A ROYAL WEDDING IN FRANCE.

A Son of the King of Denmark Marries Daughter of the House of Orleans.

Paris dispatch: The marriage of the Princess Marie Francoise Helene d'Orieans, daughter of the Duke de Chartres and niece of the Comte de Paris, head of the royal house of France, to his royal highness Prince Waldemar, sixth child of Christian IX., King of Denmark, was solemnized Oct. 23nd in the resence of a large and brilliant assemblage. In consequence of the political situation, however, the King of the Belgians and czarina failed to attend, and the Comte de Paris was also conspicuous by his absence, it being feared that his political foes would seize the opportunity and expel him from the French

For months the event which has been brought to a culmination has been the absorbing theme of conversation in continental court circles, and the royalists and leaders of high society generally are greatly pleased with the union. It was first made public at Gumden by the King of Denmark on the occasion of the baptism of the infant son of the Duke of Cumberland, who is married to the daughter of His Majesty. Besides the King and Queen of Denmark there were present at Queen dowager Marie of Hanover, the Duke and Duchess of Cumberland and several oth er notabilities. King Christian acted as godfather on the occasion, and there was great surprise when, after liberal potations, he blurted out the announcement of the coming wedding, and staggering from one side of his chair to the other, demanded, wine cup in hand, and in stentorian tones, that the company should drink to the health of the affi-

The happy bridegroom has for years been a were fruitlessly made to obtain for him a Belgian princess, and then he tried his wiles upon the late Princess Christine, daughter of to get a handsome dowry for her reach beyond the question of lucre. It is his profound conviction that unless France returns to a monarchical form of government Europe is lost. In his opinion, if the republic continues, it will ultimately cross the national boundaries and spread all over Europe, owing to the expansive tharacter of French genius and the attraction of the republican idea. Hence he argues that by allving the the house of France, which has long ceased to have marriage connections with the other royal houses of Europe, with the powerful nations over which the Holstein blood will reign, he can bring about a restoration of the disgraced and dethroned bourbons, arrest the republican propaganda and insure the security of the wise provision he made for his children when he married them to the present or presumptive ruler of nearly one third of the human race.

A Tragedy in Kansas City.

A terrible tragedy was committed in Kansas City Oct. 21st, at the house of John Conway a dairyman, on East Eighteenth street, in the thickly populated part of the city. The neighbors entered the house and found Mrs. Conway and her daughter Kate lying dead upon a bed in an inner room. Their skulls were crushed and the bed deluged with their blood, which was yet warm. The girl was kneeling beside the bed, her head lying upon the mother's body. Marks of blood were found on the kitchen floor, and the weapon of death, a car coupling pin, was discovered in the alley where it had been thrown. About \$30 in money was missing from the house. The most plausible theory is that the murder was committed by a tramp who had perhaps attempted a criminal assault upon the mother, and being surprised by the girl killed them both. Several persons were in the vicinity of the house and a milkman passed through the yard, both shortly before and after the murder, but no outcry was heard at any time.

Well, if you have strength to push your business, it is well. But many a man's business has broken down because the man was broken down, and had no push in him. CINCINNATI.-The Times-Star says: "A remarkable discovery made last winter, is attracting wide spread interest. As it involves a most important question-that of public health, it is being discussed by eminent physicians and public men. It is shown conclusively that throat and lung troubles can be cured without resorting to the use of morphia or opium,-especially dangerous in the case of children as arresting development, and poisoning the system. The Governor of Maryland and all the officials of that state endorse the remedy; the state chemist of Delaware pronounces it the purest and most effective, and hospitals and charilable institutions in Philadelphia and other cities use it with remarkable results: The remedy which is only twenty-five cents a bottle, is Red Star Cough Cure. Nature's great remedy, Kidney-Wort, has eured many obstinate cases of piles. This most distressing malady generally arises from constipation and a bad condition of the bowels. Kidney-Wort acts at the same time as a cathartic and a healing tonic, removes the cause, cures the disease and promotes a healthy state of the affected organs. James F. Moyer, carriage manufacturer, of Myerstown, Pa., testifies to the great healing powers of Kidney-Wort, having been cured by it of a very bad case of piles which for years had refused to yield to any other remedy.
