Just as inevitably as day follows night, do certain courses of action pursued produce certain and like results. If men will persist in becoming inebriated, and are relieved of their gold, as was the case with one of our citizens, this week, silence is the part of discretion.
Through courtesy of J. W. Dyer we are enabled to give a report from Hayes county, in this issue. Now, who will favor THE TRIBUNE with a compilation of the crops, stock and the like of Red Willow county. We will take pleasure in putting such a report before our readers.
J. D. Rowley, of Weaver precinct, came down from McCook, where he is employed by the railroad company, about ten days ago, and improved his home-stead five miles southeast of town by erecting thereon a good frame house 12x20. He returned to McCook on Monday.—Arapahoe Mirror.

Long before the land office doors are open a crowd of land seekers may be seen thronging the doorway leading to that Mecca of the land-hungry. Parties having claims cannot exercise too much care concerning them, as contests are being instituted wherever there is a show of successfully prosecuting the same.
The wind has been having a little "blow-out," the past few days. On Wednesday night that very familiar element in Nebraska became exuberant and playful to an unmeasured degree, and Lytle Bros' implement shed and a number of other structures of minor mention were blown over and demolished.
All persons wanting water service should make application for the same at once, so that the work can be done before freezing weather, as it will save expense to the consumer. The Company will put in all connecting works from their own material.

It's a fact wherever Leis' German Baking Powder has been used, it receives the indorsement of every housewife. This Baking Powder is made from pure Cream Tartar, and we offer the large reward of \$500 as a guarantee of its purity. It received the highest indorsement at the Great Western National Fair. A large audience, composed of people from Arapahoe, Cambridge, Indianola and our town, greeted the performers in Saturday evening's musical recital. Some parts of the program, which was unfortunately not conspicuously brief, were well received; others gave evidences of having been too hastily prepared, and consequently were rather indifferently rendered.
The skating rink on West Dennison street is assuming form rapidly, and will soon be ready for the pleasure loving public. The building is as to dimensions 60x40 feet, rather too small for the purpose, but we understand that it is the intention to enlarge the rink if the business assumes proportions justifying such a course. Properly managed a rink cannot fail of being well patronized.
The bricklayers are making fair progress on the walls of LaTourrette's store. W. C. looks forward eagerly to the time when he will be able to occupy the same.
A choice Timber Claim for sale. Enquire of J. E. Cochran.

THE Courier replies to the Bee's attack on Senator Dolan's record, this week. Such a course, it seems to us, is not necessary and impolitic. The Bee's attitude is well understood by thinking voters, and will be treated accordingly. One who replies seriously to Rosewater will have his pains for his trouble.
We are authorized to announce that the public schools will open on Monday a week, the 13th day of October. The board had hoped to be able to open on the 6th inst., but find that it will be impossible so to do. The children can begin the task of resurrecting their text books, removing the dust therefrom, preparatory to starting to school on the 13th.
We noted the presence of the following people from down the road, at the musical recital, Saturday evening: Dr. and Mrs. Shaw, Mr. and Mrs. Maiken, Senator and Mrs. Dolan, Treasurer and Mrs. Goodrich, Sheriff and Mrs. Wellborn and daughter, Mr. and Mrs. Hetherington, Mr. and Mrs. Ward and daughter, Mrs. S. W. Harney and Thos. Teas, Indianola. E. E. Teal, Nora Westgate, W. S. Green and H. H. Howenstein, Stockville. Sallie Van Arsdol, Gertrude Newman and Mr. and Mrs. James John, Cambridge. Miss J. Clute, Mrs. B. Elliott, Miss Colvin and Messrs. Stewart and Colvin, Arapahoe.

The ball given in Menard's Hall, Monday evening, by Stokes & Troth of the Willow, in honor of eastern friends now visiting with them, was an affair to which all present can refer with pleasurable recollections. The gentlemen having the dance in charge had invited a large number of friends on the Willow, in McCook, and from Benkelman, and a jolly, eager lot of dancers responded. The evening was bracing, and as all present were in a "light fantastic" mood, the dancing was enjoyed with a keen relish. Lunch was served at the City Bakery and the manner in which the refreshing coffee, sandwiches, et cetera became non est is suggestive of an invigorating climate. The affair was withal a pleasant one, and a happy reflection of the generosity of Messrs. Stokes & Troth.

