The attaches of THE TRIBUNE office are under obligation to Mrs. Rowell for a present of delicious blackberries. They were sent by express from Mt. Ayr, Iowa, by sons of Mrs. Rowell, and arrived in excellent condition, and made a toothsome delicacy to those who have not tasted the berry for years.

We hear of a very disastrous prairie fire, which occurred on the Brush ranch northwest of here. The territory burned over is reported as being thirty miles wide and forty miles long, which, taking into consideration the large number of cattle the range has been feeding, puts the Brush outfit in bad shape indeed for feeding.

A little "bout," Marquis of Gooseberry's rules, in which Messrs. Cruts and Haining were respectively impersonating John L. and Frenchy, occurred in the neighborhood of THE TRIBUNE office, Saturday. The slugging had the appearance of being vigorous, but neither of the participants were much the worse for the wear and tear of such warfare.

Conductor Harvey, of the B. & M., who runs between Red Cloud and Denver, and so well known by the travelling public as one of the most courteous and accommodating conductors in the employ of the Q., purchased of Irwin & John, of this place, the fore part of the week, a quarter section of land 7 miles northwest of town.—Cambridge Monitor.

People are coming into this country rapidly. Don't fail to recommend your local paper. Now is a good time to subscribe—at the entrance upon the Presidential campaign. People should be interested in the state, district and county elections as well and ought to take THE TRIBUNE to keep themselves posted as to the situation.

The delegates to the respective conventions, this fall, are in hard luck, as will be seen by reference to notice to be found in the first column of our editorial page. The usual passes will not be forthcoming according to the aforesaid notice, but the delegates to the different conventions will receive reduced rates by application to local agents. Make a note of this.

This office received a friendly call from an individual who has been lingering around McCook for a number of weeks drinking until he has become half crazed, who, by reason of an imaginary wrong done him, was foadly desirous of initiating us into the mysteries of the pugilistic world. We had an over-weening desire to expectorate on it, and down it,—but did not want to stain the virgin soil of our city with human gore.

A very pleasant party was given by Misses Jennie and Nellie Fisher to a number of friends, Friday evening. A most enjoyable (and hilarious) evening was passed with cards, dancing, singing and other pleasurable pastimes, and augmented as it was by refreshing ice cream, lemonade and cake, the cup of pleasure—well it bubbled over. We noted the presence of the smiling countenances of the following persons: Misses Dell, Ida and Josie Menard, Mamie Hunt, Mabel Meserve and Ida Hollister, of our town, and Belle Buckworth and Carrie Ashmore of Indianola, Messrs. J. F. Forbes, F. L. McCracken, Fred Harris and Frank Harris, of our town, and Ed. Leavenworth and Samuel Ashmore of Indianola.

Nursery agents are active this season, each claiming to represent the best nursery. In choosing which to purchase from, it is well to remember that the Crete Nurseries, Crete, Neb., are located on the main line of the B. & M. R. R., only a few hours from our doors. They have by far the largest nursery in the state; they offer of their own growth one hundred and twenty acres of trees and plants suited to Nebraska. They employ at this time over forty hands and pay over one thousand dollars monthly for labor. This money is kept in circulation in the state. They are within reach and compelled by ordinary business prudence to have stock true to name. Working their agents on salary instead of commission, they can sell cheaper than other nurseries, running men on commission. They have been in the business at Crete twelve years and can point to hundreds of fine bearing orchards planted from their trees. Our readers should notice their offer in another column to those who will purchase one hundred dollars or more, giving a free ride to the nursery and back.

The wagon road between McCook and Indianola about discounts the tortuous passages of the ancient catacombs. You proceed a short distance, when you strike a barb-wire fence, and upon a post or some other convenient article in the neighborhood you will probably be able to decipher and translate the following suggestive—very suggestive—sign: "CLOSED." Well you turn down into some perilous gullie, and proceed a short distance on the even tenor of your way, when a like experience is met with, and so until you approach the Willow, and from there on the road is good. Not only is the travelling public interested in having a half respectable road from McCook to Red Willow, but our business men are greatly interested, and steps should be taken at once to straighten out the miserable cow path that now goes under the dignified title of road, and put the same in repair. If the public are infringing on personal rights along the road, have the road established by the County Commissioners, and, if, on the other hand, parties are obstructing the public highway, have that matter settled. Whatever the cause of the present miserable road leading to the county-seat from this point may be, the fact of its outrageous condition remains, and it ought to be remedied.

This question of purity in our Baking Powder is agitating the minds of the people. But why let this question enter your mind? Why not use Leis' German Baking Powder, and thereby encourage the sale and manufacture of a pure article? Sold by C. H. Rogers.

It was moved to amend, to give those delegates present the authority to cast full vote of precinct, in case there were no citizens present, from said precinct. Carried.

Convention then adjourned sine die.

I am now prepared to offer Flour and Mill Feed in exchange for Wheat, and am also prepared to buy grain to ship. July 5, '84-6m. CLARK WARD.

THE people of Wisner, this state, have voted \$4,000 bonds for the construction of a system of water-works. When we consider that the plant in McCook cost \$30,000, we are led to wonder how extensive Wisner's system will be.

We hear of a young lady who has been badly poisoned by wearing cheap colored stockings. This should be a warning to the girls. Look not upon the gaudy hosiery when it is red, and moveth aright for at last it biteth like an adder and stingeth worse than a yellow jacket at a Sunday school picnic.

DURING the month of July there were 170 fires in the United States which destroyed property valued at \$10,000 and upwards. It is estimated that the property destroyed in this country and Canada during the past month amounted in value to \$8,800,000. It was a disastrous month to the insurance companies.

It has been decided in New York courts that if a man chokes his housekeeper because the potatoes are too small, she has a legal right to empty a cup of warm tea over his person. Unfortunately the housekeeper in the case did not attempt to have the question settled as to the right of her employer to choke her on account of the diminutive size of the "taters. This is a point of considerable interest, and should be legally adjudicated at the earliest convenient moment. We trust it will be called to the attention of the marshal of Omaha for at least an ex-parte decision, as his war on the Mother Hubbard dress marks him a man who gives special study to the little domestic questions heretofore too much neglected by the law.—Topics.
