

COLDS BREED CATARRH

Her Terrible Experience Shows How Peruna Should Be in Every Home to Prevent Colds.

Mrs. C. S. Sager, 1311 Woodland Ave., Kansas City, Mo., writes:

Mrs. C. S. Sager.

"I feel it a duty to you and to others that may be afflicted like myself, to speak for Peruna."

"My trouble first came after the grippe eight or nine years ago, a gathering in my head and neuralgia, I suffered most all the time. My nose, ears and eyes were badly affected for the last two years. I think from your description of internal catarrh that I must have had that also. I suffered very severely."

"Nothing ever relieved me like Peruna. It keeps me from taking cold. With the exception of some deafness I am feeling perfectly cured. I am forty-six years old."

"I feel that words are inadequate to express my praise for Peruna."

Catarrh in Bad Form.

Mrs. Jennie Darling, R. F. D. 1, Emyrna Mills, Maine, writes: "I was unable to do my work for four years, as I had catarrh in a bad form. I coughed incessantly, and got so weak and was confined to my bed. Peruna came to my relief and by faithfully using it, I am able to do my work. Peruna is the best medicine that I ever took."

Lover's Wedding Cake.

Four pounds of our love, half a pound of buttered youth, half a pound of good looks, half a pound of sweet temper, half a pound of self-forgetfulness, half a pound of powdered wits, half an ounce of dry humor, two tablespoonfuls of sweet argument, half a pint of rippling laughter, half a wineglassful of common sense.

Then put the flour of love, good looks and sweet temper into a well-furnished house. Beat the butter of youth to a cream. Mix together blindness of faults, self-forgetfulness, powdered wits, dry humor into sweet argument, then add them to the above. Pour in gently rippling laughter and common sense. Work it together until all is well mixed, then bake gently forever.

Reporter in Luck.

City Editor (hurriedly)—Anything new about that suicide in the St. Fashion hotel?

Reporter—Not much. The man was a stranger, about my size. Shot himself with a 32-caliber revolver. Had on a dress suit at the time. The body had been taken to the morgue.

City Editor—Bout your size. That's lucky. I want you to report a big society wedding in an hour. Rush around to the morgue and ask the keeper to lend you that dress suit.

Can You Blame Him?

"Pa, what does 'skeptical' mean?" "That describes a man's feelings when a woman tells her age."

There is no help for a man who is too lazy to work his friends.

STOPPED SHORT

Taking Tonics, and Built Up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics—drugs.

New material from which to rebuild wasted nerve cells is what should be supplied, and this can be obtained only from proper food.

"Two years ago I found myself on the verge of a complete nervous collapse, due to overwork and study, and to illness in the family," writes a Wisconsin young mother.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics prescribed by physicians, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me and I gained no flesh nor blood.

"Reading of Grape-Nuts, I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day, with cream and drank milk also, went to bed early after eating a dish of Grape-Nuts.

"In about two weeks I was sleeping soundly. In a short time gained 20 pounds in weight and felt like a different woman. My little daughter whom I was obliged to keep out of school last spring on account of chronic catarrh has changed from a thin, pale, nervous child to a rosy, healthy girl and has gone back to school this fall.

"Grape-Nuts and fresh air were the only agents used to accomplish the happy results."

Read "The Road to Wellville," in pgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

BISCUIT SUIT HALTS

NATIONAL COMPANY PREPARES TO RESIST WEIGHT LAW.

STIPULATION NOT AGREED ON

State's Attorneys and Company's Lawyer Fail to Agree on Terms of a Test Case.

The prospects of a suit by Chief Food Commissioner Mains against the National Biscuit company, says the Lincoln Journal, for failure to brand the net weight on packages of food sold in Nebraska are not any brighter than they were a few months ago. The legislature, nearly two years ago, passed an act to require food packages to be branded with the net weight. The National Biscuit company, after a long delay, indignantly withdrew its business from Nebraska and for months and months the people of Nebraska got along with the crackers made by the Loose-Wiles company and an Omaha biscuit company. Finally the National Biscuit company wandered back to Nebraska and offered its wares without taking the pains to pay any attention to the act of the legislature. Finally Mr. Mains, food commissioner of the state, made up his mind to enforce the state law, but he has not done so up to date. For several weeks John L. Webster, attorney for the National Biscuit company, County Attorney Tyrrell and Assistant Attorney General George Ayres have been trying to agree on a state of facts as a basis of a prosecution against the biscuit company, but no agreement has been arrived at.