A missionary of the Woman's Christian Temperance Union, in the person of Mrs. Cooley of Valparaiso, this state, addressed a large audience at the Congregational Church, Sunday evening, on the work and aims of the W. C. T. U., and on the vital question of temperance. After her address Mrs. Cooley proceeded to organize a local union. A goodly number of signers were received, and the following officers elected: President, Mrs. W. O. Moody; Vice Presidents, Mrs. Geo. Dungan of the Congregational Church, Mrs. Patton of the Methodist, and Mrs. T. G. Rees of the Episcopal; Secretary, Mrs. Stevenson; Recording Secretary, Mrs. Carl Clark; Treasurer, Mrs. J. B. Meserve. This union, and it is to be hoped that its numbers will at once be largely augmented by the earnest women of McCook, has a great work to perform and doubtless will receive the support and co-operation it merits.
If anything in the world will make a man feel badly, except pinching his fingers in the crack of a door, it is a quarrel. No man fails to think less of himself afterwards than he did before; it degrades him in the eyes of others, and what is worse, tends to blunt his sensibilities, and increase his irritability. The fact is that the more peaceably and quietly we get on, the better for our neighbors. In nine cases out of ten, the better course is, if a man cheats you to quit dealing with him; if he slanders you take care to live down his slanders. Let such persons alone, for there is nothing better than this way of dealing with those who injure us.—Selected.

The amenities of journalistic life in Nevada are spiced with originality. One editor recently declared that his "esteemed contemporary has been known to kiss a child and inoculate it with delirium tremens." But upon investigation he was compelled to admit that it was a child recently from the east.

Samuel Tate, Manager of the Red Willow Cattle Co., was in town, Monday. Uncle Sam has beaten the record, this fall. He turned loose 438 steers, last year, and gathered 460 heaves, this fall, and has 33 more to gather. This looks a little dubious, but Manager Tate can illuminate the doubting mind.
R. O. Phillips of the Lincoln Land Co. was in town a number of days, the latter part of last week, seeing to some proposed improvements in the water works system. Another pump and engine will be put in at once, a building erected for the supplies that the company will carry hereafter, and things braced up generally.
Mr. and Mrs. C. Clothier of Mt. Holly, N. J., were guests at the Eating House a number of days, last week. They accompanied Messrs. Stokes & Troth up to their ranch on the Willow, Tuesday, where they will spend a week or ten days. Mr. C. is interested in stock on the above-mentioned stream. Both Mr. Clothier and lady were agreeably disappointed in this country, having expected to see a much rougher and wilder state of things than they found existing here.

Mr. Benjamin of Western Iowa, who located on the divide south of here last spring, arrived last week, with his family and a car-load of goods, which looks very much as if he meant business. JOSIE.
BONDVILLE.
Do not imagine for one moment that Mother's Son is either dead or dying, for neither is the case. He has only been lost in the labyrinth of thought, as the enormity of his position (that of city reporter for THE TRIBUNE) arose before his mind's eye.
Before we proceed with the news of the day we wish to tender our sincere thanks to you, Mr. Editor, for your generosity is unbounded—it far surpasses that of the majority of your profession. WE called for WORKERS. Let your drones come this way and you'll find how soon they'll be stung nigh unto death. We have none such nor wish none. McCook is perfectly welcome to all the box weights.
A. J. Brent spent the past week at Danbury.
Bondville expects to be well represented at the county fair.

We were an eye witness to the unearthing of some enormous potatoes produced in Red Willow soil many measuring 7, 8, 8½ and 9 inches in length, and from 2 to 3½ inches in diameter.
Bondville arises in indignation. Why do not the people of Indianola look after the doggeries of that city, or are her authorities asleep to such? We are weekly and often daily victimized to listen to the railings and cursings or witness the pugilistic feats and bloody faces of the intoxicated men. This tells the tale of a temperance town. We feel for the future of such.

A DIM and lurid glow has been perceptible since Saturday evening on the southeastern sky. But no one need think that the aurora borealis has shifted its quarters or that the world is burning up. It is only the reflection of the red with which Leavenworth was painted when the news came that the soldier's home was secured.—Topics.
