Now that election is over people can again settle down to their regular routine of business.

The support that was given to Hitchcock in Custer county by republicans is without merit.

The question of county option has been approved by the people and is now up before the legislature to enact the law.

The strenuous campaign of Roosevelt in New York state lacked the harmonizing qualities among his own partisans necessary to success.

The five county proposition for county division did not appear to have been any more popular with the voters of Custer county than former lines.

The election of W. A. George for state treasurer is another achievement for Custer county to which the people of Custer county have reason to be proud.

Tuesday was an ideal day for election in this locality and as a result a large vote was polled. Broken Bow's total vote was 841 an increase of ten over last year.

There is much that may be done in any community for the advancement of public interest if the people of the community will join heartily and assist any good enterprise that comes along.

Now that election is over and a big bunch of candidates defeated as usual, it will be in order for the wise guy to offer his sympathy by telling the other fellow why he wasn't elected.

There seems to have existed a family ruy generally in the ranks of the republicans judging from the success of the democrats in New York, New Jersey, Massachusetts, Ohio and Indiana.

The election Tuesday does not seem to have been a party victory for either party but the election of Aldrich for governor gives the republicans more satisfaction than it would ordinarily as a principle was at stake that was of greater importance than mere party success.

A study of the vote for the several candidates for office in Custer county would indicate that voters did not have much regard for their party nominees. There may occasionally be a legitimate excuse for bolting a party nominee. But when a party has made a choice of its candidates by primary election the candidates are the choice of a majority and party loyalty would suggest that every member could be depended upon to support the ticket. Unless members of a political party are loyal to their party nominees party organizations would soon cease to exist as there would be no encouragement to party managers to accept the responsibility of looking after the responsibilities that are required.

President Waters on the Chicago Stock Show.

Pres. H. J. Waters of the Kansas Agricultural College, on a recent occasion expressed himself as follows:

"The International Live Stock Exposition, which will this year be held from November 26th to December 3rd, is the court of last resort in all matters pertaining to the improvement of live stock. It is the place where all controversies regard superior merit are settled for the year, and such contributes more to live stock improvement than any other single agency in America. As an object lesson it is unequalled on the continent. As a means of awakening interest in improved live stock, it and similar shows are indispensable. It is a liberal education in live stock production for any farmer, breeder or student to attend the International."

Nearly every reader has heard of Doan's Kidney Pills. Their good work in Broken Bow still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of case:

J. W. Davison of Broken Bow, Nebr., says: "About two years ago I was troubled by a dull heavy ache through the small of my back and this was accompanied by a tired, languid feeling. My kidneys were disordered, as was shown by the unnatural condition of the secretions from these organs and as time passed, my health became all run down. When I chanced to learn about Doan's Kidney Pills, I procured a supply and in a short time after I began their use, there was a marked improvement I continued taking Doan's Kidney Pills and they helped me so greatly that I consider it my duty to give this public statement in their favor."

The Mazuma Dance.
The Halloween party given by the Mazuma girls last Friday night at the opera house was one of the enjoyable society events of the year. The young ladies of the club worked hard to make the affair a success and, although the crowd was not as large as on previous occasions, there were enough couples to fill the hall comfortably and the dancing continued until the small hours of the morning. Most of the participants were in "rube" costume and some of the "make-ups" were extremely laughable. Those who did not dance were entertained by good orchestral music and the Kalaidiscos of comic figures.
The ladies of St. John's Guild had charge of the refreshments pumpkin pies, over an inch in thickness, home-made bread and home-cured ham, corpulent looking doughnuts and coffee whose fragrance permeated every part of the hall. Good, solid food, guaranteed to make a chronic dyspeptic seek some secluded spot and throw bricks at himself. But everybody took risks at the Halloween party and punished the tables in a manner that made the faces of the guild ladies take on joyous expressions, and if there were any night-mares resulting from over-indulgence, it has not been given out as a piece of general news.