First County Attorney Tyrrell balked on part of the stipulation proposed by John L. Webster. Then steps were taken to pacify the county at the brunt of the prosecution that the amount of the prosecution that was to be, he would have his way about it. Mr. Tyrrell sat down and dashed off a page or two of stipulation that suited him. This was submitted to Mr. Webster and another conference of the three attorneys was held. Mr. Webster went back to Omaha to ponder over the situation and he soon reported that his clients insisted on having certain things in the stipulation that were left out and on having certain things in the stipulation left out.

Now the conferences between the attorneys will begin over again. In the meantime State Food Commissioner Mains says he intends to win the suit against the biscuit company which is to be made defendant.

Also in the meantime the biscuit company indicates that no difference what the Nebraska supreme court may say about the matter, the company will take the case to the federal court and ascertain whether or not the state of Nebraska has power to interfere with interstate commerce and shut out a food product, just because the net weight is not branded on every package.

Testing of Seed.

The Nebraska seed laboratory located at the state farm which has been closed for a time throughout the summer has again been reopened and is now prepared to test samples of seed for purity and germination. This department is a branch of the United States department of agriculture. The tests are made free of charge for all farmers and others who send seeds for this purpose. In order that no one man shall flood the department with work to the exclusion of others in the state, the number of tests that any one man may have made for him is limited to ten.

Commissioners Must Appt.

Attorney General Mullen, being appealed to, gave it as his opinion that the county commissioners of Cheyenne county must appoint a county judge to fill a vacancy caused by the death of the elected judge. The decision is in line with the opinion of Attorney General Mullen in the case of the vacancy on the railway commission caused by the death of Commissioner W. H. Cowgill. The attorney general held in the matter of the railway commissioner that vacancy must occur thirty days before the general election to be filled at an election, all of the statutes on the subject being construed collectively. He so holds in the case of the vacancy in the county judgeship of Cheyenne county. The county board has no power to appoint, according to the attorney general.

Preacher Sues Newspaper.

The Rev. James R. Gettys of David City, has filed suit against the Lincoln Daily Star for a \$15,000 for libel. The Rev. Gettys asserts that he was libeled when the Star denied his defense of Chester A. Aldrich.

Suit Against Telephone Company.

The railway commission has instructed Attorney General Mullen to file a complaint against the Nebraska Telephone company on the charge of discriminating in rates.

Governor Sells Bull to Prison.

T. W. Smith has paid out of the cash fund at the state penitentiary \$100 for a bull which he bought at the public sale of Governor Shallenberger last October. The freight on the animal from South Omaha to the prison was \$7.75.

STATE'S CROP VALUE.

Labor Bureau Figures It at the Sum of \$220,000,000.

"Despite the blue outlook in the spring, and especially during the middle of the summer season, Nebraska again comes to the front with big crops this year," said Deputy Labor Commissioner Maupin.

"We have just finished compiling the crop statistics, and we find that the nine principal agricultural crops this year total approximately \$220,000,000 in value."

"The corn crop of 1910 amounted to 178,823,128 bushels, an increase of 9,743,991 bushels over 1909. The value of this year's corn crop is \$87,877,346."

"The winter wheat yield this year was 80,617,535 bushels, a decrease from 1909 of 5,827,200 bushels. The value of this year's wheat crop is \$36,555,751."

"The spring wheat yield this year was 4,533,517 bushels, an increase of 664,652 bushels over 1909. The value of the spring wheat crop this year is \$4,079,968."

"The 1910 yield of wild and tame hay, not including alfalfa, was 2,111,394 tons, a decrease of 1,141,946 tons from 1909, which is easily explained by the unfavorable weather conditions during the season when hay should be making its best growth. The increased price, however, more than compensates for the shorter crop, the value this year being \$37,336,728, or nearly \$8,000,000 more than last year."

