

AN EXCELLENT REMEDY.
Will Break Up a Cold in Twenty-Four Hours and Cure Any Cough That is Curable.

The following mixture is often prescribed and is highly recommended for coughs, colds and other throat and bronchial trouble. Mix two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure, and eight ounces of pure Whisky. These can be bought in any good drug store and easily mixed together in a large bottle. The genuine Virgin Oil of Pine compound pure is prepared only in the laboratories of the Leach Chemical Co., Cincinnati, and put up for dispensing in half-ounce vials.

NOTHING REMARKABLE.

The Mayor—Just think, admiral, I've married 20 people in two hours.
The Admiral—Well, that's only ten knots an hour.

CLIP THIS OUT.

Valuable Recipe When Afflicted with Rheumatism or Backache.

This is a renowned doctor's very best prescription for rheumatism. "One ounce compound syrup Sarsaparilla; one ounce Toris compound; half pint high grade whiskey. Mix them and take a tablespoonful before each meal and at bed time. The bottle must be well shaken each time." Any druggist has these ingredients or he will get them from his wholesale house.

The Country's Spread.
While the area conceded to the 13 original states by the peace treaty of 1783 was 828,000 square miles, their present area is but 326,000 square miles, the other 502,000 square miles forming in whole or in part 13 other states.

A Rare Good Thing.
"Am using Allen's Foot-Ease, and can truly say I would not have been without it so long, had I known the relief it would give my aching feet. I think it a rare good thing for anyone having sore or tired feet."

A NEW POSTOFFICE

GROWTH OF BROKEN BOW DECLARED TO JUSTIFY IT.

HAPPENINGS OVER THE STATE

What is Going on Here and There That is of Interest to the Readers Throughout Nebraska and Vicinity.

Broken Bow.—An important meeting of the Commercial club was held Saturday at which a committee of three was appointed to confer with Congressman Kinkaid and urge upon him the matter of introducing a bill in congress providing for the erection of a federal building at this place. The committee will also urge the city council to rush the completion of cement walks and crossings and the numbering of the streets so there will be no obstruction in the way of free mail delivery, which the city is now in line for. When the annual receipts of a postoffice reach \$10,000 the town is then ready for a carrier system. The receipts of this office for the fiscal year ending April 1, 1909, were \$9,346, within \$654 of the required amount. The receipts this year are over nine hundred dollars ahead of the corresponding month of last year, and it seems to be an assured fact that they will reach and exceed the amount necessary for free delivery service in the city. In order to get this, streets and sidewalks will have to pass inspection by the postoffice department, and all houses must be numbered; hence the activity of the Commercial club to start the ball rolling. A new postoffice building is what the town needs now. Both Alliance and Chadron have bills in the present congress for appropriations in the sum of \$135,000 each for a new federal building. The office at Chadron is that of the third class, with receipts last year of less than \$9,000 and a salary of \$1,800, while Broken Bow is that of the second class with greater receipts and a salary of \$2,100.

Offers Money to Orphans.
Grand Island, Neb.—Before going to the penitentiary Ernest E. Stout, convicted of manslaughter for the killing of Joseph E. Richeson, has settled up his property affairs. He and his brother, Joseph Stout, have sold their farm to Herman Kroeger for \$10,000. A \$4,000 mortgage to a minor brother has been paid and out of the \$3,000 which was Ernest Stout's share, he has set aside \$2,00 for his wife and child, and has volunteered to give the balance to the children of the deceased. It is stated here that this has been accepted by the attorney for the children, who had filed a suit for \$5,000 damages.

Chamberlain Not Guilty.
Beatrice, Neb.—After being out just twenty hours in the Chamberlain case the jury agreed upon a verdict, finding the ex-cashier of the defunct Chamberlain Banking house of Tecumseh not guilty of accepting and receiving deposits in an insolvent bank. The case was given to the jury Saturday night at 12 o'clock and the verdict was agreed upon Sunday night at 10 o'clock. Twelve ballots were taken, the first resulting six to six, the eleventh eleven to one and the twelfth was for acquittal. On one ballot seven jurors favored conviction.

Farmers' Institute at Cambridge.
Cambridge, Neb.—A farmers' institute school will be held here December 27, 1909, to January 1, 1910. The committee in charge has everything in readiness and unusual enthusiasm is being shown by the farmers and stock raisers, all of which promises a large attendance. This school is conducted under the auspices of the University of Nebraska department of farmers' institutes. An especially attractive program has been arranged covering one week's instruction in field crops and farm animals, and on domestic science and domestic art.

Almost Frozen to Death.
Nebraska City, Neb.—J. W. Godfrey, who resides near Syracuse, fell from his wagon while loading hay and was so badly injured that he could not help himself and when found was nearly frozen to death. He is seventy-seven years of age and his recovery is doubtful. He had gone to the field alone to get a load of hay and it is not known how the accident occurred.

