

COMPANY M ELECTS OFFICERS

Officers Will Make a Last Effort to Keep Company From Being Mustered Out.

At the regular meeting for drill practice last week Company M held an election of officers. First Sargent Lawrence Hollandsworth was elected Captain to succeed Captain Pickett, resigned. H. R. Joyner was chosen 2nd lieutenant to take the place of G. L. Dean whose time had expired.

Owing to the poor condition of the Company the adjutant general of the State Militia was going to muster out the company. The officers elected asked for another opportunity to put the company in shape and were given until the 12th of February to get thirty men lined up who can be put under arms within two hours. One of the national guard officers will be here on the 12th to inspect the company and determine whether or not it will be mustered out. The officers and friends of the company look with pride on the record of the company in the Philippines during the Spanish-American war and they desire if possible to keep the company here. An extra-ordinary effort will be made to secure the necessary number of men and have them ready for inspection.

The Chautauqua.

Professor Teagarden states that the Redpath Chautauqua Company has bought out the Slayton Lyceum Bureau. This greatly strengthens the Redpath people and gives them a larger working force than all of the other chautauqua people combined. The people of Broken Bow will be pleased to learn that Frank Roberson and Champ Clark will appear on the local platform next August. Mr. Teagarden will have Stormsberg, Ord. Columbus, Seward, Alma, McCook and Broken Bow under his supervision

THEY DO SAY

That some people seem to think that the world was made especially for them and no one else.

That if the Lord would announce a visit to every home in Broken Bow there would be a general hustling around to get the dust off the bibles.

That it's a time honored belief that all the world loves a lover, but it is hard to convince a

That a man is always in a hurry. He will rush along through life as if he was in a hurry to have it done with as soon as possible, but when the time comes to die his rush is over.

That every young man has capital to work with whether he has money or not. He has hands, feet, bone, brain, muscle,
