The report that three men were lynched near Culbertson, last week, for starting a prairie fire, seem to have been entirely without foundation.

More side-walks this week. McCook is conspicuous among the towns of the valley for the extent of her side-walks. It is a cheerful indication of enterprise.

The school census is being taken by Prof. Webster, this week. It is important to this school district that the enrollment be as large and complete as possible.

Kansas towns south of us received a very close call by the recent prairie fire. They were only saved from destruction by the most herculean efforts of their citizens.

Workmen are engaged in excavating a cellar under Lytle Bros. hardware store. The village might make good use of the dirt hauled out therefrom on the streets.

We expect to add a few more stock brands to our directory, next week. Stockmen see the advantage of advertising their brands—one calf recovered pays for a year's advertising.

Dr. Gibson, dentist, will visit Oberlin, Monday, Tuesday and Wednesday, April 13th, 14th and 15th. Hence he will be absent from his office in McCook on the above named days.

THE TRIBUNE has the very best facilities and workmen for doing Job Work in Southwestern Nebraska. We guarantee neat and tasty work, and entire satisfaction in execution and prices.

Fred Parsons returned last evening from a trip down as far as McCook on the B. & M. and reports a grand rush into the western part of Nebraska and everything on a boom.—Brush Lariat.

A young crank with his tank full of coffin varnish was staggering around town, Tuesday evening, with an old and demoralized double-barreled gun in his hand, and attempting to give voice to some witticisms.

The "coon" restaurant is in a state of almost suspended animation. The blood Teutonic and that of the Celtic does not with that of which Ham was the progenitor fuse. Hence a separation must needs be.

FOR SALE—A good ¼ sec. of deeded land, with good improvements, and on good terms. Will also receive stock to pasture, for the season, but will not be responsible for accidents, should any occur. For information inquire of J. P. Squire, 6 miles S. W. of McCook.

Another newspaper will shortly be established in Indianola. F. L. Watkins will be at the helm to guide the ship over the tempestuous sea of journalism. Wherein doth lie the profit is beyond our ken, but F. L.'s insight may be more prophetic than ours.

April 22d is Arbor Day, and it especially behooves the people of Red Willow county to observe the day by as extensive planting of trees, shrubbery, etc., as their means will allow. The citizens of McCook ought not to fail of planting shade trees, etc., around their properties; for, like bread cast upon the water, the reward will follow—and in this case it will not be far removed.

WANTED—A few more pupils to receive instruction on the piano and organ. I also teach voice culture. Call at Dr. Boyle's Dental Office.

MINNIE BOYLE.

INDICATIONS OF SUCCESS.—Probst Bros. have recently made additions to their property on West Dennison street to meet their business demands. THE TRIBUNE takes pleasure in noting the success of our business men, and prominent among those who have achieved success are the Probst Bros. Attention to business and liberal advertising are the key-notes to their success.

ANOTHER BRANCH.—H. W. Pike has opened a branch yard at Atwood, Rawlins county, Kansas, with our energetic young friend, C. P. Russell of the horse-shoe-bar ranch in charge. H. W. now has yards at this point under his personal supervision, at Indianola, under the management of E. P. Hazen, and also at Atwood. THE TRIBUNE did the printing for the Atwood branch.

TO THE LADIES OF MCCOOK—You can find the nicest lot of Millinery Goods ever brought to the city at the Millinery Emporium, first door west of The Trumpet office. Here you will find all the novelties in Hats and Bonnets of the latest style for ladies, misses and children. A full line of the latest in Veils, Hoop Skirts and Corsets; also, trinkets for decorating, and Bonnets for the little ones.

By reason of negligence or through spite work and revenge a large area of valuable range country south and northwest of McCook has been destroyed, this spring. Such work is clearly against the very best interests of settlers and stockmen and should be discountenanced severely. It is a little like killing the fowl that lays the golden egg to destroy the native grass so extensively.

The foundation for the new bank building is about completed. . . . Workmen are again engaged in veneering the Opera Hall. . . . A new residence in Mr. Rider's addition. . . . A house just completed on Macfarland street. . . . Mayor Berger's residence is looming up. . . . New developments in the P. O. matter this week. . . . Strangers by the scores. . . . Very little deeded land for sale. Everybody holding back for higher prices. . . . Hotels and restaurants doing a rushing business. . . . THE TRIBUNE for Job Work.

