State Fair Week.

Secretary Mellor of the state fair board asked his hired man to write something about the fair and this is the result:

"When the frost is on the pumpkin and the fodder is in the stack; when the thirsty politician is so dry he cannot talk; when the snow and the little cowlets do not journey to the fair or airships rise in glory and go sailing through the air. When Jim Dahlman takes his water and Bill Patrick takes his booze, Bryan joins Joe Cannon's party, run for office win or lose; when the cat comes back like Jeffries and Jack Johnson turns to white; when the silver that pass in daylight are still glistening in the night; when soldiers shall close forever and the beef d'ors close for good; when a regiment out in west Lincoln make a neighborhood, when our glories gets in better with the folks of Omaha; when they shout with hosannas o'er his famous clothing law; when St. Paul and David City furnish governors for the state; and populicians in office voluntarily abdicate; when George upon the state house shall be painted fiery red; when Bill Frazz quits playing martyr and is remembered with the dead; when all this has happened in the same future day, then you will find justice from the state fair can't stay away."

A Correction

In the supplement of this issue we say W. J. Taylor made application to Judge Hostetler for a recount of the democrat vote between himself and J. R. Dean of the district. We should have said county instead of district. The canvass was completed yesterday noon under the order of the court and Taylor gained one vote as the result, which leaves J. R. Dean a majority of four in the district on the democrat ticket.

Honored Guests of The Roosevelt Reception.

W. A. George, the republican nominee for State Treasurer, of Broken Bow and T. T. Varney of Ansley have been invited to attend the Roosevelt reception and banquet at Omaha Friday.

A New Linotype Installed.

If the members of the Republican find more typographical errors this week than is usual it is because of our new Linotype machine we have just installed. It will take some practice to get the punctuation, and the spacing correct. In time however we hope to be able to master the situation and give our readers a paper second to none in typographical excellence.

Big Increase In Custer County

Washington, Aug. 31.—Official figures made public today give Custer county, Nebraska, a population of 25,668, as against 19,758 ten years ago, an increase of 5,910. The census of 1890 showed that Custer county at that time had 21,677 inhabitants. During the decade between 1890 and 1900 the population fell off 1,819. The increase from 1900 to 1910 the census officials attribute to the successful operation of dry farming methods.

Miss Minnie Hays of Westerville was a city visitor yesterday.

Probably no invention of late years has been so much interest to the public as that of the air ship. There is something about the act of flying through the air which appeals to everybody. There is a certain fascination about it which attracts everybody and causes them to pay particular attention whenever a flight is about to be made. When the State Fair management concluded to make an attempt to secure someone to make flights for the state fair, they touched the popular chord and in going after the best they kept up their reputation of giving the people just as good and in some instances better than other fairs have been able to secure. In securing the famous Wright brothers they made a grand move and insures visitors to the fair the opportunity of seeing the best. As Wright brothers have have electrified the old world with their aeroplane flights so also will the people of Nebraska have a like opportunity to see the same article of flying as has brought to these famous brothers the title of the "Kings of the Air." They will fly each day of the fair, Sept. 5 to 9.
