Enacted laws to create a juvenile court with power to provide proper care for neglected children to provide free high school privileges, normal training in high schools and to assist weak school; districts in maintaining school at least 7 months each year; to prohibit pooling by bridge contractors and compel them to produce books and papers; to remove officers for wilful neglect of duty and failure to enforce laws; and to require railroads to furnish equal facilities to all shippers of grain and other commodities.

Care has been taken to have the laws of the state properly observed, and caution has been exercised in the use of executive clemency.

This is the record briefly given of legislation and administration during the last two years, through the Republican party. All this has been done in the interest of the people of this state. The Republican party continues to stand for those things, in legislation and administration which will promote good government and prohibit any person or corporation from enjoying si ecial privileges at the expense of the public. Our concern is to deal with all questions as they arise in a way that will best promote and conserve the general welfare of our state. There shall be no retreat.

I ask that the record of the Republican party of deeds none in this state during the last two years be placed for consideration beside the Democratic promises of the past and the present, and appeal to the people of this state to stand by the new deal and for the party and the men who steadfastly with honesty of purpose and without malice have Schmitz; clerks, Millard Hill and done so much for the common C. TAFT'S SERVICE TO LABOR.

Destroyed the Old English Law Assumption that Union Labor Is a Conspiracy.

(From the Emporia (Kan.) Gazette. The simple fact is that no man has done more to place union labor on a sound, square, law-abiding, respected footing than William H. Taft by his decisions in labor cases. Both employers and employed have acknowledged Triumph-Judges, B. F. Rig. the justice of his decisions and learned to abide by them, and to-day there is not an intelligent worker or fairminded employer who would seek to

abrogate them. Judge Taft lifted union labor from the doubt and uncertainty as to its rights which had before prevented and gave it a standing which it has ever since retained, and which has proved under his rulings, secure against all attack. The old assumption, derived from England, that union labor is a conspiracy, and that workers could be prevented from leaving railway or other employment at their will, was swept away forever by Judge Taft so far as the United States is concerned, and when an attempt was made, years, later, to revive the principle, Judge Taft's decision was quoted successfully

I hope and believe that all far sighted citizens who wish to see this country prosperous in material things will support Mr. Taft, but above all I ask for support for him because he stands for the moral uplift of the nation, because his deeds have made good his words, and thecause the pollcles to which he is committed are

## Encouraging Small Accounts.

"The device of issuing postal savings bank stamps has met with some response. The stamps are simply a method by which small amounts can be deposited without the expense of issuing a book figuring interest, and opening an account.

"On the whole, the reception accorded the postal savings bank has been gratifying, and gives good promise The investment of the funds is in the hands of a postal savings bank investment board, which carries a certain amount of the funds on deposit, and has limited power of investment. The law provides that 25 per cent of the money held on deposit may be loaned on first-class real estate, under limitations carefully drawn to protect the depositors, and 10 per cent on agricultural lands under still more rigid limitations."