Celebrate Silver Wedding.
Albion, Neb.—About forty friends and neighbors of Mr. and Mrs. P. M. Scott of this city, called at their home unannounced Saturday night, the occasion being their twenty-fifth wedding anniversary. It happened that Mr. Scott was away from home at the time. Mr. and Mrs. Scott are among the early settlers in this place.

Their Golden Wedding.
Surprise, Neb.—Mr. and Mrs. Wolford Keebaugh celebrated their golden wedding Wednesday at their home, three miles northwest of here. About one hundred of their friends and neighbors were present. They came to this county thirty-nine years ago last spring.

May Rebuild River Bridge.
Schuyler, Neb.—It is probable that the Platte river bridge at this point will be rebuilt next spring. It has been out for three years, and the business men are getting anxious about it.

Mr. and Mrs. John Barrett celebrated their forty-fifth anniversary at Surprise Monday. Their four sons, daughter and six grandchildren were present.

The case of the county of Hamilton vs. the Aurora National Bank was decided in favor of the county Friday afternoon by Judge H. G. Dungan of the Tenth judicial district.

J. L. Westergaard of Nora died Friday. He had been in apparent good health, but was suddenly stricken with heart failure while at work and died before medical assistance could be procured.

J. R. Tucker of Page, Neb., has purchased the farm of Max Kaden, southeast of Diller. The farm consists of eighty acres and the consideration was \$8,000. Mr. and Mrs. Kaden are preparing to visit their old home in Germany.

Sunday was a red letter day for the new \$20,000 Methodist church, just completed in Aurora. The donations amounted to \$9,550, of which \$1,350 is for the organ fund. This covers the remainder of the building fund. Dr. W. D. Parr conducted the services.

At a meeting of the Beatrice district, Gage county Sunday school convention, June 14 to 16 inclusive was selected as the date for holding the state convention in Beatrice. It is expected that 1,000 visitors will be in Beatrice from all over the state at that time.

Many of the leading surgeons of the west gathered in Omaha to attend the nineteenth annual meeting of the western surgical and gynecological association held at the Rome Monday and Tuesday. The association has members from all states west of the Alleghenies.

William Schneider, the five-year-old son of Mr. and Mrs. John Schneider, was accidentally shot by an older brother at the family home in York. The boys did not know the gun was loaded. The bullet entered the boy's chest. He is in a serious condition, but the physician says he will recover.

The third national corn exposition closed Saturday after a two weeks' successful run, notwithstanding the cold weather which has prevailed during the entire period. The entries have exceeded in numbers those of former expositions and the prize winners in many departments were declared by the judges to excel those of previous years.

The golden wedding anniversary of Mr. and Mrs. Francis M. Bozell was celebrated at their home in Fullerton. Mr. and Mrs. Bozell were both born, raised and married in Indiana and from there moved to Nance county twenty years ago, settling on a farm near Fullerton, where they resided until moving to town about four years ago. The couple enjoy excellent health.

While skating on Lincoln creek, near his home in Thayer, Walter Wutke, the eighteen-year-old son of Mr. and Mrs. Otto Thayer, accidentally shot himself and died a few hours after the accident. The boy was carrying a rifle at the time and had stopped to adjust his skates. In some manner the gun was discharged and the bullet entered his right eye. A number of his companions were skating nearby at the time.

It is stated upon good authority that the Union Pacific railroad company intends making some improvements at Callaway, work to commence in the very near future. A water supply system will be installed, the present one being inadequate to supply the demand for water. Also the building of a roundhouse is another improvement which will soon take place. When the road was built into Callaway in 1890, a round house was built, but during the hard times, when only three trains a week were run up the K. & B. H. branch, there was but little need for the round house, and the same was torn down. However, with three trains a day, as is now the case, two of which lay over here at night, a round house is badly needed.

James T. Stewart, a farmer of the Liberty vicinity, has begun suit in the county court against Frank and Clyde Crane, minors, and their father, Ed. Crane, for damages in the sum of \$422.50. The boys, while out hunting October 21, 1908, chased a rabbit into a haystack on the Stewart farm. Being unable to scare the animal out, the lads built a fire with the intention of smoking it from its hiding place. The fire soon communicated to a barn and other buildings on the Stewart place, resulting in the destruction of property valued at \$622.50, on which there was \$200 insurance. The boys or their father having failed to make an offer of settlement, Mr. Stewart begins the above action to recover damages with interest and costs of suit.

Forty thousand head of hogs in four days is the best record of the season at the South Omaha market. The receipts heretofore have been unusually small. This is a little better than the average and is no doubt one of the results of the very high prices paid. Last year the entire week corresponding to the present one showed only 40,000 head. The week will probably make a record of 50,000 head. The prices range from about \$8.15 to \$8.27 per hundred. The extreme top of \$8.40 reached last week has not been duplicated.

