HOME COURSE IN

51 St. 13 315 45

By C. V. GREGORY Of the Agricultural Division of the Iowa State College

Covering the Course of Study Followed by the Iowa State College

HE SUCCESS of Scientific farming with its greatly increased yields has aroused strong interest among farmers throughout the country. So greatly was Governor Deneen impressed with the importance of the subject when he attended the Illinois Corn Show in Springfield recently that he decided to enter, the Agricultural School at the University of Illinois to take up the course, as told in the

press dispatches. This home course will begin in our Issue for next week and gives the readers of THE REPUBLI-CAN at home what the Governor gets in College

Knowledge Worth Many Dollars to the Farmers

Besides the practical value of these articles, they are very interesting, revealing the magic of chemistry as seen in growing things.

The Course Begins Next Week. Subscribe Now and Get the Whole Course.
