Official City and County Paper.

THE Lariat, a bright little sheet that has been issued at Brush, Colo., for the past year, has suspended operations.

THE Franklin Echo comes to us in a new dress and printed on a Campbell press, this week. The Echo is one of the very few country papers in the state that can afford a Campbell.

The attention of the administration is called to the fact that McCook is suffering for the want of a postmaster and several democrats in that vicinity are suffering for want of a postoffice. Let the conjunction be made as soon as possible.—Journal Topics.

A PENNSYLVANIA millionaire has been sentenced to five years in the penitentiary. The influence of New Jersey seems to be spreading. It might make a trip west to get acquainted with the country and restore its health to the vigor of forty years ago.

A CLERK in the auditor's office at Richmond, Virginia, has been convicted of stealing \$24,000 while in office from the state. He was sent up for two years. It was lucky for him that he stole nothing but public money. Had he taken a \$75 mule he would have been sure of five years at least.

It is now beginning to be well known that Morrison and Logan have an understanding about the Illinois Senatorship which will make the selection of one of them certain. Neither will withdraw and all outsiders will be kept outside. This is the first time that the ownership of Illinois has been firmly asserted.—Philadelphia Times.

RUSSIAN journals are discussing favorably the old proposition to cede a portion of Russian Poland to Germany. It will include the ancient capital, Warsaw. It would probably be a good thing for the Poles and would have a tendency to reconcile the chancellor to any little accessions of territory Russia might acquire were she measurably successful in the row with England.

LATER dispatches from the seat of war in Winnepeg indicate that the charge of General Middleton's forces on the ten Indians in the ravine was not entirely successful, as "the leaden storm" was too much for them, but they ran away as "coolly as though they had been on dress parade," or words to that effect, and are sure that they killed one Indian. The next morning, after sleeping on their arms a mile from the battle field, the general found that the Indians had left. He is now waiting for reinforcements.

"For years the Pioneer Press, almost alone among the daily newspapers of this state, has been fighting prohibition. To-day we sheath the sword. Henceforth it will offer no opposition to a constitutional amendment prohibiting the manufacture and sale of intoxicating liquors in the state. Tens of thousands who have agreed with the Pioneer Press in preferring the more moderate policy will accept prohibition as the only means of emancipating this state from the insolent rule of this oligarchy of liquor dealers."—St. Paul Pioneer Press.

THE Mexican government will not give any concessions to the Mormons who contemplate removing from the jurisdiction of the United States to escape the laws against polygamy. It says that the Mormons may come there like other people and settle, but that they will be subject to the laws of the country, which forbid polygamy. The doors of the civilized world are closed to the saints. Africa is about their only chance. They might find a place there where they could defy the progress of civilization for a half century longer at least.

It is now rumored that Attorney General Garland is in the same box with General Lawton in the matter of political disabilities, and that never having had them removed by a two-thirds vote of congress he is not competent to hold a federal office. But this can hardly be true. As a judicial officer, at the head of the department of justice, we would hardly have consented to give a legal opinion to the President in a matter that was so personal to himself. He has also almost continually held office for the past ten years.—Journal.

THE Grand Army of the Republic has quietly and without ostentation exercised a care and charity for its members and veteran soldiers that is highly commendable. Perhaps in the public opinion the purpose of this organization has been to preserve the memories of the late war. This is one of the social features, but the practical work has been to care for the infirm, bury the dead and provide for the widows and orphans, and in this they have done and are now doing a commendable work. The posts in New York City are now adding another department which may be followed with great benefit in other sections of the country. They have recently organized an employment bureau, through which they obtain employment for all worthy veterans. Thus far they have succeeded very well both in obtaining employment and in giving satisfaction to those who patronize them.—Philadelphia Press.

## Stock Growers' Association Meeting.

The regular annual meeting of the Southwestern Nebraska Stock Growers' Association was held at Benkleman, Neb., May 1st, 1885. Meeting was called to order by President Bird. W. J. McGillin, Acting Secretary. Minutes of called meeting held at McCook, April 10th, 1885, read and approved. The election of officers for the ensuing year was the next order of business, which resulted as follows: President, Benj. Bird; Vice-President, W. J. McGillin; Secretary and Treasurer, J. B. Meserve.

An Executive Committee consisting of five members was then elected: Benj. Bird, J. G. Stokes, D. Guernsey, W. H. Davenport and J. T. Wray.

The question of the Red Willow Association having advertised their round-up to commence May 15th, was taken up, and while all the members present were disposed to concede them the date, if possible, it was deemed impossible to do so, after thorough discussion, as many members had already planned their work so as to commence on the 20th, and could not change their arrangements so as to be able to attend a round-up on the 15th. Also, that the date had been so thoroughly advertised that all outside parties could come and get their strays out of this county, that it was considered inexpedient to change the date at this late day. The Secretary was instructed to correspond with the officers of the Red Willow Association, and, to urge them to wait until the 20th, so that but one round-up shall occur on the Red Willow.

On motion of W. J. McGillin, the date of the annual meeting was changed to the second Monday of April of each year, and that the place of meeting be at McCook, instead of Benkleman, as heretofore.

Motion was made and carried that if any member of the Executive Committee fail to serve, from any cause, the President shall have power to appoint another to act in his place.

Motion was made and carried that the matter of fire-guards be left entirely in the hands of the Executive Committee, and that they meet at Culbertson, Neb., on the 18th of May, 1885, and hear any suggestions that any member has to make, and determine, how much the association shall expend on the same, and make arrangements for plowing by contract. BENJ. BIRD, President. J. B. MESERVE, Secretary.

## County-Seat Clatter.

County Commissioners meet again June 2d, 1885.

Fred Munsinger, the German who set the fire south of the river, which did so much damage, and who escaped trial at the time, was brought in by Sheriff Welborn, last week, from Hamilton county, Neb., where he was captured. Munsinger had his trial, last Monday, before Hon. H. M. Ashmore, County Judge, plead guilty, and was sentenced to three months in the County Jail and to pay a fine of \$50.

Hon. Wm Gaslin was in our town, Tuesday night, on his way to hold a special term of the District Court at Stockville.

C. F. Babcock, paid our city a short visit on Monday, come often Charles, we like to see you. COUNTY-SEAT.

C. E. Perkins, president of the C. B. & Q. R. R. purchased 110,000 acres of land in northwestern Kansas a few days ago. This is one of the largest sales of agricultural lands in this part of the state.—Atwood Citizen.
