IN MEMORY.

"Go to thy rest fair child,
Go to thy dreamless bed,
Gentle and meek and mild
With blessings on thy head
Fresh roses in thy hand,
Buds on thy pillow laid
Hosts from this blighted land,
Where flowers so quickly fade.

"Before thy heart could learn
In waywardness to stray:
Before thy feet could turn
The dark and downward way:
E'er sin could wound thy breast,
Or sorrow make the tear,
Rise to thy home of rest
In yon celestial sphere.

"Because thy smile was fair
Thy lips and eyes so bright,
Because thy cradle care
Was such a fond delight,
Shall love with meek embrace
Thy heavenly flight detain
No Angels seek thy place
Amid yon cherub train."

The Cough of Consumption

Your doctor will tell you that fresh air and good food are the real cures for consumption. But often the cough is very hard. Hence, we suggest that you ask your doctor about your taking Ayer's Cherry Pectoral. It controls the tickling, quiets the cough.

One of Ayer's Pills at bedtime will cause an increased flow of bile, and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime.

Big Horn Basin:—This rich land is fast settling up with homesteaders taking up the choicest Government irrigated tracts. The Big Horn Basin will soon be served by the Burlington's new main line through central Wyoming; products will have direct access to the best markets in the West. Land values are fast increasing. Get hold of a farm in the Basin before it is too late.
320 Acre Lands:—This is the size farm you can homestead in east and northeast Wyoming, Colorado; etc. Some of the finest lands in the West, with 18 inches of moisture annually, can be taken under the Mondell acc. These 320 acre homestead tracts are a new thing in the distribution of Government lands, and deserve your attention.

Flexibility of Power

The Offset Crank Shaft is what gives the Rambler engine its flexibility of power. The Rambler will run smoothly and quietly on high gear at 3 or 40 miles an hour. It allows the owner to conform easily to the limitations of congested city traffic, without constant gear changing.

The Car with the Offset Crank Shaft

Touring in the country with a Rambler has an added charm, because it does its work so steadily and quietly when running slowly under load and on hills or in sand, where every ounce of power at slow engine speeds is needed.

Let us demonstrate the silence and comfort of the Rambler, by calling for you at your home some morning and taking you to your place of business.
