Large stock of new stationery just received. A handsome assortment of visiting cards, regret cards, etc.

Messrs. Armacost and Cooper recently returned from a five days ride over the range, and give it as their opinion that the loss of old range cattle will not exceed 5 per centum.

For all time did Shakespeare write. He seems, moreover, to have indicated the true proportion, when he remarked: "To be honest, as this world goes, is to be one man picked out of ten thousand."

BENCH-BAR.—Mrs. Cline of Culbertson, we are informed, was in town, Friday, on an errand, in which one of our land men figured prominently. We have not leisure time to investigate the matter.

Three new residences are now in course of erection on the south side. Isaac Hoback, late of the Commercial House, is building one, and Edward Carle, lately from Iowa, is putting up the other two.

No. 39 was about two hours late, Sunday, by reason of a few slight wash-outs at points east of here. But on the whole, the B. & M. has been remarkably free from delays and accidents, this winter—in marked contrast with other roads.

No. 39, Friday was crowded with emigrants, who are coming in to possess the land in earnest. Every day settlers may be seen wending their out to their claims; car-loads of household goods, stock, etc., are being unloaded daily, and still they come.

FOR SALE—A good 1/4 sec. of deeded land, with good improvements, and on good terms. Will also receive stock to pasture, for the season, but will not be responsible for accidents, should any occur. For information inquire of J. P. Squire, 6 miles S. W. of McCook.

We are in receipt of a postal card from J. E. Service, dated at Lebanon, Ind., Feb. 27th, 1885, wherein he offers a reward of \$50 to any person or persons who will make known to him the whereabouts of Martin W. Service, who is supposed to have taken a home.

ANOTHER CHANGE.—Lloyd Hileman has disposed of his stock interests on Driftwood to his brother R. S. Hileman. Lloyd Hileman will leave, to-morrow morning, for Exeter, Neb., where he will engage in business with his father-in-law. THE TRIBUNE will enlighten him on Red Willow county affairs.

A NEW FIRM.—S. M. Stacy, a well-known contractor of Omaha, has recently moved to McCook and will engage in the business of contracting and building. Mr. Stacy is now building a residence for himself, just above Thos. Colfer's home. Mr. Stacy has associated Frank Ainslee with him in the business.

We hope the fellow who travels around the country and gets his drinks on the strength of being editor of the Faber will get a sufficient quantity of beverage, after a while, to paralyze his tongue. There is one consolation in the matter, we will enjoy the benefit of a reputation, if it ever happens that we travel and need such a thing.—Faber.

Yes, Brother Powers, we are interested in Mr. Crampton about \$3 worth, on the strength of his supposed connection with the Faber. Others in McCook are similarly situated.

The thaw of last week flooded Mr. Farley's cellar, and damaged some \$300 worth of property. Something ought to be done on Dennison street by means of which the water, which pours down that draw at every recurring thaw or rain, can be conducted down Manchester street to Railroad street, along which it can readily reach the railroad ditch east of the Eating House. Action should be taken at once to insure the business men on Main street against further loss.

Choice cuts of pork and beef at Farley's.

We publish in this issue the Eighteenth Annual Statement of the Union Central Life Insurance Co. of Cincinnati, Ohio. The statement shows the Company to be stronger than ever before, notwithstanding the hard times of '84. This Company is one of a very few that shows substantial gains over '83. Their life rate endowment policies are deservedly popular, and are preferred by many careful insurers over any policy issued. They are absolutely non-forfeitable and incontestable after three annual payments, and in default of payment would not lapse until whole reserve to credit of insured was exhausted in payment of premiums. This Company is doing a large business in Nebraska and is one of the most prosperous and prudently managed in the country. It is largely patronized by business men of McCook; their prompt and honorable payment of the John A. Lee loss in October last is fresh in the minds of our citizens.

Thursday night and Friday were the scene of a number of incipient fires in Kendall's hall. The fire originated in the cellar each time, probably the first appearance not having been extinguished was the cause of the others. The fire was first noticed and presumably extinguished before midnight, but broke out again in the straw in the cellar about two in the morning, but was controlled. At 9 o'clock another alarm was sounded, and the hose attached to the hydrant at the corner of the Citizens' Bank, and after considerable work, the fire was entirely extinguished. It certainly was a lucky feature of the affair, that parties were in the hall at all hours of the night, or the building, and probably adjoining ones as well, would have been destroyed. Billiards is a most fascinating game, you know.

