Seashell Oysters

We are still unable to supply the demand for this new, pure breed of oyster of which we have had such a marked success with, and that we have had the oysters for sale, we are now furnishing new \nopenings to direct from Long Island and we have ordered our \nstock before the season has closed. The oysters are absolutely \npure, and we never have been touched by hand nor \nconditioned in waters more than six miles deep. We get our salt \nwater from our own well, and we have all the benefits of \nthe best breeding.
