

OUR BIRTHDAY.

WITH THIS ISSUE THE TRIBUNE enters upon the third year of its journalistic existence. When the present management took the helm, last fall, little or no rhetoric was wasted in making promises, but they went to work with the secret determination to make THE TRIBUNE a journal in which its readers as well as its editors might take pride—a paper in harmonious keeping with the importance of the town and county. By reason of the patronage given us we have been enabled to enlarge the paper, and to make a number of needed improvements, among which we take pleasure in mentioning the Improved Prouty Cylinder Press with which this office has recently been equipped. In addition, the Job Department has been considerably enlarged to accommodate the demands in that direction. The same rule and spirit will govern THE TRIBUNE as heretofore. Hoping the coming year may be a prosperous one to our patrons as well as ourselves, we remain, THE TRIBUNE.

WE HAD HOPED to be able to give the name of the Republican nominee for President. But as the Convention has adjourned until 7 o'clock this evening, and no permanent organization as yet been made, we go to press. Log-rolling may continue indefinitely.

THE B. & M. railroad extension to Grand Island has been completed. This gives Grand Island a new connection with Omaha, via Lincoln. The city of Grand Island is certainly to be congratulated upon her prosperity. She is now quite an important railroad center, and is growing very rapidly.

TEXAS cattle men howled aloud that they couldn't pay eight cents an acre for the use of grass on state land, but the other day twelve of them got on a jury and rendered a verdict that grass burned by an escaping locomotive spark was worth sixty cents per acre. The fitness of things doesn't always occur to the inexperienced mind.

IT IS PROBABLE that the commercial advantages to be derived by the United States from the opening up of Mexico have been overrated. The country has a sparse and poor population, and the small quantities of goods they are likely to buy must undergo long and costly transportation. The development of the resources of Mexico will be the work of immigrants, who are entering slowly upon the task.

NEBRASKA is young in years, but not in progress and prosperity in every line of work. One of the brightest prospects before the state lies in the educational prospects and facilities this state enjoys, and aside from public schools and state education, the young and growing colleges for higher education are most noteworthy. Doane College at Crete, the Hastings College, the Baptist Seminary at Gibbon, York College, Bellevue College, and numbers of others, comprise denominational schools in the state that are yearly growing in strength, numbers and influence, and are, as they ought to be, a source of pride to all.

THE STATE Republican Central Committee met last Wednesday evening at the Millard hotel in Omaha, for the purpose of selecting the time and place for holding the State Convention for the nomination of State Officers and Presidential Electors. The committee was well attended and general good feeling prevailed. The convention was called for August 27th, at 10 o'clock A. M. The prevailing opinion being that the delegates could reach that city by morning trains from different points in the state and have ample opportunity to transact the business of the convention in time to depart for their homes upon the following morning. The basis of representation remains the same as that fixed for the late convention, which named the national delegates to Chicago. Early nomination with an aggressive campaign was determined upon.—Plattsmouth Herald.

THE CONVENTION.

Committee on Credentials reported not able to report to convention, this evening. Convention adjourned until 10 A. M. to-morrow, (Thursday.)

PRESS OPINIONS.

June 5th.—9 A. M. Times says belief stronger than ever that neither Blaine nor Arthur can be nominated. Says Blaine men offered Logan Vice Presidency to combine forces. Offer was refused. Further says, Arthur practically out of the race unless failure of independent movement brings Edmunds and Hawley vote to him. Logan men claim Arthur's southern vote, after first ballot, while Edmunds men expect his vote in full if transferred. Sherman men also claim strong help from Arthur's forces.

9:51 A. M.—Inter-Ocean says Arthur's ranks stand firm and grow steadily. Tribune says that seven of Mahone Virginia delegation, which Committee on Credentials has decided to admit to Convention will vote for Blaine. Says that there was a conference of Arthur and Edmunds men, last night, to secure enough independent votes to put Arthur ahead of Blaine on first ballot. Waited contest in Alabama, Georgia and Virginia decided by Committee on Credentials favor Arthur delegates. Fifth Kentucky district favor of two Blaine contestants. Maryland favor of two Blaine contestants. Sixth New York favor two Arthur men. Nineteenth New York both regular contesting delegates to be seated.