OLD ESTABLISHMENT.—NEW MANAGEMENT.—The furniture store of J. E. Berger, by terms of sale, passed into the possession of J. P. Mathes, March 1st, when an inventory was taken, and the entire stock overhauled and re-arranged in fine shape, and the Great Western Furniture Emporium, under the deft fingers of Mr. Mathes and his efficient assistant, Mr. Miller from St. Joe, now presents an appearance as neat and trim as a ship of the line. An invitation is extended to call and inspect a line of furniture than which the Republican Valley affords no superior in style and completeness. The present stock will be largely increased at once and maintained up to a standard sufficient to meet all the demands of the trade.

THE NEW BANK.—H. K. Adams, cashier of the McCook Banking Co., arrived in town, last Friday, and has been busy at work setting matters in order, putting their elegant burglar-proof safe in position, and unpacking stationery, etc. Their temporary quarters in the Chicago Lumber Yard's office were gotten in ship-shape and the bank opened for business, Wednesday morning. The Company has purchased lots and will proceed to erect thereon, at once, a handsome, two-story brick building, fitted up throughout in elegant shape, particulars of which will be given hereafter.

The entertainment given in the Opera Hall, by the Chicago Comedy Co., last week, were probably the best ever given in our midst. The support was very fair, and the company carries two or three leading players of talent that few travelling companies can boast of. An excellent brass band and orchestra add greatly to the company—and their music was greatly enjoyed and highly commented upon. The company can depend upon a liberal patronage, should they visit our city in the future.

A young man by the name of Evans from Kansas lost a valuable horse at Small's barn, Tuesday night. The loss is a severe one to the young man—being one of two with which he purposed doing breaking this spring.

The households of E. H. McCormick and L. R. Bragg have each been augmented, this week. A boy to E. H., and to L. R., a girl. McCook is pledged to keep pace with the emigration.

We notice that H. W. Pike has completed fencing in his 50x140 addition to his lumber yard. This gives H. W. a commodious and convenient yard.

Stock boarded by the day or week at Olcott's barn, opposite Colvin House. Also, buys and sells stock on commission.

Something of interest to everybody in our next by H. W. Pike. Too busy to write an ad. this week.

For the best Flour in town call at City Bakery.

In the short two years that he has resided on Driftwood, Mr. Newman, by his gentlemanly treatment and honorable dealing, has made many warm friends; in his departure Driftwood Precinct loses a valuable citizen, an earnest advocate and supporter of schools, and a staunch temperance worker, he being one of the two men in our precinct who voted the temperance ticket at the late election.

Seed For Sale.

BEAVER BITS.

Probably there never has been a time in the history of Red Willow county when there has been as much excitement in the grain trade as for the past few days.
Messrs. Blackman and Shippee began contracting rye at 31c. and in about a week's time it has gone up until on Saturday last as high as 40c. was paid. But the strangest part lies in the fact that during all this time there has been no change worth mentioning in the eastern markets in this cereal, and our Indianola buyers could pay but 25c. per bu. until he was prompted by the gentlemen above referred to. The result has been wonderful, as a large amount of rye has changed hands, filling the streets of Indianola with business. Farmers are feeling that their work has not been in vain, and with renewed courage are purchasing machinery, with which to farm, feeling that there is a reasonable assurance of raising a bountiful crop and getting a fair price for it.
Nothing will retard the progress of a county more than for buyers to club together to depreciate prices of farm produce to the extent of placing it below the price it should bring to enable the producer to obtain a fair living profit for his labor, and when it is done not only the producer, but the whole business community, will feel it; even such buyers themselves will be the losers, as is the fact in the above case.
A large amount of good wheat is being held for a fair price, who will be the men to bid a fair figure and start it? Most farmers are confident that at the present price of flour and other commodities that wheat should bring more than 45c., the amount now proposed by Indianola men. A man of good judgment on general matters remarked to the writer a few days ago, that it was his opinion that wheat could be profitable to buyers at 65c. per bushel, and even higher, and this price would undoubtedly move a vast amount of wheat and give our farmer friends a boom that every business man would be sure to feel. The writer has no wheat for sale, but for good of all would be glad to see the wheat growers encouraged by receiving the full value of their wheat, even if the buyer did handle it on a reasonably small margin. The quality of wheat raised in Red Willow county the past season is extra good generally, and it will be held for a good fair price, and the sooner that price comes the better for all concerned.
