Political Announcement.

Being prompted by a desire to lead and direct the educational forces of the great county of Custer, in whose schools I was a pupil nearly 30 years ago, I hereby formally announce myself a candidate for the position of County Superintendent of Public Instruction. I have advocated republican principles for 15 years and am thus asking the distinguished honor of being its nominee at the coming election.

WALTER W. WATERS.

I hereby announce to the Republicans of Custer County that I am a candidate for the nomination to the office of County Surveyor subject to the expressed will of the members of my party at the primary. I have served as Deputy County Surveyor for the past 3 years, and previous to the practical end acquired my education in the County schools of Custer County, in the Fremont Normal school and the Nebraska State University. I have always lived in Custer county and have always supported the Republican ticket.

A. J. VANANTWERP.

What is everybody's business is nobody's business. This principle usually comes in for a part in the management of municipal corporations.

A man will give more time, attention and thought to a business in which his money is invested than he will when he is employed to supervise it for the public.

Considering the condition of the city's finances today and its experience with the waterworks, municipal ownership of an electric light system does not commend itself to our business judgment.

The rates given the city on arc lights under the proposed franchise will enable the company which gets the franchise to make but a very small profit. The rates are very low and the franchise requires that the service shall be the very best obtainable.

W. A. Tooley

The principle reason why public utilities under municipal management are not as efficient as under private ownership is found in the difference in the care and interest which a manager takes in his own business as compared with the interest he takes when working on something in which he is not financially interested.
