R. E. Brega accompanied by several of his followers from the vicinity of Callaway came over Monday evening to convince the voters of Broken Bow that it was to their interest to vote for county division. It is to be regretted that all who were leaning that way were not out to hear the discussion, as those who we have heard express themselves were thoroughly won over to the anti-division side by Squires' reply.

The Jewel (Kas.) Republican says it would like to see a whole county settled entirely by mail order people and see what would happen. The stores would stand it as long as they could and then move away. Banks would close their doors; newspapers have to quit; the hotels go out of business; mechanics move away; schools and churches dwindle; sidewalks go to wreck; buildings would be vacated, unpainted and dilapidated; strangers would take one look and flee. Isn't that precisely what would happen of an entire county was populated with people who bought everything in Chicago? Who would buy a farm so located? Be a friend to your home town and it will be a friend to you.
