> THE Townsend Savings Bank has been informed that the action of Credit Mobilier vs. the Union Pacific Railroad Company, on a note of \$2,000,000, has been decided in the Supreme Judicial Court of Massachusetts in the favor of Credit Mobilier. The suit was instituted in the interests of the Townsend Savings Bank.

It is now seven years since James Lick, the California millionaire, at his death, left a vast amount of property for public uses, and not one dollar has reached the designated objects. The trustees, who receive \$1,000 a year each, have just been censured by the California pioneers. But a thousand a year will console a man for a deal of pioneer censure.

ACCURATE statistics of immigration over only thirty-six years of our national life. The emigration commission n New York was organized in 1847, and in that year the first reliable record of arrivals was begun. From that date to the close of last year the total number of immigrants arriving in the United States was more than ten and a half millions. This year's accessions will swell it to over eleven millions. The New York Evening Post institutes a comparison of this total with the population of some of the other countries of the world, and this gives an idea of its immense size. It is more than double the whole population of Ireland or of the Dominion of Canada. It is nearly a third of the population of Great Britain and almost half of that of England.