Alfalfa Crop.

"The alfalfa crop amounted to 1,863,681 tons, a decrease of 8,889 tons from last year. This year's alfalfa crop is worth \$28,255,215."

"This was Nebraska's banner oats year, the total yield being 71,592,877 bushels, worth \$17,989,696. Last year's oats crop amounted to 59,653,479 bushels."

"The rye crop amounted to 823,648 bushels, worth \$493,559."

"The barley crop amounted to 2,333,199 bushels, worth \$1,073,271."

"The potato crop this year is short, amounting to 3,339,198 bushels, worth \$1 a bushel now—and bound to go up."

"The sugar beet crop shows an increase of 120 per cent over 1909, the production this year amounting to 105,369 tons, worth \$526,854."

"There were 1,149,028 bushels of speltz, 154,018 tons of millet, 174,154 tons of sorghum cane and 18,042 tons of kafir corn."

"The department did not take the manufacturing statistics this year, having co-operated with the government census bureau and thus avoiding the duplication of the work. There are plenty of evidences at hand to show a healthy increase of production over the previous year, and it is safe to say that Nebraska's total manufactured output during the last year is upwards of \$250,000,000."

Live Stock Gratifying.

"The live stock figures for 1910 are gratifying. The total valuation for the year is \$174,983,050."

"During the period covered by the report just completed the grand total of Nebraska's output—grain, hay, live stock, butter, eggs, poultry, miscellaneous crops and manufactured products will approximate \$680,000,000. I do not believe the state has ever had a better year, taking everything as a whole."

Money for Soldiers.

Governor Shallenberger has received \$4,925.54 for the Soldiers' home at Grand Island and \$2,100 for the home at Milford. The money was sent by the government as a quarterly payment on the \$100 per member of the soldiers' homes, which it pays annually.

Hanging Pays Stryker.

George Stryker has filed his bill with the state for \$143.40, which is the amount he charged for superintending the execution of Bert Taylor at the state penitentiary. Of this amount \$43.40 is for expenses and the \$100 is his fee.

Deep Waterways Convention.

One request from a Lincoln citizen to be appointed as a delegate to the lakes-to-the-gulf deep waterways convention, to be held in St. Louis on November 25 and 26, has been received by Mayor Love. The mayor is authorized to appoint ten delegates to attend the convention. This being the number to be sent from cities of between 20,000 and 50,000 population. C. H. Tidd of Elm Creek, Neb., has written the mayor that he would like to be appointed a delegate, but from the instructions received Mr. Love is of the opinion that he must appoint the delegates from Lincoln.

The Kidnaping of Miss Wood.

In an effort to arouse the United States state department to an investigation of the kidnaping of Miss Grace Wood, a former Nebraska girl, who has been a resident in Mexico for the past year, Senator Burkett wired Secretary Knox. The Nebraska senator urged that the department look into the matter with all possible expediency.

Convict Attempts Escape.

Elliott, a convict from Douglas county, who lacks four years of having served out a fifteen-year term for burglary, made an attempt to escape. Elliott had been working as a nurse in the hospital which Sunday night contained only one patient, an epileptic. He sawed the bars in the door of the hospital, making the opening in the door through which food is passed large enough to get through. While he was doing this the convict-patient threatened to give alarm, but he quieted him with threats.

TEAR FLAG TO BITS

INSULT TO AMERICANS BY A MEXICAN CITY MOB.

SHOW HATRED FOR YANKEES

Demonstration Due to Lynching of Mexican by Texas Mob—Vigors.

our Protest by Ambassador Wilson.

Mexico City.—Through insults to the American flag and assaults made openly upon American citizens in the states the anti-American demonstration which began with the stoning of the Mexican Herald offices has developed into an affair of international importance. A vigorous protest was registered by the American ambassador with the Mexican department of foreign relations and at the same time the facts were telegraphed to Washington and instructions asked for. On Wednesday night the attacks were renewed. Windows in a dozen American business houses were smashed. All about town shutters were hurriedly drawn and establishments closed. Forces of police appeared in the streets and kept the crowds moving.

Both Carried Oyster Loaf.

