

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me, I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOYCE G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

"CROPE THROUGH A CRACK"

Uncle Eph Had at Least One Idea of How His Hogs Might Have Got Away.

Uncle Ephraim had two hogs, which he kept in a pen at the rear end of his little lot. They were of the razor-back variety, and although they were fed bountifully with kitchen waste, it seemed impossible to put fat on their attenuated frames. One morning when he went out to feed them they were not there. They had disappeared, leaving no clue as to the manner in which they had made their escape.

"What's the matter, Uncle Eph?" inquired a neighbor, noticing the deep dejection with which the old man was looking down into the empty pen.

"My haws is done gone, sah," he answered.

"Stolen?"

"No, sah. I don't see no signs dat anybody tuck 'em."

"Did they climb out over the top?"

"No, dey couldn't 'a done dat."

"How do you think they got away?"

"Well, sah," said Uncle Ephraim, "my 'plinton is dat dem haws kind o' raised deirselves up on aidge an' crope through a crack."—Youth's Companion.

An Educational Problem.

Little Margery has just begun to go to the kindergarten, and is filled with a due sense of the importance of her studies there and the solemn value of the attainments that have thus been put within her reach. The other afternoon, after coming home from school, she remained in a brown study for a time, and then said: "Mamma, do I know as much now as I don't know?"

HARD TO DROP But Many Drop It.

A young Calif. wife talks about coffee: "It was hard to drop Mocha and Java and give Postum a trial, but my nerves were so shattered that I was a nervous wreck and of course that means all kinds of ails."

"At first I thought bicycle riding caused it and I gave it up, but my condition remained unchanged. I did not want to acknowledge coffee caused the trouble for I was very fond of it. At that time a friend came to live with us, and I noticed that after he had been with us a week he would not drink his coffee any more. I asked him the reason. He replied, 'I have not had a headache since I left off drinking coffee, some months ago, till last week, when I began again, here at your table. I don't see how anyone can like coffee, anyway, after drinking Postum!'"

"I said nothing, but at once ordered a package of Postum. That was five months ago, and we have drunk no coffee since, except on two occasions when we had company, and the result each time was that my husband could not sleep, but lay awake and tossed and talked half the night. We were convinced that coffee caused his suffering, so he returned to Postum, convinced that coffee was an enemy, instead of a friend, and he is troubled no more with insomnia."

"I, myself, have gained 8 pounds in weight, and my nerves have ceased to quiver. It seems so easy now to quit coffee that caused our aches and ails and take up Postum."

GREAT LOSS OF LIFE

FIFTY-SIX DEATHS IN MEXICAN MINE DISASTER.

DUE TO MINER'S NEGLIGENCE

Rightful Explosion Occurs at Las Esperanzas, Mexico—Location of Bodies Indicate Hard Fight for Life.

Laredo, Tex.—One of the greatest mine disasters in the history of Mexican coal mining which has heretofore experienced several crushing blows, resulting in a tremendous loss of life, took place Wednesday in the Palan mine at Las Esperanzas, Mex. The toll of human life which paid the penalty of negligence on the part of some miner, according to latest reports, is placed at seventy. After an official report showing fifty-three dead, twelve additional bodies were recovered, bringing the total up to sixty-five, while three others have died in the hospitals, making the grand total of victims thus far sixty-eight.

The explosion occurred in No. 3 shaft of the coal mine of the Esperanzas Mining company, and is attributed to the ignition of the mine gas from the cigarette of a miner who was smoking contrary to rules. The miners, mostly Mexicans and Japanese, had assumed their various places in the different workings shortly after 7 o'clock. At 8:30 o'clock those at work above ground were startled by a loud explosion and almost instantly a vast cloud of dust and smoke issued from the mouth of the shaft.

When the onlookers realized the meaning of the disaster, assistance was immediately forthcoming and as soon as the air in the shaft could be purified sufficiently to permit rescuers to descend many volunteers were ready to risk their lives in an endeavor to succor their stricken brothers below.

Cages were immediately sent down loaded to their capacity with miners bent on rescuing their comrades. On the first and second levels, everything was found to be intact, and the men working in those levels were safe. The rescue party went down to the third level, and as soon as the air could be sufficiently cleared, entered the various shafts and began a search for the dead.

Scattered about in various positions in the workings they found the bodies of the men, suffocated, their faces fighting in many instances the bitter fight they had waged to reach pure air and safety without the workings. The rescuers worked in relays searching for and carrying to the surface the bodies of their dead and dying companions.

After a lapse of six hours' work, fifty-three bodies were brought to the surface, while nearly forty injured men were removed to hospitals for treatment. The injured owe their miraculous escape to the fact that they were working at points where they were protected from the rush of foul air. As the bodies were brought out to the surface, screaming women and children were congregated about the mouth of the shaft, awaiting with hope the rescue of loved ones a hope which was in almost every instance turned to despair as corpse after corpse was brought to the surface.

Most of the killed were Mexicans, the Japanese miners being employed in the other parts of the mine.

Seek to Obtain Fortune.

New Castle, Pa.—Members of the Drake family in western Pennsylvania have organized and on February 12 will meet in Niles, O., where plans will be formulated by prominent attorneys to obtain a fortune said to have been left by Sir Francis Drake and now in litigation in the British chancery courts.

The fortune is estimated at \$200,000,000.

Typhoid Fever in Prison.

