PREACH GOSPEL OF HEALTH

Plan to Have One Sermon on Sunday,
April 24, Devoted to Scourge
of Tuberculosis.

Following campaigns against consumption that have been carried on in the churches of hundreds of cities, and sermons on tuberculosis that have been preached before thousands of congregations during the past year, a movement has been started by the National Association for the Study and Prevention of Tuberculosis to establish a permanent tuberculosis Sunday, on which it is hoped that every one of the 33,000,000 church-goers in the United States will hear the gospel of health. This year the Sunday selected is April 24. It is planned that on April 24 tuberculosis sermons shall be preached in all the churches of the country. Literature will be distributed to members of the congregations, and in every way an effort will be made to teach that tuberculosis is a dangerous disease and that it can be prevented and cured.

Clergymen who desire to obtain additional information in regard to tuberculosis will be able to secure literature from state and local anti-tuberculosis associations and boards of health, as well as from the national association.

Ways and Means.

During what is called an "observation" lesson, a mistress was questioning a class of small boys on certain points or things they had observed in connection with the habits of animals in water.

"What do fishes swim with?" the lady asked.

"With their fins," replied one scholar.

"Right. And dogs?"

"Their paws," answered the next.

"Very good. And, now, the next boy, what do little boys swim with?"

"Bathing-pants, mum!"

An Easy Job.

"Do you think that you can make my daughter happy?" asked Mr. Cumrox.

"She has been happy with you, hasn't she?" rejoined the confident youth.

"I think so, sir."

"Well, if she's that easy to please there ought to be no difficulty."

He Was Immune.

An elderly gentleman, traveling in a stagecoach, was amused by the constant fire of words kept up between two ladies. One of them at last kindly inquired if their conversation did not make his head ache, when he answered, with a great deal of naivete, "No, ma'am; I have been married 25 years."

Reform is a good thing when applied to the other fellow.

WHAT'S THE USE

Sticking to a Habit When It Means Discomfort?

Old King Coffee knocks subjects out tolerably flat at times, and there is no possible doubt of what did it. A Mich. woman gives her experience:

"I used to have liver trouble nearly all of the time and took medicine which relieved me only for a little while. Then every once in a while I would be suddenly doubled up with an awful agony in my stomach. It seemed as though every time I took a breath I would die. No one could suffer any more and live.

"Finally I got down so sick with catarrh of the stomach that I could not turn over in bed, and my stomach did not digest even milk. The doctor finally told me that if I did not give up drinking coffee I would surely die, but I felt I could not give it up.

"However, Husband brought home a package of Postum and it was made strictly according to directions. It was the only thing that would stay on my stomach, and I soon got so I liked it very much.

"Gradually I began to get better, and week by week gained in strength and health. Now I am in perfect condition, and I am convinced that the whole cause of my trouble was coffee drinking, and my getting better was due to leaving off coffee and drinking Postum.

"A short time ago I tasted some coffee and found, to my astonishment, that I did not care anything about it. I never have to take medicine any more. I hope you will use this letter for the benefit of those suffering from the poisonous effects of coffee."

COL. ROOSEVELT IS AT KHARTUM

Ex-President Again in Touch with Civilization.

GREETED BY MANY FRIENDS

Wife and Daughter Among Those Who Journey to Egyptian Frontier City to Welcome Distinguished Traveler and Hunter.

Khartum, Egypt.—Col. Theodore Roosevelt arrived at this place on Monday, and was received officially by Gen. Sir Reginald Wingate, governor general of the Sudan, on behalf of both the Egyptian and English governments. The ex-president was met here by Mrs. Roosevelt and Miss Ethel and by a host of American and European correspondents and numerous delegations of political and other friends from the United States. In fact this historic town is literally filled with visitors brought here to greet the returning traveler.

With his arrival at this place, Col. Roosevelt completed one of the most notable journeys through the wilderness of Africa that has been undertaken since the days of Livingstone and Stanley. It was a remarkable journey both in number of animals slain and preserved as specimens, and because of its lack of accidents and sickness of every kind. Ordinarily a traveler, through the regions through which Col. Roosevelt has passed, comes out of the jungles loaded with malaria and fever germs. Up to the present time, neither Col. Roosevelt nor any of his party have shown any symptoms of having contracted any of the numerous contagious diseases. Gen. Sir Reginald Wingate pro-

vided countless ways for the entertainment of his distinguished guest. Representatives of the many tribes of the desert have been gathered here into one great encampment, and for Col. Roosevelt's entertainment, have indulged in every possible form of native amusement, giving dances, races, etc.

The town of Khartum is a mass of color. Flags of Egypt, England and America are everywhere, and the ex-president has probably appreciated nothing more than the opportunity of visiting this historical spot.

Khartum is virtually built around the grave of "Chinese" Gordon. The city itself is a gigantic monument to that soldier's deeds and his heroic death. In the center of it stands his effigy in bronze, mounted on a camel, gazing with fixed eyes out toward the terrible year that he lay there waiting for relief. Behind the statue stands the British governor's palace, an imposing structure in the Gothic style, typical of British power and British permanence.

Name Gordon Everywhere.

Not far away is the Gordon Memorial college, a school built with funds raised by Gen. Kitchener by subscription throughout Great Britain, in which the Sudanese newer generation is trained for service in the government which conquered its fathers. Everywhere throughout the city the name Gordon appears. There is the Gordon hotel, the Gordon drive and up the White Nile the Gordon tree. Gordon's memory will live so long as Khartum exists. The British have

Council Bluffs.—Wednesday's sessions of the trial of John C. Maybray and the eighty-six other defendants charged with swindling operations by alleged fraudulent use of the mails, produced a kaleidoscope of testimony not yet equalled during the trial.
