Political Announcement.

Being prompted by a desire to lead and direct the educational forces of the great county of Custer...

I hereby announce to the Republicans of Custer County that I am a candidate for the nomination to the office of County Surveyor...

The movement started at Ed House's office for the organization of a Custer County base ball league should meet with success.

There is no reason why the towns of the County can not maintain a team that would be a credit to them. If each town in the County will get to work at once to get a team organized the league should be ready to begin on the regular schedule by the first of June.

The junior normal starts out with an unusually promising corps of instructors and should prove a great success.