The sight of that poor miserable cripple in a beastly state of intoxication to be seen at the Eating House, early Friday morning, was enough to engage the sympathy of every manly heart. The party's name we know not, but his crippled form is a well-known one to this vicinity. We understand that he recently sold his claim near Indianola for \$1,500, and that he was industriously attempting to drink the proceeds of the sale (in liquid form) down in one day, was most distressingly apparent. Two bottles of whisky were removed from his pockets, while he was prostrate on his face, unable to stand erect.

You may have noticed a number of citizens, with the P. O. bee in their bonnets, receive large and important looking missives at the postoffice on the morning of the 1st. Well, probably it were just as well to be satisfied with having noticed the occurrence, and peradventure safer. Those No. 10s with the solemn words, "Postoffice Department, Washington, D. C., Official Business," on the upper right hand corner, contained the harmless words, "April fool," on the inside, hence discretion mayhap were the better part of valor. But, if the sensations received by the recipients of the letters is as genuine and enjoyable as the affair was to the observer, the matter is not without its recompense. Human nature was largely and innocently displayed.

The demand made upon our hotels, this week, for lodging, has been greatly beyond their power to meet and sleeping room in livery barns has been at a premium. An amusing accident happened a settler recently arrived, Monday night, while he was enjoying the soothing influences of sleep in the loft of one of the barns of our town. By some means, in his restlessness during the night, he fell through the floor onto the back of a horse, and for some little time it was a question of uncertainty whether of the twain was the more terribly frightened. After considerable difficulty and much coaxing the animal's disturbed nerves were calmed and the now thoroughly awakened sleeper climbed down from his perch. The affair occasioned much merriment and was enjoyed by all but the party himself.

The father and brother of Miss Nettie East arrived in town, Wednesday, from Imlay City, Mich., and will spend the summer here. If satisfied with the country, they will remain permanently.

The very highest cash price paid for hides at Farley's Meat Market.

THE TRIBUNE has only the best interests of our town in view in urging the selection of five good men and true to administer the affairs of our city during the coming year. The town of McCook has reached an epoch in its history, when it is of the greatest importance that its government be in the hands of the most competent, energetic and honest men within her corporate limits: Men who will hold the liquor license at its present figure, and men who will sustain and enforce our ordinances against the vices which now grow and flourish in our very midst; and for the suppression of which the voice of our people is more clamorously demanding every day. We can but reiterate the suggestion of last week: Let the business men arouse themselves from their apparent lethargy and take decisive steps toward forming a ticket composed of men whose views on the important questions affecting our city are square-toed and on the side of law and order. There are no sinecures in village government, nor should there be any, and consequently the demand is for the selection and election of men of sufficient public spirit and disinterestedness to give village affairs the attention they demand willingly and carefully. We want a high license board, (as license seems to be demanded) a board that will enforce the law, a board that will suppress houses of ill-fame and gambling holes, and for such a board the united efforts of our citizens ought to be directed.

AMUSEMENTS.—The Georgia Minstrels gave an entertainment in the Opera Hall, Friday night, to a well-filled house. The performance was the first of its kind ever put on the boards before a McCook audience, and is pronounced first class.

On Monday evening Mason & Morgan's company rendered that old standby, Uncle Tom's Cabin, to the largest audience that has ever assembled in our Opera Hall to greet any company; every seat in the house was occupied, as well as every foot of available standing room. The performance was up to the average standard. Tuesday evening's entertainment hardly called out a corporal's guard to witness it—the people of McCook evidently rating the performance of Monday evening at its proper value—and having, as Lawyer Marks puts it, "been there before," refused to be taken in the second time.

Different parties have informed us that two carcasses have been dragged a little east of town—still within the corporate limits—and allowed to remain unburied in the neighborhood of the crossing leading to the bridge. This matter calls for immediate action on the part of our authorities. The parties who dragged the bodies to that place, if the same can be ascertained, should be compelled to remove the same, and should be fined in addition. The parties who hauled that manure along the railroad east of town, should also be required to remove the unsightly and unsavory refuse to a more suitable locality. A number of places in town need the attention of the Sanitary Committee of our Board of Trustees badly. They are disgraceful and unhealthy.

Daniel Ashby came up from Bloomington, Tuesday, and will probably remain here and engage in the practice of the law.

