About two years ago, a prominent citlzen of Chicago was told by his physicians that he must die. They said his system was so debilitated that there was nothing left to build on. He made up his mind to try a "new departure." He got some of Dr. Pierce's "Golden Medical Discovery" and took it according to directions. He began to improve at once. He kept up the treatment for some months, and is to-day a well man. He says the "Discovery" saved his life.

When my father was employed as a surveyor in 1795 on the Talbot estate. at Margam, he attended the First day meeting of Friends at Neath and met, at the hospitable table of Evan Rees, Ann Wood, a convinced Friend, on a visit to Evan's wife Elizabeth. They saw each other frequently and became well acquainted. On one occasion at dinner she suddenly learned his regard for her by the peculiar manner in which he asked: "Wilt hou take some nuts, Ann Wood?" She took them, saying: "I am fond of nuts." "That is extraordinary," he replied, "for so am I." There was in those parts an aged ministering Friend of so saintly a character as to be regarded in the light of a prophet. One First day morning after they had both been present at meeting, this minister drew her aside and said, "If Samuel Botham make thee an offer of marriage thou must by no means refuse him." Accordingly he was before long her ac-cepted suitor. In the year 1796, on the sixth day of the twelfth month, they took each other for man and wife after the prescribed simple form.'
