#### Divorce Denied.

The Woods divorce case from Merna that occupied the time of the court last week, as well as that of a large number of witnesses was concluded Friday. The court denied the application, thus vindicating the character of Mrs. Woods.

The difference which has existed for a long time between the husband and wife was unfortunate for all concerned. As a rule where a disagreement exists both parties are more or less to blame, which was doubtless true in this unfortunate affair which has not only greatly affected the family equilibrium but has agitated the minds of the community generally. The consensus of opinion is that the trouble has grown out of trivial matters that might have been avoided had there been that faith and confidence that should always exist between husband and wife.

Since the court has, after carefully weighing all the evidence from both sides decreed that these people had not sufficient cause for divorce it is to be hoped that they and their friends may be able to see it in the same light and reconcile all difference, forget the trouble of the past and spend their remaining days together and enjoy their wealth which they have worked so hard to accumulate.

The large attendance at the Masquerade Ball given at Milledale Hall last Saturday night proves that this is coming to be quite a popular place for holding social gatherings and the like.

#### Armstrong's Are Back.

Eli Armstrong and family returned last Friday from their trip of seeing the sights. They have been gone three and a half months and were traveling all the while in the borders of the United States except when they got over the line at Vancouver, and British Columbia. They report having enjoyed good health while gone and were much pleased with their trip. Having finally lost interest in travel they returned to Broken Bow and were glad to get back.
