

STOMACH CENTER OF HUMAN LIFE- ALL ELSE SECONDARY

The immense success which has followed L. T. Cooper during the past year with his new preparation has exceeded anything of the kind ever before witnessed in most of the leading cities where the young man has introduced the medicine. Cooper has a novel theory. He believes that the human stomach is directly responsible for most disease. To quote his own words from an interview upon his arrival in an eastern city: "The average man or woman cannot be sick if the stomach is working properly. To be sure, there are diseases of a virulent nature, such as cancer, tuberculosis, diabetes, etc., which are organic, and are not traceable to the stomach, but even fevers can, in nine cases out of ten, be traced to something taken into the stomach. All of this half-sick, nervous exhaustion that is now so common, is caused by stomachic conditions, and it is because my remedy will and does regulate the stomach that I am meeting with such success."

"To sum the matter up—a sound digestive apparatus that is doing its full duty, getting every particle of vitality out of the food by transferring it to the bowels in a perfectly digested state—this above all else brings health."

Mr. A. C. Brock, chef of the Brock Restaurant, Market District, Boston, Mass., who is a staunch believer in Mr. Cooper's theory and medicine, has this to say: "I had chronic indigestion for over three years. I suffered terribly, and lost about thirty pounds. I was a physical wreck when I started this Cooper medicine, a month or so ago. To-day I am as well as I ever was in my life. I am no longer nervous, my food does not sicken me in the least, and I have a splendid appetite. I am gaining flesh very rapidly—in fact, at the rate of a pound a day. I would not believe any medicine on earth could have done for me what this has done. It is a remarkable preparation, and Mr. Cooper deserves all his success."

Cooper's New Discovery is sold by all druggists. If your druggist cannot supply you, we will forward you the name of a druggist in your city who will. Don't accept "something just as good."—The Cooper Medicine Co., Dayton, Ohio.

TOO HIGH.

The giraffe had a wonderful plan—He would dress in the garments of man! But as each of his collars would have cost him ten dollars, He decided: "I don't think I can!"

HOW A DOCTOR CURED SCALP DISEASE

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months, and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. D. 3, Hamilton, Ga., Jan. 7, 1909."

Kept with Barnum's Circus P. T. Barnum, the famous circus man, once wrote: "I have had the Cuticura Remedies among the contents of my medicine chest with my shows for the last three seasons, and I can cheerfully certify that they were very effective in every case which called for their use."

Big Bugs. Dr. Cook was talking to a Washington correspondent.

"The man is wrong in his attacks," he said. "He errs as ludicrously in his idea of polar conditions as the Brooklyn domestic, who said: "It must be a filthy place, that north pole, ma'am. I hear it's full of ice bugs as big as churches."—Wash Ington Star.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules.

Every night watchman is entitled to his day dreams.

DEFIANCE STARCH never sticks to the iron.

Washington.

President Taft has sent to the senate the nomination of Howard C. Hollister to be United States Judge for the Seventh district of Ohio.

Colonel William H. Bixby, chairman of the Mississippi river commission, was examined by the senate committee on commerce relative to the improvements proposed for the Missouri river from Sioux City to St. Louis or Kansas City to St. Louis.

Declining to take advantage of the pardon given him by President Taft, Thomas Taylor, sentenced in this city to fifteen years in the Atlanta penitentiary for the murder of his wife, will remain as one of the "trustees" of the institution during his long incarceration.

A new bill providing for the erection of American embassies abroad was reported by Representative Lowden from the foreign affairs committee. The bill, which takes the place of the one defeated on the floor of the house last Wednesday, provides a limit of \$150,000 for any one building, including grounds and furnishings.

Internal commerce movements for the month of January, 1910, according to statistics of the department of commerce and labor showed heavy movements of coal and coke in the east.

Two Chippewa Indian chiefs who came to Washington the other day from Orr, Minn., to ask congress for additional land for the Bois Forte Indian reservation, were asphyxiated by illuminating gas in their lodging house.

Personal.

Ex-Senator Platt of New York died from diabetes.

Louis Kloppsch, editor of the Christian Herald, is dead.

Mrs. John Jacob Astor received a final decree of divorce.

Sixty years of married life together without a harsh word is the record claimed by Oliver Ross and his wife of Spokane, Wash.

Jose Domingo de Obaldia, president of Panama, is dead.