New Orleans.—Two accidents, one of them resulting in death and the other possibly fatal, have led to comment in police here. The victim in each case was named Fitzgerald, though not related and an oyster loaf figured in each accident. William O. Fitzgerald, a painter, hurrying home with an oyster loaf early this morning stumbled against a post and supposedly knocked unconscious, fell into a small puddle of water. He was drowned.

Thomas G. Fitzgerald, with another oyster loaf tucked under his arm, rushed from a restaurant to board a car. He fell beneath the wheels & may not recover from his injuries.

May Invoke State Power.

Albany.—Unless the express companies of New York city show an inclination to settle the strike of their employees, the state will invoke its power to effect a settlement, according to State Labor Commissioner John Williams. He sent telegrams to the officials of the United States, Adams, Wells-Fargo, American and National Express companies, saying he has been informed the strike could be settled if reason prevailed.

Bearing on the Uprising.

New Orleans.—The news that the noted Honduran revolutionist, Manuel Bonilla, and his American lieutenant, General Lee Christmas, had been expelled from Guatemala, by order of the president of that country, and that they would be placed aboard the steamer Cartago, due to leave Puerto Cortez for New Orleans, is regarded here as having an important bearing on the talk of a general uprising in Honduras.

Peary to Active Duty.

Washington.—After a leave of absence lasting nearly ten years, during most of which time he was engaged in Arctic exploration, Capt. Robert E. Peary has returned to active duty in the navy department. For the present the famous explorer is to be engaged as an engineering expert for the department of justice in cases before the court of claims, involving construction work for the naval bureau of yards and docks.

Washington.—Some American bankers are looking toward Panama as a field for business. If the next Panama assembly adopts suitable banking laws it is probable several American banking institutions will go there to compete with foreign institutions. The Columbian banking laws are still in force and are considered adequate by the Americans. Officials of the treasury have been consulted about the project.

Baltimore.—Proclaiming the necessity of saving each year the lives of babies from the effects of impure milk, unhealthy environments and other ideals of parenthood, papers urging that the infants of this country be given a square deal will be read at the annual convention of the American association for the study and prevention of infant mortality which commenced at Johns Hopkins university Wednesday evening.

New York.—Forty thousand barrels of kerosene oil in a tank of the Tide-water Oil company at Bayonne, N. J., went up with such a roar that the countryside trembled for miles around. One man, working near the tank, is missing and is believed to have perished. Five others were seriously injured and burned. The fire was confined to the one tank.

Have Tumultuous Session.

Paris.—Another tumultuous session of the chamber of deputies was held Wednesday. The Catholic members made a violent personal attack on Mr. Taffere, minister of labor, who, they declared, was unfit for a place in the ministry.

Premier Briand, who also was bitterly attacked by the Catholics and socialists, elaborated his ministerial declaration by proposing the appointment of a permanent arbitration committee to deal with future labor conflicts.

CALUMET BAKING POWDER

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

At all Grocers.

Received Highest Award World's Pure Food Exposition

"Two bottles Cured My Rheumatism"

"I have been a sufferer from rheumatism for about two years, and have used many liniments and patent medicines which gave me no relief. A lady friend of mine told me she had used your Liniment and found relief at once. I got two bottles and they cured me. I think it is the best Liniment a person can have in the house. I shall always keep a bottle in my house as long as I can get it."—Mrs. E. R. WALLACE, Morrisons, Va.

Another Letter.

Mrs. JAMES MCGRAW, of 1216 Mandeville St., New Orleans, La., writes:—"I take pleasure in writing to you that I had a pain in my arm for five years, and I used

got two bottles and they cured me. I think it is the best Liniment a person can have in the house. I shall always keep a bottle in my house as long as I can get it."—Mrs. E. R. WALLACE, Morrisons, Va.

SLOAN'S LINIMENT

for one week and was completely cured. I recommend your Liniment very highly.

Sloan's Liniment instantly relieves stiffness of the Joints, Sore Throat, Hoarseness, Sprains, Neuralgia, Sciatica and Lumbago. Better and cheaper than porous plasters.

At All Druggists. Price 25c., 50c. and \$1.00
