A neat little cottage is being built by Mr. Zeigler, (with Frees & Hocknell) on the hill just north of C. D. Ercanbrack's residence. It differs somewhat in style architecture from the other comfortable homes that adorn that part of our town. The unique in design will still further improve the general appearance.

Among the stock turned over by the Baily Bros. to Stokes & Troth is a half-breed Buffalo cow, probably the only one in this country. This cow resembles the Buffalo more than the native cow, but the offspring more nearly resemble natives. Notwithstanding the good weather of last month there were about thirty-five head of entle killed along the railroad this side of McCook.—Brush Lariat.

Forgetting orders very nearly occasioned what might have been a disastrous wreck, Sunday evening last, at Indianola. Both conductor and engineer are men in whom the company has great confidence, and both men feel their situation keenly.

CHANGE OF BASIS—William McCook moved his stock, etc., to his ranch, four miles west of Culbertson, this week. William has quite a bunch of cattle, and his place just east of town had become too limited to accommodate his stock interests.

It is the query on many lips, "Where do all these people go to?" Every train brings its scores of settlers to our gates, and still there seems to be room for many more. You can't approximate the number of people in this country until you institute a search through the hundreds of canyons that intersect the same.

We hear that Fred. Munsinger charged with setting out prairie fires south-east of here has skipped bail, (\$500) and that Sheriff Welborn, with a number of Deputies, is scouring the country. It appears that Harsh had "peached" and that Munsinger has thought flight the better part of valor. There is some fear of violence. Munsinger is armed to the teeth, and he has already demonstrated that he will shoot.

A number of intoxicated hoodlums broke down two doors at the Churchill House, Thursday night last, and raised "Old Ned" generally, to the annoyance and disturbance of the lodgers therein. One of the party also stole an overcoat, which was recovered by the owner, shortly thereafter, and the thief soundly thumped. Mine host Colvin was around, Friday morning, inquiring as to the condition of the cooler for the reception of guests.

Give encouragement to the teachers, scholars and the cause of education by indicating your interest by your presence.

Mason & Morgan's mammoth Uncle Tom's Cabin appeared at the Opera House last night to a packed house. The piece was well presented, and the various characters were well personated; the scenic effects were good, and the transformation "Beautiful Gates Ajar" was the most beautiful scene ever presented here. The house was filled to overflowing at the matinee, the largest audience ever assembled here. The company is made up of ladies and gentlemen, and we bespeak for them a crowded house should they ever return here again.—Aurora Beacon.

The above company will appear at the Opera Hall, Monday evening, March 30th. Admission, adults, 50c.; children, 35c. Reserved seats without extra charge at McCracken's Jewelry store.

Choice cuts of pork and beef at Farley's.

The indications now are that the bone of contention at the coming election will be on the question of high license or low license. A strong move (in a quiet way) is being made to put up a ticket for Trustees favoring low license, say at about half the amount now required. And we caution the people of this city to be on the alert. The present license should not be reduced one penny. The sentiment of the community seems to demand that a high license board be elected, and in this event it is to the interest of the temperance people to use their influence in electing men who will hold the license at its present figure, and men who will enforce the law in relation thereto as nearly to the letter as possible. An effort to elect a no license board at this period will doubtless fail, but a board who are in favor of high license and of strict enforcement of the laws and ordinances can surely be elected, and such men will conduct our affairs with a greater degree of success than we can expect from either a low license or a no license board. Primarily, THE TRIBUNE favors no license. But, as the matter now stands, let us have the next best thing—high license and strict enforcement of the law.

A most forlorn and paralyzed individual was on the street, last night, claiming that he had been drugged and by some means, he knew not how, relieved of \$50. We have very little confidence in the statements of the poor wretch, who while making the same was in a most deplorable state, half-dazed and as weak as a cat from the effects of whisky or some other villainous drug, but the facts seem to indicate that he lost his money willingly, or unwillingly, in an establishment wherein gambling is one of the innocent amusements. Lightning sometimes strikes at this elevation.

SOCIAL—Dr. and Mrs. S. L. Green entertained quite a number of the young people of our city, Tuesday evening, in a very hospitable and enjoyable manner. With cards and Mrs. Green's enticing refreshments and the inspiration consequent upon the social intercourse of so many gay young spirits, a pleasant evening was passed. Those present were: Misses Fisher, Hollister, Shaw, Rowell, Buck and Menard. Messrs. Ebert, Ellison, Chenery, Forbes, Frank Harris, McCracken, Sam Ashmore and Chas. Fisher.

We publish, by request, the following lines on the death of little Bruce White, (whose demise was noted in this paper some weeks since.)

In our home a sunbeam fair,
Sent us happiness and light,
Basking in its radiance fair,
From the morning till the night.

Our hearts o'erflowed with love and joy,
When'er we saw its gentle ray,
Our darling little blue eyed boy,
More sweet and lovely grew each day.

Around our willing hearts the band
Of love was tighter drawn each day,
Until a glorious angel band,
Had borne our little Bruce away.

CORA M. NESMITH.

Magnetic Cures. Dr. HILL man to discover the philosophical principle that all nervous pains, aches, and debility should be treated directly from the "brain battery," from whence emanate all nervous force and will power. All other forms of treatment for nervous disorders are failures. Every person who suffers from nervousness knows this, and that medicines only palliate, but never cure. These appliances are magnetic, and differ from all others on the market which are electric. Magnetism is the life of man. Their curative qualities are wonderful in all nervous complaints. The Roman physicians practiced magnetic treatment 1,000 years ago in nervous diseases, but did not treat from the "brain battery." Dr. Hill has made this great discovery, the only sure cure for nervous headaches, Rheumatism, Neuralgia, Liver and Kidney Complaints, Paralysis, Gout, Spinal weakness, Dyspepsia, Constipation, Cold Limbs and Feet, and General Debility. Miraculous cures noted every day. The Magnetic Brush lifts nails, and the only article of the kind invented. It is the greatest curative agent known and used in a "brush bath" imparts tone, replenishes the debilitated system, and creates warmth. In chronic cases our Magnetic Bands, Belts and Pads should be used. The brushes are warranted to do the work, or the money refunded. Send for circular and testimonials. By giving a description of nervous trouble, we will give advice and directions how to use our appliances. HILL MEDICAL MAGNETIC APPLIANCE COMPANY, Lock Box 55, Washington, D. C.
