Republican Candidate for Governor Announces Attitude on Question of State Import.

THIRTY-FOUR YEARS IN THE STATE

Helped Defeat Corrupt Lobby in Legislature.

BILL FOR RAILWAY COMMISSION

Introduced Measure in Legislature of 1905 Which Brought About Creation of State Board—Not Optionist.

Lincoln, Neb., July 16.—(Special.)—A. E. Cady, who has filed his name as a candidate for the republican nomination for governor, has issued a statement to the voters of the state. The statement is as follows:

"In announcing my candidacy for the republican nomination for governor, I wish to make a brief statement of my attitude relative to matter of most public concern.

"While it is inevitable that new questions of pressing importance will arise from year to year, the issue of clean and prudent government, I deem always to be paramount. Simply because I was zealous, advocate of an issue of passing importance, would not entitle me to public confidence. It is not alone what I stand for today, but what has been my attitude in the past that should be the real measure of my value as a public servant. Within the sphere of my limited influence, I have always contended for clean men and clean methods, and I firmly believe that whatever beside may be essential, that unless built on this foundation, an enduring republic hopeless.

THIRTY-FOUR YEARS IN STATE

"I have been a resident of Nebraska nearly thirty-four years, part of that time engaged in newspaper work and the remainder in commercial pursuits. My office-holding record is confined to two terms in the legislature—in the house 1889 and senate in 1905. In the session of 1889 I was fortunate in being permitted to aid in accomplishing the defeat and downfall of the best organized and most corrupt lobby with which the state was ever infested. I also prepared legislation that prevented exploitation of the state saline lands. I prepared and introduced the bill providing for the submission of an amendment to the constitution creating an elective railway commission which passed in the session of 1905. The adoption of this amendment, together with the legislation enacted to give it effect, have worked a beneficent reform felt in every department of our state government. I advocated and voted for an anti-pass bill in the same session. Though not a member when passed, I advocated the primary law, believing then and now that it is desirable not alone to

Township Clerk.

bring the government near to the people, but what is of greater importance, to awaken in the individual voter a keener sense of the responsibilities of citizenship. While the law may not have realized in full the anticipations of its most zealous advocates yet I confidently believe that it is destined to be a tower of strength to good government.

ALWAYS REPUBLICAN.

"I have always affiliated with the republican party, whose candidate I now aspire to be but I firmly believe that the highest partisan service is rendered by an honest effort to demonstrate that the party with which one affiliates is the best medium through which to attain good government. I do not believe in making the public institutions havens for indigent politicians, or auxiliaries of a political machine, but that they should be conducted on strictly prudent business lines, always with a view to the welfare of the inmates.

"Personally I have never believed the adoption of county option necessary to control the liquor traffic. The enactment of this law, however, is purely a legislative function, with which the executive has nothing to do, until presented to him for his approval or disapproval. If the people through their representatives demanded this legislation, I should deem it my duty, if governor, to approve. I do not construe the power of veto vested in the chief executive to be a personal asset, but a discretionary power necessary to vest in some one, to meet the requirements of grave emergencies and possible invasions of the constitution. To threaten in advance of its enactment to the veto of this legislation might consistently be supplemented by the threat to invoke the pardoning power in behalf of every violator of the law, should the veto be disregarded.

TAFT AND ROOSEVELT.

"I believe that President Taft is in full sympathy with the policies of Mr. Roosevelt, and that his administration will merit and receive general commendation. There has been no wiser legislation in recent years than that creating a tariff commission, giving assurance that future legislation will be based

on a more impartial, scientific and less sectional and partisan basis.

"With this purely personal statement, I submit my candidacy. Should the people see fit to nominate and elect me governor, I will devote to their service whatever of experience and ability I may possess, animated by the sincere desire to administer their affairs in a dignified, economical and business-like manner.
