L. CUSHMAN, Dist. No. 3.
J. B. GILMORE, Dist. No. 5.
F. N. MOSSMAN, Dist. No. 7.

GET OUT FARMER VOTE.

Farmers now get high prices for lands and farm products, and at the election November 3 should not risk a change from republican rule.

G. H. Kinsey, the Republican candidate for State Senator from Arcadia, is another gentleman who came to Nebraska in an early day. The majority of his life has been spent in this state, and he knows the needs of our people. He is a first class-business man, and will make an excellent Senator.—Oconto Register.

Nebraska farms and Nebraska farm products are high priced now under republican rule. Bryan's election would change this condition, for there would be a period of doubt and uncertainty during which industry would lag and food prices and land prices go down.

Junkin's Good Record.

The good record made by Secretary of State Junkin when he was a member of the legislature has been enhanced by subsequent service in the office of secretary of state. His work on some of the most important boards created by law, including the assessment and equalization board, has made it easy for his friends to recommend him for re-election.

As a supplement to house roll No. 110, known as the "Junkin Act," which was introduced by the present secretary of state and passed at the 29th session of the legislature and under which the grain and lumber trusts were prosecuted and put out of business, Mr. Junkin and his assistants prepared senate file No. 358 which was introduced by the senate judiciary committee of the 30th session and became a law. This has proved to be one of the best revenue measures for the collection of fees on the statute books. Under this provision the income of the office of the secretary of the state has been increased from \$22,463.10 for the biennium ending Novem-

FOR REPRESENTATIVE.

Over 30 years a resident of Custer county. Always and exclusively a farmer and stock raiser, and the fact that I am in perfect accord with the record of the last legislature, particularly its opposition to railroad rule in the state, together with the fact that I am a strong supporter of the County Option bill and a more economical and judicial expenditure of road funds, is my platform.

Respectfully Yours,
J. A. AMSBERRY.

A very prominent issue in this campaign is that of bank guaranty of deposits. It is not a party issue, for many republicans are for it and many against it, and the same is true of the democrats. The question is purely a business proposition and men are divided on it according to their views as to its wisdom or unwisdom. One of the first advocates of a guaranty of bank deposits is G. H. Kinsey, republican candidate for the legislature. He has been talking it for years, long before he had any notion of being nominated for office. He believes in a passage of a law that will be effective and safe, and if elected he will work and vote to that end.—Ord Quiz.

Dr. A. L. Mathews, one of the candidates for Representative on Republican ticket, need no introduction to the majority of our readers, as he was one of the first settlers in Callaway, and his profession took him to all parts of the country making him a host of friends and acquaintance. If elected he will make an excellent Representative, and will always be found working for the interests of the 56th District, Oconto Register.

Farmers should not forget that under the last democratic administration, after Bryan was in Congress and helped to pass a democratic tariff bill, times were hard and prices of land and farm products were low and that while Bryan has abandoned free silver he has never abandoned his tariff doctrines which brought disaster to the country and reduced the value of lands and the price of farm products.

N. T. Gadd, Republican candidate for County Attorney, is a man who we believe will make a good County Attorney. He has been a successful Attorney for several years, and his experience makes him well qualified for the office. We believe he is the man for this office, and should receive your support.—Oconto Register.

J. A. Amsberry, our other candidate for Representative, is an honest farmer living near Mason City, and is held in highest esteem by all who know him. He is a man of good sound judgement and is perfectly competent for the office he aspires. A vote for him is a vote for a man worthy of your support.—Oconto Register.

Every republican farmer who does not get his vote into the ballot box on November 3 casts half a vote for Bryan and half a vote against himself and his home.

Farmers who do not vote for Taft November 3, will help Bryan, whose tariff plans and other democratic doctrines may mean reduction in the value of lands and farm products.

Farmers and farm hands who husk corn November 3, when they should be voting for taft, will use poor business sense, if Bryan is elected and the price of corn goes down through democratic experiments and tariff for revenue only.

The demo-fusion party plunged the state of Nebraska into debt over two millions of dollars during the days of their political control of the state. Under republican economy and without deterioration of state institutions or neglect of state responsibilities in the slightest degree, that inherited debt has been almost paid and within a year will be wiped out. "Nebraska free from debt," will be a well earned boast of the republican party. How does that sound to the tax-payer of city and country?

The state railway commission is not a noisy body but proceeds quietly and firmly along its way adjusting a large number of contentions of importance between the transportation companies and the people without fuss or notoriety. It is the peoples commission and is the result of republican constructive legislation and administration. Without court costs or delay the commission has afforded just relief to complainants in hundreds of instances every year. No greater calamity could happen to the state than that the administration of the regulatory transportation laws should fall into the hands of a governor and commission tainted with corporation alliances. There is one sure way for the people to avoid such a result. The republican party made and have administered this great agency for securing a "square deal." Put only republicans on guard and the continuation of that policy is assured.

"Mr. Taft's excellence as a Federal Judge is not to be over-emphasized. His high ideals of honesty and justice are valuable and commendatory."

GROVER CLEVELAND.
"When it became apparent that Mr. Taft would be the nominee of his party, that Mr. Hearst and his party would make a clean-cut effort for em- placement at a National factor and not endeavor to gain any immediate advantage for themselves by any such process as fusion, in fact would seek to destroy Bryanism, or rather Mr. Bryan's hold on the Democratic party, not forcing the hold to relax, but by lessening that which he had to hold, conjecture as to the result in the November conclusions could be of but onesort among sensible men. With the several other parties disorganizing, redeveloping, and pro-creating, the Republican Party is certain, though with a considerably lessened strength, to move on to a safe victory sustained by the popular support of reforms which should not rebound to its glory solely, those reforms having been the work of decent men of all parties."—GROVER CLEVELAND.

