## TO OUST OFFICIALS

THE GOVERNOR TAKES ACTION AGAINST OMAHA OFFICERS.

## KARBACH FILES A COMPLAINT

Alleges Liquor is Illegally Sold at Many Places and that Officers Refuse to Take Action.

Governor Shallenberger has directed the attorney general to bring quo warranto proceedings to oust from office Chief of Police Donahue of Omaha, Fred Hoye, William J. Hunter and William F. Wappich, members of the Omaha Fire and Po- state board last year and returned by lice board, for failing to enforce the the county boards this year liquor laws in Omaha. The governor acted upon a complaint filed with him by Charles J. Karbach, member of the Omaha Fire and Police board. In the complain it is charged that houses of prostitution to the number of 265 have taken out government licenses to sell intoxicating liquors and have no city license, and that they sell beer at all hours of the day and night and on Sundays. Karbach alleges that he personally visited the red light district and was solicited to enter the houses by girls, and that he informed Chief Donahue of what he saw. The reply the chief made to the complaint, he says, was this: "Your a liar and don't know anything about it."

Karbach calls attention to the fact that Mayor Dahlman, in a speech on June 22, said that the 8 o'clock law was being violated all over the state. He said that the mayor, as exofficio member of this board, has knowledge of the conditions in Omaha.

Governor Shallenberger's letter to the attorney general directing the latter official to begin action against the three members of the fire and police board and Chief Donahue fol-

"Dear Sir: I am enclosing you herewith copy of a complaint filed in my office by Charles J. Karbach against John J. Donahue, chief of police, and Fred Hoye, William J. Hunter and William F. Wappich, members of the board of fire and police commissioners, city of Omaha,

"This is the third complaint that has been filed against these officers, the charges all being similar, within the last year. The evidence adduced upon the former complaints showed that there were violations of the liquor laws in the city of Omaha, but upon the express promise of the chief of police that such violation would be discontinued if they were given an withheld taking any steps to remove such officers at that time. During the past two months my attention opportunity to enforce the laws, I the past two months my attention has been called to repeated and continued violations of the liquor laws in the city of Omaha, and I am convinced beyond a doubt that there is no effort being made on the part of those whose duty it is to see that the laws are enforced in that city to in any way eradicate the evil or remedy the existing conditions.

"This last complaint having been filed by one who is a member of the board of fire and police commissioners, convinces me that the defendants named in this complaint are not acting in good faith with refer- creased in value more than 100 per ence to doing their duty in this mat- cent during the year. Cattle also ter. I am not satisfied that these officers are unable to bring about an observance of the liquor laws in the city of Omaha, but on the contrary am thoroughly convinced that they have not yet been tabulated, but the have no desire so to do, and are in fact wilfully neglecting and refusing to enforce the law.

"You are therefore directed to institute and prosecute quo warranto proceedings in the supreme court, as by law provided, against the defendants named herein, for the purpose of ousting said defendants from the official positions so held by them."

Attorney General Thompson will begin his suit at once. Although the supreme court will not be in session again until September the taking of testimony in the case will begin at once. A majority of the supreme court will be called together to appoint a referee to take testimony.

Water Company a Money Maker. The water department has made a better showing, figured as if it were a private company, than it did last year. The city auditor for years has compiled the statistics of the department in such a way as to answer the criticisms of opponents of municipal ownership, by showing that the city makes money even if its conditions were those of a private company. CityAuditor Ozman figures that in the year ending March 31, 1910, the city made \$33,147.72, on its water depart-

Supplies Are Rejected.

Recently canned goods delivered to the soldiers' home at Grand Island on contract were refused on the ground that they were not equal in quality to the sample bid on. A quarter of a ton of coffee furnished by the same contractor to the same institute has now been rejected as not being equal to the kind contracted for by the state. A sample from the home and some of the coffee delivered were sent to Land Commissioner Cowles. and after he compared the two he approved commandant's decision.

NEBRASKA'S RICHES.

Twelve Millions Increase Chown by Assessors.