BULLETIN No. 8.—11:10 A. M. Report of Committee adopted unanimously. 11:15—Report Committee on Credentials is in accordance with the predictions on ballot No. one.

11:45 A. M.—Decided that after report of Committee on Resolutions been read roll of states will be called for presentation of candidates after which ballot will be taken.

BULLETIN No. 9.—12:45 P. M. Minority report changing the order of representation in National Conventions, giving greater representation to Republican states. Exciting warm discussion. 1:22 P. M.—Reference to Arthur in report of platform received with cheers. 1:29 P. M.—Committee on Resolutions presented report. 1:30 P. M.—Platform recommends such revision of tariff as will protect American interests and American labor. 1:32 P. M.—Platform denounced importation of foreign labor, either from China or Asia. 1:45 P. M.—Platform unanimously adopted. 1:48 P. M.—Call of states for members national committee being proceeded with.

Convention adjourned 1:55 P. M. till 7 this P. M. JOHN R. LYNCH, a colored Mississippian, received the temporary Chairmanship, defeating Powell Clayton of Arkansas, who was chosen for that position by the National Committee,—not a very conventional act.

A SURPLUS of \$155,000,000 was reported from the Treasury a few days ago. The emotion of Mr. Morrison and the friends of a horizontal revenue reform upon reading the announcement can be better imagined than described.

"LUCKY" BALDWIN, of San Francisco, is a four-time winner. He has just won his fourth wife, who is twenty years old. As he is sixty years old, and worth \$10,000,000, she may be called one of the most successful "bread-winners" of the day.

F. M. HOLLAND, in the Index, gives utterance once more to the plaintive wail that manhood is running down at the heel. He says farmers are not as good farmers as they were, mechanics are losing their ingenuity, and so on through the list. Is it true? Were the mechanics of a generation ago superior to Edison? Were the lawyers better than Everts and O'Connor? Were the preachers abler than Talmage, Beecher and Swing? Were the newspapers better conducted, the railroads more carefully managed, the telegraph more speedy, than now? Were the crops equal in quantity and quality to those produced in these later degenerate years? How do the horses, cattle, sheep and hogs of forty years ago compare with the domestic animals of today? Was the thought of a generation gone bolder and broader and more vigorous than that of the present hour? Were kindness, charity and truth more the rule of human conduct than now? Did peace then so widely bless mankind? These questions answer themselves and silence the carper who declares the world is growing weaker or worse. It is growing stronger and better, and that growth will continue. No one need be uneasy about the future. He may not be here, and if he is he will see the earth taking care of itself in the highest style of the art.—Journal.

THE opening of the Sioux reservation is likely to hang fire for some time. The members of the Sioux commission have returned from their official trip to the Sisseton reservation, whether they went to arrange with the Sisseton Indians for a sale of a portion of their lands. The commission told the Indians briefly what they were instructed to do, namely, to arrange with them a plan by which the Indians could sell the greater part of the million acres owned by them at not less than \$2.50 per acre. It is estimated that the lands would bring at least \$2,000,000 which at five per cent would yield \$100,000 per year, thereby making a cash annuity of nearly \$5000 for each family of six persons. In reply to the commission the Indians said they had fully considered the proposition and they did not at this time care to sell the lands. The Indians expected a parley and were doubtless surprised when the commissioners left them with the remark that when they got ready to sell they would come back and talk with them. While this is discouraging news to those who would like to buy these valuable lands, the Indians will probably communicate with the commissioners before long.

Oh, by the way, Jim Keene—we call him Jim because we know him so well—was cleaned out in New York the other day amid the general joy of the street. Jim took it pretty hard, and fussed round a good deal, while the boys laughed loud and long. But when they came to settle up Saturday night Jim was a million and a half ahead of the game. They have concluded to defer shipping him home in a freight car till some other Saturday night.

LIKE the lamented Lord Byron, so did one Becky Jones wake up one morning to find herself famous. Becky enjoys the distinction of being the first woman who got into jail for holding her tongue. New York papers sound her praises in columns of editorials.
