

The Best Car On The Market

The Jackson Car

The Jackson is the best all around car on the market to-day. The car is good in all of its parts. It is a leader in simplicity, in power and in durability. It is so simple of operation that anyone can run it. And then, too, the price is reasonable.

The Jackson has made its reputation on the fact that no hill is too steep and no sand is too deep for it. This is not simply an idle claim but it is an actual fact which will be proved to your satisfaction if you will give us an opportunity to demonstrate the car to you.