J. Pierpont Morgan has arrived at Naples in good health.

Secretary Wilson and Mr. Pinchot clashed before the senate committee.

An American tariff commission will try to settle differences with Canada.

War is to be waged upon souvenir postcards which ridicule the Irish race.

CONSERVATION MEET

THE GOVERNOR ISSUES PROCLAMATION RELATIVE TO SAME.

SUBJECTS TO BE TREATED

Meeting Will Be Known As First Nebraska Conservation and State Development Congress.

It has been decided to hold a Nebraska Conservation and State Development congress on Tuesday and Wednesday, March 29, in this city.

The subjects to be treated are: "Conservation of Natural Resources," "Good Roads," "Seed Corn," "Problems of North western Nebraska," "Public Health" and other kindred subjects.

Governor Shallenberger has issued a call for the convention, during which he says:

"The benefits to be derived from improved methods of cultivation, the improvement of our grasses and grains and of the live stock upon the farm are things which must be brought home to every farmer. Our dairy interests are ever growing and should be fostered and encouraged as one of the most important sources of our material wealth. Good roads should be built to enable the producers of our products to reach the railroad markets easily and quickly. Practical and intelligent work upon our country roads can be made easily possible if careful attention is given to this matter by those who make our laws and they who make and use the roads. A great deal is being said about the value to be derived from the improvement of our inland waterways, but still greater benefit will follow a systematic and thorough improvement of the roads over which the farmer must transport his raw material to market.

"There are problems of development and proper conservation of our natural resources which confront the people of western Nebraska that are to be considered along entirely different lines in the eastern portion of our state. The representatives of the different portions of our state should meet in a state conference once a year to consider these questions and come to mutually understand the needs and requirements of each section and discuss those matters that are essential to every portion of the state and necessary to a realization of all the possibilities of the future. It would be of vast benefit to us, if for no other reason than it would open the eyes of our people and the country generally to the matchless opportunities for the development of material prosperity and a representative citizenship in Nebraska.

"With a firm belief that vital benefits would come to the people of the state by calling a convention of representative men from every county in Nebraska, to meet at the capital city of the commonwealth, to consider the vast problems which I have briefly touched upon as essential to our further advancement, I hereby proclaim and call a convention to be held at Lincoln, Neb., March 29 and 30, 1910, to be known as The First Nebraska Conservation and State Development congress, and earnestly request the entire citizenship of the state to co-operate in carrying out a plan for this gathering, so that it may result in making for the further development of all the natural resources of our state and opportunities for manufacture and improved agriculture as well."

Governor Appoints Delegates.

Governor Shallenberger has appointed Judge Lincoln Frost of Lincoln and Judge Lee S. Estelle of Omaha delegates to the American academy of political and social science, which will meet in Philadelphia April 8 and 9. Among other subjects the academy will consider juvenile court methods.

Call for State Convention.

President H. M. Bushnell of Lincoln has issued a call for the state convention of the Nebraska association of Commercial clubs to be held at Columbus April 27 and 28.

The Industrial Exposition.

Besides fixing dates for the greater Lincoln industrial exposition, May 24 to 28, the committee arranging for that event has agreed on some of the details to be provided. Not only the auditorium building but also the outside space at Thirteenth and M will be utilized for displays and the entertainment of the crowds. The outdoors department will probably include a number of machinery exhibits. The auditorium will be partitioned off for booths, and these will all be constructed in advance.

Six Calves in Year.

H. Huff of Spalding has reported to Secretary Mellor of the state fair board that he has a cow which has given birth to six calves during the last fifteen months. The cow is a registered red Polled-Angus.

Death of University Athlete.

G. O. Hammond of Pawnee City, a prominent University of Nebraska athlete, died a few days ago from a stroke of paralysis. He was a junior in the engineering college of the university.

ANNUAL G. A. R. MEET.

Will Take Place at Fairbury May 17, 18 and 19.

Department Commander L. D. Richards has issued an order giving the following in formation in regard to the annual state meeting of the G. A. R., to be held at Fairbury May 17 to 19:

The thirty-fourth annual encampment, department of Nebraska, Grand Army of the Republic, will be held in Fairbury, Neb., May 17, 18 and 19, 1910.

The council of administration will meet at headquarters on Tuesday, May 17, at 3 o'clock p. m.