In the four months following the beginning of the financial depression last October there were fifteen bank failures in the city of New York. The financial institutions that closed their doors as a result of the panic held \$95,151,000 in deposits. Of the concerns thus embarrassed three were national banks, eight were state

banks and four were trust companies. Ten of the fifteen institutions have been reopened and the record shows that no depositor in any of the fifteen financial concerns lost one cent. Every dollar due depositors has been returned. In one of the trust companies involved there were deposits aggregating \$49,000,000. The president committed suicide, but the company has met all claims, possesses a wide decree of confidence and promises to become stronger than ever before. Five of the failed institutions have been permanently closed, but all claims against them have been paid in full. The net result has strengthened the national and state banks of New York in the eyes of the depositors and has done much to convince the people that safe and sane banking needs no additional legislative protection. In the forty-seven years that the national banks have been in operation the loss to depositors has been a trifle less than one-twenty-ninth of 1 per cent.—Omaha Bee.

Kinsey for Guarantee.

The fusionists are making their fight on Geo. H. Kinsey, the Republican candidate for State Senator, almost entirely on the proposition that Kinsey is a banker and that he will therefore not be willing to sanction a bank guarantee law which will be satisfactory to the depositor. The fusionists seem to forget that no one is more anxious for security of deposits than the honest banker. The very life and prosperity of a bank rests on the question of the security of the money deposited in it. Nothing will ruin a banks business quicker than to have it noised about that the money deposited in it is not safe. Security of deposits is the first essential to banking business. The bankers are interested in any measure which will give their depositors greater security. No man is better qualified to pass upon a bank guarantee law than a banker who goes into the legislature with an honest purpose of helping to enact a just and equitable guarantee law. If Kinsey is elected he will go there with that purpose in view and the people who vote for him will not be disappointed.

FARMERS PROSPEROUS.

A very strong follower of William J. Bryan came into the implement establishment of one of Burt county's thriving towns one day last week and purchased a lumber wagon for which he paid \$70 cash. After paying for it he remarked:

"Let's see didn't I buy one of these same wagons of you a little over fourteen years ago for \$60?" The dealer replied, "I think you did."

"That shows what the trusts are doing to the farmer," said the purchaser. The dealer studied a moment and said:

"If you remember you hauled me 600 bushels of corn to pay for that wagon, too, didn't you? Now, if you will haul me 600 bushels of corn this week or next I will let you have this wagon, give you a new two-seated carriage, a new two-seated spring wagon, a cream separator and give you back the \$70 you just paid me."

The farmer had nothing more to say. He went out and hitched his team to the new wagon and drove home to get another load of 60-cent corn.—Omaha Bee.

ber 30, 2906, to \$41,990.30 to date and will reach approximately \$50,000.00 for the two years ending November 1908. This law provides that all corporations, associations and consolidations, domestic and foreign, shall file their articles in this department under a schedule of fees based on the authorized capital stock, and increased from ten cents per \$1,000.00, under the old law to an average of 50 cents per \$1,000.00 under the new act.

Under the old law foreign corporations were permitted to come into the state in competition with domestic or home corporations, without paying a fee or license tax of any kind. Now they are required to comply with this law and pay the same fees as a domestic company.

In addition to the above the department of state prepared a motor vehicle bill which was passed at the last session of the legislature, and requires all owners of motor vehicles within the state to register the same with this department annually instead of only once as provided by the old law. The registra-

tions under this act have grown from 1,033 on January 1st, 1907 to 3,700 at the present date, and as every license issued means \$1.00 to the general fund of the treasury it shows an increase of \$3,700.00 per year over the provisions of the old law. If the registrations continue to increase as they have in the past year the state will soon receive a very substantial income from this source.

These are some of the acts of the last Republican legislature for the relief of the tax payers and the present secretary of state is receiving his share of the credit for the introduction of these measures.—State Journal of Sept. 22nd.

CAN FURNISH COOKING GAS.

If One Hundred Customers Can be Secured by Next Spring.

The Western Light and Fuel Company promises to take Broken Bow from the tail end of the column of the cities of its class of the state on the question of the use of the cooking gas, provided that the people will

give it a chance. However the present arrangements of the gas plant is not hardly sufficient to economically supply the gas lights over the city and produce the gas for the cooking stoves, that it would like to supply in the spring when the weather gets warm enough to have the customers desire to use gas instead of the ranges. In order to have the enlargement of the plant for the purpose of furnishing cooking gas be a paying proposition the company must secure one hundred customers.

The company states that if one hundred people will agree to use the gas in case that the plant is enlarged it can furnish it for one-half the cost of burning coal.

The company claims further that there is practically no radiation to the side when cooking gas is used and it will as a consequence not heat the room as other fuel will. The cooking capacity of cooking gas is 100 per cent greater than that of gasoline. Moreover, there is no danger of explosion when cooking gas is used and the dangerous feature of gasoline is eliminated. The company will furnish stoves for what they cost.

Cooking gas is more economical and more convenient than other fuel and it would pay the people of Broken Bow to investigate the proposition of the Western Light and Fuel Company and help the matter along if they feel satisfied with the proposition that they offer.

Coughs of Children

Especially night coughs. Nature needs a little help to quiet the irritation, control the inflammation, check the progress of the disease. Our advice is—give the children Ayer's Cherry Pectoral. Ask your doctor if this is his advice also. He knows best. Do as he says.

If you think constipation is of trifling consequence, just ask your doctor. He will disabuse you of that notion in short order. "Correct it, at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable.
—Made by the J. C. Ayer Co., Lowell, Mass.—

BUSINESS POINTERS.

I have now arranged to take care of a general collection business, having secured a competent clerk and stenographer, and all collections will receive prompt and energetic attention.
