Our thanks are due to the gentlemen who have so kindly called on us this week and wished us success in our new venture.

Rev. Stuart Crockett, Episcopal minister, will hold services at the church on Friday evening. The public are invited to attend.

A delightful shower of rain on Monday night settled the dust and Tuesday was a day long to be remembered for its cool, salubrious air.

There is a splendid opening in McCook for a bakery or laundry. If the proper persons were to go into either of these there would be fortunes in them.

Mr. and Mrs. G. L. Laws, and their charming daughters, took the train, Wednesday morning, for the Hastings Re-union. Without doubt they will have a pleasant time.

We desire to announce that THE TRIBUNE job department is equal to any in the Republican Valley, and that we are prepared to do all kinds of job work with neatness and dispatch.

The Ladies' Sewing Society will meet Thursday afternoon, Sept. 13th, at the residence of Mrs. G. L. Laws. All are cordially invited to attend, whether members of the society or not.

The McCook Band made a fine appearance as they started for Hastings on Tuesday morning, and the sweet music they discoursed on the platform at the station was loudly echoed by the passengers on the train.

It is our pleasure to return thanks to Mr. Scott of the General Passenger Department of the B. & M. Railway, for courtesies recently shown us. Mr. Scott is a young man whose affability and knowledge of railroading will carry him to the front.

Several discrepancies appeared in the notice of the death of Mrs. Rollins last week, and we take the opportunity of correcting them. The estimable lady was fifty-one years of age, had lived here since last fall and her death was caused by inflammation of the stomach and bowels.

Mr. and Mrs. Carl Clark gave a very pleasant party on Tuesday evening for their son Harry, who stopped off at home on his way from Stratton to Hastings. The young folks of the town were in attendance, and when "ye local" looked in they seemed to be having a most delightful time.

We drop from this issue of the TRIBUNE the card of Dr. P. Boyle, for the reason that the doctor is suffering with inflammation of the eyes, and cannot work at the chair with any satisfaction to himself. He says, however, that he expects to be able to resume work at an early date, and hopes that his patients will not make any engagements elsewhere.

Total in the United States 12,179; Canada 1,007. Published as follows: Dailies, 1,227; Tri-Weeklies, 71; Semi-Weeklies, 151; Weeklies, 9,955; Bi-Weeklies, 23; Semi-Monthlies, 237; Monthlies, 1,324; Bi-Monthlies, 12.

Mr. B. B. Duckworth, one of the heavy producers of this county, was in the city on Tuesday, and stated to a friend that he would have between four and five thousands bushels of corn this year. This will be a revelation to parties in the east who are so ignorant as to believe that no crops are raised in Red Willow county. Just as good crops can be produced here as further east, and without harder labor. The only reason that it has not been done in the past is because the land has been used for stock instead of agricultural purposes.

We notice in one of our exchanges that the B. & M. railroad officials have notified all the road masters in their employ in this and adjoining states that each man can have a week's lay-off to attend the Railroad Exposition to be held in Chicago during the months of June and July. Also all their expenses to and from and while in attendance at the exposition will be paid by the company. This is a most generous offer to their most trusted employees. By this means the company keep their roadmasters fully posted as to all the latest improvements in the working and protecting of their roads, and assist them in learning the workings of other roads and the manner in which things are done by others.

Several times, recently, there mysteriously appeared upon the register of the B. & M. Eating House certain hieroglyphics which not only defied the ability of the landlord and clerk to decipher, but also of the wise men of the east who came thousands of miles to study their peculiar outlines. The mystery was increased from the fact that no one could account for the manner or means by which they appeared. A reporter of THE TRIBUNE dropped into the office of the eating house, Monday, and discovered a knot of excited men discussing the strange characters on the register. He joined the party and on invitation examined the object under discussion. One moment only did he hesitate and he spelled out AND J. WILLEY, for the wonder of many months, was nothing else than the autograph of the jolly, good-hearted surgeon of the B. & M. Railway.

A Chapter of Accidents.

The B. & M. Railway at McCook was the scene of a number of casualties on the 3rd inst. that will long be remembered with horror by the residents of the town. The first was the case of Thomas Hennegan, who had his right breast badly lacerated by a rail, which he was attempting, with the assistance of others, to curve. Dr. Willey was summoned and the case put into his hands.

Next was the injury to Thomas Smith, who, in attempting to save the remaining of another, had his hand caught by a falling rail, and had one finger broken and two others badly bruised. Both of these cases, we are glad to say, are yielding to the surgical treatment, and the parties are on a rapid way to recovery.

The unfortunate day, however, culminated in the killing of Fred Helen, a young man who been with the road but a short time, and who had gained the good opinion of his employers and fellow trainmen. On the night of the fatal day he went to couple a flat car loaded with railroad iron, the iron extended over the end of the car, and in making the coupling, he not stooping low enough to clear the head, the rails struck him just above the ear, tearing off his scalp and crushing his skull. He followed in a very few moments, and the body was turned over to J. E. Berger to be prepared for interment. The following morning it was shipped to York, this state, where friends and relatives of Mr. Helen live.

Still one more unfortunate. No. 40 on Thursday afternoon brought in from Haigler, a old man by the name of James Gray, who had a broken leg, received by being thrown from a horse. The old man was taken to the McCook House, and Dr. Willey took the case in hand, set the broken limb, and the patient is doing well.

Terrible Accident.

One of the most frightful accidents that we have to record was the one which happened, Wednesday afternoon, about 4 o'clock, to S. L. Greeley, our efficient county clerk and worthy citizen. Mr. Greeley is a man who has always taken a delight in hunting, is a good shot and the owner of a fine shotgun, and while preparing to have a little sport, met with this calamity. He was examining a shell to see if it was loaded, and thinking that the cap had been snapped, was probably a little careless and the result was the shell exploded, nearly tearing his hand off and making an ugly wound.

As soon as he recovered sufficiently from the shock he rushed to the street, where a crowd soon gathered. Everything his friends could do or suggest was offered to relieve him and check the flow of blood. Both physicians being out of town, telegrams were sent to Arapahoe, Red Cloud and Hastings. The first to respond were Dr. J. A. Gunn, of Arapahoe, and Dr. Graham, of Stratton. After an examination it was decided that amputation was necessary, and the hand was amputated at the wrist. Friday morning Mr. Greeley was taken to Arapahoe where he will be under the care and attention of Dr. Gunn.
