

**TOWNS LIKE MEN ARE OFTEN PESSIMISTIC.**

Towns like people get the idea at times that they just cannot make anything go. Good enterprising citizens sometimes say: "If this were such and such town we could make improvements and have things we ought to have, but our town is a stick-in-the-mud sort of a town and we can't." That kind of feeling will kill any town in the world. If we will wake up and stand together we can have anything we want in this town. Our patronage is good, people come from other territory to our town to trade. The question is how long will they do this if we do not make an effort to show our appreciation of their patronage. We have come to the conclusion that this town can have as good a Chautauqua as any town our size in the United States. With a good Chautauqua people will come from miles around and we can renew old acquaintances and make new ones and, by spending the week among our patrons and showing them a good time, we can add much to the trade of our town besides giving to