Mrs. McGill was summoned, Wednesday, to her home at Wenona, Ill., by a telegram informing her of the serious illness of her mother.

Charlie Payne of Exeter, an old-time friend of Will Dolan, is now rustling with the Frees & Hocknell's books. He arrived in town, the first part of the week.

D. R. Grabill of Dysart, Iowa, was in town, this week, looking into the prospects for another bank. What conclusion he arrived at our reporter was unable to ascertain.

Jos. Allen, one of our Red Willow stockmen, arrived in town, Wednesday noon, from a visit to Taylor county, Iowa. His mother accompanied him. Mrs. Allen met them at this point with a conveyance.

Mr. Rinker, of Spanogle & Rinker, spent Sunday on his farm south of Inavale, with his wife. He will commence the erection of a residence in town, this week, and his family will move here and occupy the same upon its completion.

J. E. Berger and J. C. Arbuckle returned from their trip to Missouri, Wednesday, noon. They failed to find any horses to their liking and consequently made no purchases. Joe thinks that is the poorest and most God-forsaken country he has been in many days; and in comparison with our own growing and prosperous state, Missouri does appear to a Nebraskan as being rather tame and slow.

L. P. Brown and daughter, Miss Jennie, of Beatrice, were at the Eating House, Tuesday. Miss Brown has a homestead up in Hayes county, upon which she came out to make her residence—a house having been erected thereon, some time since. Upon reaching her claim it was ascertained that some individuals had removed the building elsewhere. Arrangements for rebuilding were consummated.

County Superintendent Nettleton is absent attending the meeting of the state teacher's association, in session at Lincoln, this week.

J. E. Castberg came down from the mountains, Tuesday morning, and will remain in McCook some time, probably permanently. J. E. is of the opinion that McCook is the best town in the west—many entertain a similar view.

C. T. Wetherald of Beatrice was in town, this week, and entered claims in Hayes county. Mr. W. informs us that he has been in nearly every state and territory in the Union, and thinks that Nebraska, in his eyes, is the pearl of them all. THE TRIBUNE will inform him as to current events in the southwest the ensuing year.

Rev. W. S. Wheeler, the pastor of our Methodist church has been transferred by Presiding Elder Johnson from Holdredge to McCook. Mr. Wheeler leaves us for McCook Friday, evening. He preached his farewell sermon Sunday evening. We, in common with the balance of Mr. Wheeler's friends, are sorry to see him leave.—Holdredge Republican.

The new B. & M. Agent at this station has about the proper initials, for a R. R. man, and we imagine from his style of doing business that he will be very satisfactory to all parties concerned.

HORSES.—D. P. Rodgers of Fort Worth, Texas, will be in town, next week, with a fine bunch of half-breed broke horses, which he will offer for sale at very reasonable figures, wait and inspect them.

The enrollment of the school census has already reached 175, and it is approximated that a complete list will show about 250 pupils within our corporation. Isn't a slight exhibition of pride in McCook excusable under the circumstances.

Notice, Stockmen!

Magnetic Cures. Dr. HILL is the first man to discover the philosophical principle that all nervous pains, aches, and debility should be treated directly from the "brain battery," from whence emanate all nervous force and will power. All other forms of treatment for nervous disorders, such as leeches, blisters, and the use of "brain tonics," which are merely palliatives, but never cure. These appliances are magnetic, and differ from all others on the market which are electric. Magnetism is the life of man. Their curative qualities are wonderful in all nervous complaints. The Roman physicians practiced magnetic treatment 1,600 years ago in nervous diseases, but did not treat from the "brain battery." Dr. Hill has made this great discovery, the only sure cure for nervous Headaches, Rheumatism, Neuralgia, Liver and Kidney Complaints, Paralysis, Gout, Spinal weakness, Dyspepsia, Constipation, Cold Limbs and Feet, and General Debility. Miraculous cures noted every day. The Magnetic Brush lifts miasms, and the only article of the kind invented. It is the greatest curative agent known and used in a "brush bath" imparts tone, replenishes the debilitated system, and creates warmth. In chronic cases our Magnetic Baths, Belts and Caps should be used. The brushes are warranted to do the work, or the money refunded. Send for circular and testimonials. By giving a description of nervous trouble, we will give advice and directions how to use our appliances. HILL MEDICAL MAGNETIC APPLIANCE COMPANY, Lock Box 55, Washington, D. C.
