**Dry Valley.**  
Not much doing down in this neck of the woods.  
The farmers are very busy these days, in fact, this has been the busiest season we ever experienced and it has been the same with every one on the farm.  
We note several have been to the fair, both at Lincoln and Broken Bow.  
For the past two weeks it's been North Pole gossip, some giving the honor to one and some giving it to the other. We defer giving an opinion at this time.  
The corn will not yield as much as was thought it would six weeks ago—only about one-half or from 15 to 25 bushels per acre. We read in one of the leading papers that the hot dry weather burned up 400 millions of bushels of corn in the United States, hence we got a little of the burn too.  
Sterley Stevens of Comstock was through the valley last week. Just as long as you don't stop Sterley to do any business it's alright, but otherwise the occupation tax or license shall be necessary.

### THEY KNEW HIM.

Pompous Politician—Well, Hiram, I expect the folks here were mighty proud when they heard their former townsmen had been made assistant secretary. What did they say?  
Old Inhabitant—Oh, jes' laughed.

**TWO EYES NOT AN ADVANTAGE**

The possession of two eyes does not confer upon us any advantage; one of them serves to show us the good things, and the other the evils of life. A large number of people have acquired the bad habit of shutting the first eye, but very few shut the second; and that is why there are so many people who would rather be blind altogether than see all they have to see. Happy the one-eyed who are only deprived of that evil eye which spoils all that we look upon.—Voltaire.