FEAR DEATH IN FIRE

HOSPITAL BUILDING BURNS AT JACKSONVILLE, ILL.

THE HOME OF INSANE PATIENTS

Frightened Women Taken Out Escape Attendants and Roam the Streets, Some of Them in Scanty Attire.

Jacksonville, Ill.—Fire in the central hospital for the insane here Tuesday night destroyed the north wing of the institution, threatened destruction of other portions for hours and for a time caused much anxiety among the asylum officials in preventing panic and escape among the patients. It is believed a few inmates are at large.

When the fire broke out in the north annex, soon after 8 o'clock, some of the patients escaped, but the asylum authorities helped in the removal of inmates from the burning wing to another portion of the hospital. The fire in the north wing burned fiercely, and the local fire department fought it with difficulty, several firemen being injured by falling walls within the first half hour. It was near midnight before the fire was under control.

Most of the patients rescued from the burning section were escorted by guards and volunteers to the south wing of the asylum, a new addition. The fire, however, so alarmed the patients that the situation became threatening, and citizens of Jacksonville were asked to aid in preventing further disorder.

The patients from one end of the asylum to the other became excited and those who were freed from the burning section gave the guards much concern. Several men and women escaped while being transferred from the burning portion, some of them being captured before they could reach the streets, and others being found in the outlying streets. Some women were found, thinly clad, sitting on curb stones half a mile from the asylum, and taken back.

It is rumored that a number of patients still are in the burned portion of the asylum. These, it is stated, were women on the fourth floor of the four-story building, who are reported to have rushed into the attic. They may have perished. There is no certainty regarding the number of patients in the building.

The fire started in the roof of the north wing, according to the attaches of the institution. What started the fire is not known. The flames spread rapidly to the fourth floor where several hundred women patients were kept. Their cries created a terrific din, which aroused men and women patients throughout the institution.

Hospital attendants and officials worked desperately with the frightened patients and several hundred were in a few minutes removed to quarters in the new part of the asylum. On the fourth floor where flames entered before the patients had been taken away, it is believed that some of the women may have eluded the attendants.

While the firemen were fighting the flames the police received word by telephone that several women were roaming the streets wrapped in blankets, and that other women patients were at large without any clothing whatever, having torn off their night dresses in their excitement. Police and volunteers are searching for the escaped inmates.

At 11 o'clock, though the fire in the north wing still was burning and floors and walls had fallen, danger of further spread of the flames seemed slight. Officials of the asylum were engaged in checking up the inmates of the north wing, but had been unable to report whether all of the 200 patients in the fire stricken portion had accounted for.

Korean Premier Stabbed.
Seoul, Korea.—Premier Yi, the head of the Korean cabinet was stabbed and fatally wounded Tuesday by a Korean, Yie Chaim Yong.

Premier Yi was formerly minister of education in the Korean cabinet. He became prime minister in May, 1907, when a reconstruction of the cabinet followed a five hour audience with Marquis Ito, had with the emperor. Yi was regarded as a firm and competent officer, but his efforts to carry out the policy of the new administration met with continued opposition from his political opponents.

Cook Ignorant, Not a Fraud.
Christiana—"Nobody could feel more sorrow at the commission's crushing slam than myself, for I had learned to appreciate Cook as a devoted friend and an honest man," said Captain Ronald Amundsen Tuesday with much feeling. "The important question now is whether he is a swindler or merely ignorant. I prefer to believe that Dr. Cook himself was confident that he had arrived at the north pole. This must have been a fixed idea with him. If he is swindling he must have changed his character in the past ten years."

Wants and Expects Statehood.
Washington, D. C.—In their desire for statehood, the people of Arizona are a unit, says Governor Sloan in his annual report on affairs of the territory submitted to the secretary of the interior Tuesday.
"They not only desire it," he adds, "but confidently expect to receive it from the present congress."
The population of the territory is estimated at more than 200,000. Governor Sloan reports that the last year was one of prosperity and was marked by a substantial growth in the output of mines and the product of the soil.

WESTERN CANADA

What Prof. Shaw, the Well-Known Agriculturist, Says About It:
"I would sooner raise cattle in Western Canada than in the corn belt of the United States. Feed is cheaper and better for the purpose. You can make an acre of land produce more than your farms will produce the surplus. Wheat can be grown up to the 60th parallel and 800 miles north of the international boundary. Your vacant land will be taken at a rate beyond present conception. We have enough people in the United States alone who want to go to this land." Ready homes to be made for **70,000 Americans** will enter and make their homes in Western Canada this year. 1800 produced another large crop of wheat, corn and barley. In addition to which the cattle exports was an immense item. Cattle raising, dairying, mixed farming and grain growing in the provinces of Manitoba, Saskatchewan and Alberta.
Free homestead and pre-emption areas, as well as lands held by railway and land companies, will provide homes for millions. Adaptable soil, healthful climate, schools, churches and churches, and good railroads.