With five counties missing the total assessed valuation of the state as returned to the State Board of Equalization by county boards is \$390,286,183. The counties missing are Box Butte, Cedar, Dettel, Gage and Kelth. These counties were assessed last year at \$20,709,296. If these counties are returned at the same valuation this year, the total assessed value of the state will be \$410,995,479, or an increase of \$12,099,660, the total assessment last year being \$398,985,819.

Of the increase this year \$267,985 was on railroad property. Douglas county contributed \$1,671,674 as its portion of the increase and the ramainder, \$10,160,101, was contributed

by the other ninety-one countles. The following table shows the assessment by counties for the years 1909 and 1910, as equalized by the

Compared with last year, the reports of the county assessors to the State Board of Equalization show that in many instances hogs have inshow a material increase, some of the counties reporting the average assessed value \$1 more this year than for 1909. The reports for this year indications are that the number of cattle and hogs in the state will be reduced from the number last year.

Hogs and Cattle.

Bogus Money Swindlers.

An Omaha newspaper reports that two rooming house keepers there have recently been swindled by men who paid them bogus \$20 bills in payment for lodging, for which good money was given as change. The worthless currency consisted of old bills issued in 1856 by a bank in Georgia, which has not been in existence for fifty years. This is the same kind of counterfeit for passing which Axel Johnson and Thomas O'Brien were convicted in the federal court at Lincoln and sentenced to the Fort Leavenworth penientiary, Some of the samples taken from them are in possession of federal authorities in Lincoln and Omaha.

Springview Bank Case.

Judge Lincoln Frost has issued a mandamus to compel the State Banking board to grant a charter for a new bank at Springview, the incorporators having complied with the law. The board refused the charter because it considered this little city had a sufficient number of banks.

A Peach Distributing Point.

Dealers say that peach shipments in Lincoln for the past ten days have broken all previous records. During this period 125 cars of peaches bave been handled. Lincoln has become the largets peach distributing point in

the middle west. Court House Bonds Delivered. Court house bonds from Phelps county, to the amount of \$35,000, were delivered to the state treasurer last week. These bonds were contracted for many months to be used for the purchase of bonds

## CROPS, BUT NO RAIN News Notes of Interest From Various

AGRICULTURE ALONG NEW LINES IN COLD ALASKA.

ARE MELTING ICE FOR MOISTURE

Farming in Its Infancy, and the Season Short, but Already Carried on to a Considerable Extent.

Washington.-Farming by sub-irrigation, and with the moisture sup plied by melting ice, is a novel agricultural method adopted in the interior of Alaska, according to the offficial report of Chief Special Agent McKenzie, who supervised the taking of the recent census in the Fourth district of that territory. The system is proving surprisingly successful. Many kinds of vegetables are being grown, thus rendering living conditions more tolerable in the far northern country.

Not only enumerating the population, but gathering statistics on agricultural, mining and manufacturing conditions was the work of Mr. Mc-Kenzie. The census agent's remarks regarding the farming operations are most interesting. He say that some homesteads have been taken up and that on them farming is conducted on a considerable scale.

All the growth is attained between May 20 and September 15. He attributes the fact that crops ripen not only to the fact that sun shines from sixteen to twenty-four hours per day, but to the correlative fact that the plants are supplied with moisture from beneath, where the melting ice affords a regular and constant supply.

"Rain is practically unknown," he says, "but the necessary moisture comes from below." - The thaw never extends deeper than three feet and often not farther than fifteen inches, but the thaw is regular and the water supply sufficient to force a rapid growth.

Celery, lettuce, radishes, cabbage, turnips and potatoes thrive, and they are so much better than in "the states" that the high price charged by the grower is quite justifiable. Raspberries grow to be as large around at 25 cent pieces, and blueberries and cranberries grow wild in great profusion. Experiments have been made with strawberries and grain, and while no great success is recorded, the outlook is encouraging.

Bad Eggs From Nebraska.

Pittsburg .- A federal food inspector armed with legal papers and a clothespin clapped on his nose seized 125 cans of Nebraska eggs, which were marked "canned fancy mixed and frozen, and ret guaranteed pure and

An analysis by chemists of the agis declared to have disclosed about 2. J. Jordan declares that within two stand against their land. months 20,000 pounds of Nebraska eggs have been brought to Pittsburg.

