Stops Hair Falling

Ayer's Hair Vigor, new improved formula, will certainly stop falling of the hair. Indeed, we believe it will always do this unless there is some disturbance of the general health. Then, a constitutional medicine may be necessary. Consult your physician about this.
Does not change the color of the hair.

The reason why Ayer's Hair Vigor stops falling hair is because it first destroys the germs which cause this trouble. After this is done, nature soon brings about a full recovery, restoring the hair and scalp to a perfectly healthy condition.

Editor REPUBLICAN:—
I see by the Nebraska State Journal that death is reaping a harvest in Lead, S. D., rheumatism being the principle death dealing disease. I find also in your own beautiful city of Broken Bow a number of rheumatic cases. One lady in S. D., Mrs. John Tart, at but 42 years of age passed away after seven years of illness from rheumatism. My experience with as painful case as human was ever attacked with convinces me that there is absolutely no excuse to suffer if those afflicted will apply the remedy which has given me absolute and perfect cure for I have not had a single pain from rheumatism for twenty-five years. Quit the doctors and take no more of their medicines and go to a high, dry altitude.

A Land Proposition.

Leyman Co. South Dakota, now offers an exceptional field for investment. In the best of all kinds of farming lands that 3 years ago could be bought for \$300 to \$500 a quarter, is now selling from \$1600 to \$3000 a quarter, and is steadily going on up and there isn't any doubt but it will soon double its self from what it is now; all kinds of farming carried on to a perfect success. The soil is unusually rich and deep. The native grass is the best in the world; there is no better land for mixed farming and dairying in the United States.

I am no land agent, but I have a friend up there that is interested in the land business and has a list of some fine land and I want to go up there after while in the interest of my own place up there and would like to get a bunch to go up with me. I can then prove to you what I have said is all true and
