. E. Gandy. He left several unpaid bills behind him. Dr. Dodd has a bill against him for over fifty dollars, Brueggeman & Steinway the popular tailors, are short twenty-three dollars on a suit of clothes they made for him and delivered Monday, and Tom Finlen has not been paid a five dollar livery bill.

Fisher had been boarding at Mrs. Gandy's and her daughter had loaned him the watch and fob, which she values at about forty dollars. Fisher telephoned to her Monday evening that he was going away and would be up to get his clothes. When he went up to get his baggage about half an hour before train time Mrs. Trudo asked him for the watch, and he replied that he would be back in twenty minutes and give it to her. She demanded it on the spot and he refused to give it up and did not return. Mrs. Gandy then went up to his room and found that all of his belongings had been removed and the condition of the screen over the window indicated that he had attempted to pry off the screen and throw his clothes out of the window in order to leave without her finding it out. She notified Marshal Shackleford and asked him to watch the trains. Fisher, however, evaded "Shack" and made good his get away.

Sheriff Kennedy later learned that Kirk Douglas had purchased a ticket to Grand Island for Fisher and had had his suit cases expressed. Kennedy found him in the Island Tuesday, got the watch and fob and then turned him loose on a promise that he would be back in two weeks and pay up his bills.

Fisher said he had paid up his board for a few days in advance and was holding the watch in order to get his money back.

Mrs. Trudo says that she can get witnesses to prove that while he was in Broken Bow he offered to put the watch up for ten dollars in a poker game and she is of the opinion that he was trying to get away with the watch with the intention of keeping or disposing of it.

County Attorney Gutterson refused to furnish Sheriff Kennedy a warrant for his arrest because in his opinion the act of taking the watch with him under the circumstances did not constitute a criminal offence.

INVENTS LOCK-OUT SYSTEM

G. H. Guyle Claims to Have a Great Improvement for Party Lines.

H. G. Guyle, of West Union, has invented a selective ring and lock out system to be used on party telephone lines. Under Mr. Guyle's system each party on the party line is given a number. When you desire to ring any one, you press a button corresponding to the party's number. This rings the party wanted and locks out all other parties on the line. Should this invention prove successful and practical it will be a great thing for the people on the party lines in the country. Under the present system anyone on the line has the privilege of hearing everybody else talk. Mr. Guyle claims that his system will lock out all the people who desire to listen to the conversation and give the people on the line all of the advantages of a private wire. Mr. Guyle expects to give in Broken Bow a free exhibition of the workings of his system sometime in the next few weeks.