A public reception for the people of Fairbury will be held on Tuesday evening, May 17, at the Christian church. A splendid program will be provided by their local committee. Mrs. C. F. Steele of Fairbury will preside.

The parade will take place Wednesday morning, starting promptly at 10 o'clock, under the direction of the Chief-of-Staff, S. B. Jones, of post No. 110, Omaha. Following this parade all state associations will assemble at Grand Army hall at 11:30, where presidents of their respective associations will immediately call the comrades together for the transaction of business.

A camp-fire will be put on in the opera house Wednesday evening, May 18.

Ample accommodations will be provided for all and at reasonable rates, in hotels, boarding houses and private homes, and all comrades who desire to make arrangements in advance will address Comrade O. H. Durand, commander post No. 77, Fairbury, chairman of the local committee. Tell him what you want and you will be provided for. Good speakers have been invited for the evening entertainments through the week to bring good cheer and help to revive interest in the noble order. A complete program of all of these exercises, together with a list of all their local committees, will be announced later by the local committee of Fairbury, through the press.

Unique Test of Seed Corn.

Besides testing corn to see if it will grow and warning farmers of the poor condition of seed corn this year, the Commercial club of Omaha has made a test which shows the result of freezing corn which contains a good deal of moisture. The result shows that even some of the corn standing in the fields, supposed to be the best seed corn Nebraska has this year, may be worthless for seed.

Ten ears of corn were selected which were shown by tests to be strong. Every kernel tested had good sprouts and a strong root system. A government expert at the Omaha grain exchange tested them to learn the moisture. It was less than 16 per cent.

Then these ten good ears were soaked for various lengths of time and after the water dried into the corn they were again tested to find out how much moisture they contained. Those soaked five hours had 22 per cent; six hours 27 per cent, and eight hours 30 per cent. All were put in a refrigerating plant where the air was 12 degrees above zero.

After 76 hours' exposure the corn was again tested. The ears of one hundred kernels from which had 22 per cent moisture, only 28 germinated; while but 26 kernels in one hundred from the ears with 27 per cent moisture showed signs of life and but 21 grains in one hundred taken from the ears containing 31 per cent moisture sprouted.

This test shows that corn containing more than 22 per cent moisture cannot stand freezing for even a short time without killing a large percentage of the kernels and making the ears worthless for seed.

Additional Vacation Granted.

Jack Best, the veteran trainer of state university athletes, for whom a fund is being raised to send him to his old home in England, has been granted two additional months' vacation by Chancellor Avery. According to the custom of former years, Jack's vacation consisted of but one month during the summer, for which time he did not receive pay. Next summer he will receive three months' vacation, two of which will be with full pay. The fund to date has increased to \$184.40.

WESTERN CANADA

What Governor Deneen, of Illinois, Says About It:

Governor Deneen, of Illinois, owns a section of land in Saskatchewan, Canada. He has said in an interview: "As an American I am delighted to see the rapid progress of Western Canada. Our people are flocking across the boundary in thousands, and I have not yet met one who admitted he had made a mistake. There are all doing well. This is a country of opportunity in the Middle West. Saskatchewan and Alberta are not representative in Manitoba, Saskatchewan or Alberta."

125 Million Bushels of Wheat in 1909

Western Canada sold crops for 1909 worth \$170,000,000.00 to the farmer. Free Homesteads of 160 acres, and pre-emption of 160 acres for \$3.00 an acre. Railway and land companies have land for sale at reasonable prices. Many farmers have paid for their land out of the proceeds of one crop. Splendid climate, good schools, excellent railway facilities, low freight rates, wood, water and lumber abundant.

For pamphlet "Last Best West," particulars as to suitable location and low settlers' rates, apply to Dept. of Immigration, Ottawa, Ont., or to Canada's Agent.

GIVE THEM Martin's Roup Remedy

AND KEEP YOUR HENS AND MAKE THEM GOOD LAYERS.
Chicken Roup and kindred diseases are prevalent the year round and in many cases the entire flock becomes diseased and worthless.

This condition cannot exist where MARTIN'S ROUP REMEDY is given in the drinking water, the remedy THAT IS GUARANTEED TO CURE OR MONEY REFUNDED.

Just the thing to give the young chicks. It almost instantly cures the sick and prevents the well ones from disease, and makes it unnecessary to separate the flock.

If your druggist cannot supply you, a full sized package will be sent to your address, prepaid upon receipt of 50 cents and your druggist's name.
