ED McCOMAS Drugs and Jewelry

James Huffaker and Lon Davis shipped four cars of cattle to Omaha Tuesday. Lon and Walter Huffaker went down with them.

MENS SPRING SUITS

...AT... 12.50 - 15.00 - 18.00 - 20.00

At these prices we are offering finer and more stylish garments than are usually shown at \$5.00 more.

The cut conveys but a faint idea of the SNAP and STYLE of the suits on show at \$15.00. The garments show clearly that in every detail such as material, tailoring and linings they home up to the usual \$20.00 suits.

The World's Best Automobile

Western Automobile Stunts

John Schoenfeldt went down to Council Bluffs New Year's day to look over the Jackson automobiles. Now John wanted to be sure about the hill climbing qualities of any car that he might purchase, and he had heard of the Jackson Model C's hill climbing qualities, and after the usual demonstrations he inquired if the car had done the best it could. The Pioneer Implement companies had in reserve a thriller for the buyer who wants to be shown, and as John asked for the third degree, he got it. Gaily Model C moved the paved streets in search for hills to conquer. Quite innocently it poked its radiator up Tenth avenue, and with the sudden roar of the opened muffler it fairly jumped at the two block straight run up the paved hill side. The hill seemed to fairly rise up to meet friend John, and as the famous hill climber increased its speed and the road seemed to terminate in a perpendicular bluff, tragedy seemed imminent. With a sudden whisk at the end of the pavement the car was off at a racing speed sharply to the right. Below the housetops, to the left the rearing hill, ahead only a few hundred feet the empty air. Suddenly the car swung to the left, and below were the roads previously traveled, only fifteen feet away horizontally, but suffering Jehosaphat! how much perpendicularly? To the right once more, around a tree, always rising, always racing, the car sped on over a little shelf of road clinging dizzily to the side of the bluff. Now to the right, then again to the left, directions were utterly lost. Suddenly between the trees the car brought into view Plattsmouth, twenty miles away, and Bellevue. Lake Manawa was actually four miles away, but it seemed as though the car must shoot into space and land in its waters. A quiet turn of the wheel by the driver, the racing for higher heights swept on.

At every second it seemed as though the car must jump into empty space or crash into the side of the bluff. A sudden whisk through a forty foot cut and the dales of Fairmont park were entered and still the car sped on, rising, turning, whirling onward and always upward, until with a last final turn the peak of the bluff, 226 feet above the car's start. Only seventy brief seconds brought John and the little heroic Model C into the rarified atmosphere at the top. Quietly the car rolled along the roadway at the peak, while our friend John wiped the water out of his eyes, filled his lungs with the gusty winds, and then John quietly melted down into the big leather seat and asked to be taken home by some other route less hazardous. No persuasion could induce our friend to ride down the road he had come up.

Remember that "No Hill is too Steep" and "No Sand is too Deep" for the Jackson.

John S. McGraw, Agent.

Helpful Hints on Hair Health

Scalp and Hair Troubles Generally Caused by Carelessness Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to someone else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch microbes than it is to get rid of them, and a single stroke of an infected comb or brush often produces the cause of baldness. Never try on anybody else's hat for the reason that many a hatband is a nesting place for microbes. If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we positively know will cure these troubles, and we are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "93" Hair Tonic. It is the most scientific for all scalp and hair troubles, and we know of nothing else that equals it for effectiveness. We know this because of the results it has produced in hundreds of cases. Rexall "93" Hair Tonic will positively banish dandruff permanently, restore natural color when its loss has been brought about by disease and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, removes dandruff, destroys the germ matter, and brings about a free, healthy circulation of blood which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody in Broken Bow who has any trouble with hair or scalp to know that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and none should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes 50 cents and a dollar. ED McCOMAS
