THE TEXAS EXHIBIT.

Among the most interesting exhibits at the state fair this year is that of the Valley Fruit Farm and Garden Co., of this city. During the past year this company has sold twenty thousand acres of land adjoining Francetas, Tex., a new town they are establishing, to Nebraska people and they brought the exhibit to the fair to show their customers the products of the land, as a large number of purchasers expect soon to make their permanent home there.

This section of Texas grows, as shown in the exhibit, oranges, figs, pears, apples, peaches, cranberries, tobacco, cotton, Japanese persimmons, peanuts, rice and in fact most everything that is produced from the soil.

Some of the more interesting things to Nebraskans are a four-year-old orange tree full of half grown oranges, a kumquat tree filled with fruit, a fig tree ready for the harvest and cotton as it grows in the field.

In addition to the novelties named the exhibit contains such staples as sugar cane, kaffir corn, broom corn potatoes, sweet potatoes, melons and all kinds of garden produce, samples that attest the productive quality of the gulf coast lands.

There are also many views of scenes presented which bespeaks the character of the land and its fine home-making capacities, and also that is not generally looked upon by Nebraskans as a corn growing country, this exhibit contains specimens of as fine corn as can be grown anywhere, taken from the lands of this company. This entire exhibit was collected upon two days notice, but it is of a character to attract much attention and admiration.

It is almost impossible to believe that this exhibit can display field corn of superior quality, raised on the gulfoast, and yielding ninety bushels to the acre, but that is what the attendants at the booth are prepared to show. Nebraskans who are interested in agricultural pursuits will find much to interest them in this exhibit.—State Journal.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. AUCTION SALE OF LAND

I will offer the E½ NE¼, NW¼ NE¼ sec 10, 120 acres and the NW¼ sec. 11, 160 acres in twp. 17, range 19, Custer County, Nebr., on September 27, 1910, 2 p. m., in Broken Bow at public auction to the highest bidder, no reservation whatever. This land is located on Clear Creek, northeast of Broken Bow, all black loam soil 225 acres in cultivation, 180 acres now in corn. The rent share, one third of the corn, goes with land. Twelve acres seeded to alfalfa this fall a large part of this land is fine bottom land for alfalfa hay and the rolling land is good for alfalfa seed.

I have been watching very closely the sale of lands at auction for about a year and have come to the conclusion that there is much to commend in the auction way of selling, both to the buyer and seller. The sale must be absolute to the highest bidder. The bidders must be convinced of this otherwise it will fail. This sale no doubt will be at a sacrifice, and some one will get a bargain, first for the reason no matter what statement is made the bidders will not be convinced that sale is bona fide to highest bidder, but when this sale is made they will see that it is absolutely bona fide and to the highest bidder.

The land will be offered in 120 and 160 acre tracts, and also as a whole, so you will have a chance to buy 120, 160 or 280 acres.

I think this land will sell for less than I can sell it for at private sale. Therefore you should be on hand to take advantage of a bargain for it is sure to go at a bargain. I could not afford to sell this land at auction and thus give somebody a bargain if I did not have a large acreage of other land, for by this sale I hope to demonstrate to everybody that the sales I shall make are absolutely bona fide to the highest bidder. Other sale sales will follow this one and I hope to establish a reputation at this and soles to follow that will make me to dispose of many tracts of land hereafter. While I own and control a large acreage of land I am no hog and you watch me and see if I dont distribute this land among small buyers, who will develop fine homes. I know it is a strong temptation to buy and hold land. It is the best possible investment. An alfalfa farm is the best business in Nebraska and the ideal home. If interested call at my office and I will give you in detail my plans. I have the lands and you need the land on which to build a home. I think my plan will give everybody a fair and equal show and you are sure to get a bargain in this first offer.

Yours very truly,

WILLIS CADWELL.