Leavenworth, Kan.—An epidemic of typhoid fever has broken out in the federal prison here. Richard Bruno of West Virginia is dead from the disease; Eugene Ross of Oklahoma is dying and several others are seriously ill. There are nine patients in the hospital with the malady.

The prison physician attributes the disease to the impure water.

Thinks It Is \$8 Too High.

Columbus, O.—At the annual meeting of the associated Ohio datties, comprising 124 daily newspapers of Ohio, held Wednesday in this city, a statement upon the price which publishers should pay for print paper was made by John Norris, chairman of the committee on paper of the American Newspaper Publishers' association. Mr. Norris said if free competition and normal conditions should prevail in the paper trade, news print should be delivered in press rooms at \$5 a ton, or \$1.75 per hundred pounds.

UNCOOKED MEAT VERY DANGEROUS

FEARFUL SUFFERING CAUSED BY EGGS OF PARASITE WHICH IT MAY CONTAIN—STATEMENT BY A PRIEST.

Omaha, Neb., Feb. 2.—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape worms by his preparations.

During the early part of Cooper's stay in Omaha individuals who were taking "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size."

"Few, indeed, realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half of the chronic stomach trouble now so universal is caused by these parasites."

"Individuals may have them for years and not be aware of the reason for their continued ill-health, but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality."

"These parasites are taken into the system in uncooked food or raw meat, in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of Cooper's 'New Discovery' seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This gruesome prophecy has been amply verified, for not only hundreds but thousands of Omaha people have been relieved of some of these fearful parasites since taking Cooper's preparation, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolis, one of the best known and best beloved priests in this section of the country verifies this. His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run-down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pain in the lower part of my back, and would have to sit down."

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have palpitation of the heart after ascending the stairs."

"The talk about Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the 'New Discovery' as it is called, and a tape-worm about sixty feet in length left my system."

"I am very thankful for this great relief, and now I know what has been the cause of all my suffering."

The story of Father Arnolis is a fair sample of the experience of an astonishing number of Omaha people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

Certainly Not Present.

It was in one of the colored schools of Baltimore, and the teacher was an inexperienced one. There was talking among the little negroes before her.

"I want absolute silence," she said severely.

Still the talking continued.

"I want absolute silence," she repeated again.

At the third demand one very small girl spoke up boldly.

"Assault Silence ain't hyar," she said. "She's got de toothache."—Lippincott's Magazine.

EIGHTEEN YEARS AGO HE HAD LESS THAN 3 DOLLARS

HE IS NOW ONE OF THE RICHEST FARMERS IN SASKATCHEWAN, CENTRAL CANADA.

Arriving in Canada in 1891, just eighteen years ago, E. A. Guillonin could speak but his native language. He is a Frenchman. He had but a little over two dollars in his pocket, thus being short over seven dollars of the ten dollars required to secure entry for a homestead of one hundred and sixty acres. He eventually borrowed the money and near Forget, Saskatchewan, he started life in Canada on the homestead in which to-day he is the fortunate possessor of fifty quarter sections of land, or 8,000 acres.

Now Mr. Guillonin did not acquire all these acres as a result altogether of his farming operations, which were extensive. He looked with satisfaction upon what he was doing on his limited area, he was saving, careful, and had foresight. Surrounding land could be had for about \$3.00 per acre, and he continued buying as his savings would permit, until now he has fifty quarter sections, some of which he can sell at \$25.00 per acre.

Threshed Fifty Thousand Bushels.

This year he was engaged in threshing on his place for 54½ days. He threshed out 50,000 bushels of wheat, of which he sold 34,000 bushels, one train load, at a price varying from 84 to 87 cents per bushel. He has on hand still 16,000 bushels. In addition to wheat he raised 30,000 bushels of oats, 7,000 bushels of barley and 500 bushels of flax. He owns 104 horses and a number of cattle, but since the construction of the railway he has been engaged chiefly in raising wheat. This year he bought his first threshing machine, paying for it the sum of \$2,100. He estimates that the machine earned for him this fall \$3,000, thus paying for itself in one season and leaving \$900 to the good. The weather was very propitious for farm threshing, not a single day being lost in the two months which were spent in this work. The wheat averaged 23 bushels to the acre and graded No. 1 and No. 2 Northern. In the past nine years seven good crops have been harvested on this farm. For six successive years the returns were excellent, that is in the years 1901, 1902, 1903, 1904, 1905 and 1906. In the two following years there was a partial failure. As the years have passed the quality of the buildings on the farm have been steadily improved, and are now as good as can be found in the district. About \$10,000 has been invested in this way by Mr. Guillonin. The farm consists of 6,880 acres, of which about 6,000 acres were under crop this season.

Nil Desperandum.

Percy Parkington rose and brushed the dust from his knees. Then, drawing himself up to his full height, he gazed resolutely upon the form of Miss Muriel Muggins, who nonchalantly fanned herself with the while.

"Very well, Miss Muggins," came in bitter tones from Percy. "Oh, very well! You have spurned me, it is true! Indeed, you have spurned me twice! But, though despair eats my heart, I shall not die! I mean to go into the busy world. I will fight! I will win! My name shall become known, and my riches shall become envied."

"Pardon me for interrupting you, Mr. Parkington," interjected Miss Muggins, "but when you shall have accomplished all that, you may try me again."—Lippincott's.
