The Ludell, Kas., Settler says: "A daily mail to McCook is needed." So it is, and McCook needs more and better postal facilities. No one is able to give a satisfactory explanation as to why our town should play second fiddle to other towns of half her population. Why don't we have a mail route north and south, as is our right by reason of location and importance as a townthe best one in the Republican Valley. Why is it that McCook is not a distributing point, that every particle of mail from this point for the north and south should go to Indianola for distribution. Mail from this place to outlying country postoffices should be made up here. Those interested want a new route, and if the proper effort is made we will get it.