Catholics Win the Fight.

London.-The king's accession declaration bill in an amended form has passed its second reading in the house of commons by a vote of 410 to 84. The bill as it now stands provides that the pronouncement against catholicism shall be eliminated and the clause "and declare that I am a faithful protestant" substituted. The nonconformists showed strong opposition to the original substituting clause. which read, "And declare that I am a faithful member of the protestant church as by law established in England," and the premier finally accepted their amendment,

Forty Forest Fires.

Missoula, Mont.-Within the Coeur d'Alene forest in northwestern Montana and Idaho, forty large fires are burning and more than 1,000 men are fighting the flames. Not one of these forty fires has been reported as under control and the force of men will be increased as fast as possible.

Miniet Is Made a Prisoner.

Havana:-General Miniet, who start ed an uprising near El Caney, was surprised in camp Wednesday and captured by a detachment of the rural guard under Lieutenant Carelllo. One of Miniet's insurgents was killed, Miniet and two others were taken prisoners and the others fled.

Washington .- To be ready for immediate call for assistance at mine disasters, two portable rescue stations fitted up on specially constructed rallroad cars have been ordered by the federal bureau of mines, for use in the west.

Capital Stays at Guthrie.

Guthrie, Okla.-The state supreme court has handed down a decision in the capital removal case to the effect that Oklahoma's capital shall remain at Guthrie until the legality of the election recently held is determined and the courts have settled the constitutional question embraced in the provision of the enabling act that Guthrie shall remain the capital until 1913, and that no election shall be held after that time to establish a permanent capital.

Figures Showing Expenditures For the Maintenance of Tubercuiosis Sanatoriums.

In a comparative study of the cost of maintenance in thirty tuberculosis sanatoriums the National Association for the Study and Prevention of Tuberculosis found that the food cost in most of the institutions represented one-third of the annual expenditures. The average daily food cost per patient was \$0.544. The expenditures for salaries and wages represented nearly another third, being \$0.481 per day per patient out of a total of \$1.669. The fuel, oil and light cost was \$0.206 per capita per diem, or about one eighth of the total cost. The daily cost in the several institutions ranged all the way from \$0.946 per patient to \$2.555. In the far west and southwest, as in Colorado and New Mexico and California, the cost was higher than in the east, in New York and New England, being \$2.025 per patient as against \$1.748. The total expenditures of the thirty institutions were \$1,363,953.28, while the total receipts from all sources were \$1,548,525.74. More than 70 per cent. of the receipts were received from public funds and private benefactions, only 28.8 per cent. being from patients. Stated in another way only 35 per cent, of the total expenditures were received from patients, the remainder being made up from other sources.

HAVE TO WAIT.

"You ought to take some quinine for that cold.'

"I'm sorry, old man, but there are ninety-eight cures ahead of yours."

The Deacon's Parable.

A self-conscious and egotistical young clergyman was supplying the pulpit of a country church. After the service he asked one of the deacons. a grizzled, plain-spoken man, what he thought of his morning effort.

"Waal," answered the old man, slowly. "I'll tell ye in a kind of parable. I remember Tunk Weatherbee's fust deer hunt, when he was green. He follered the deer's tracks all right, but he follered 'em all day in the wrong direction."—Housekeeper.

How He Kept the Law. "I noticed," said the friend-whocould-be-trusted, after a trip through the factory where preserves are made, "that a white powder is first put in the cans, and that the preserves are then put in the white powder."

"Yes," explained the proprietor to the friend-who-could-be-trusted, "that white powder is a preservative. You see we are compelled to put the preserves in a preservative because an United States District Attorney John and the assessment will not have to idiotic requirement of the government makes it unlawful for us to put a preservative in the preserves."

Women's Secrets There is one man in the United States who has perhaps heard more women's secrets than any other man or women in the

country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent, of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the

specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, scaled in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION

Makes Weak Women Strong,

Sick Women Well.
