SOUTHWESTERN NEBRASKA.

MCCOOK, NEBRASKA.

We copy the following from the corlowa, Daily Journal. It contains much of interest, and is temperate and reliatown and country:

of the Journal. The land here, gener- Bion Bjornson, Black (William), Blackstone, dark and rich, from three to five feet lish, French, German, Italian, Greek, Latin, deep, and very productive. Then there Swedish, Portugese, Scotch, Dutch, Irish, are what they call "flats." These flats are from five to thirty miles across, almost level. I have seen on these flats, high order. The work is really one that miles long without a break. There are it offers a fund of entertainment and instrucsteel plow will scour. All kinds of yeg-possession possible to nearly every schooletables grow one-third larger here than in lowa. Small grain, including fallwheat, do well. My corn crop in 1884 yielded about sixty bushels per acre; in 1885 not quite so much.

vere as in Iowa. Take this winter for instance. I do not know how low the mercury has been, but am informed that ter; at any rate, it has not been cold M. A. Spaiding and Willey & Walker. enough to kill my peach trees, as they are green to the points of the limbs. There has been but one day this winter, (Jan. 8) but what teams have gone from ten to twelve miles to town. The snow has not been over six inches deep this winter, and has not impeded travel in the least, and only blockaded the railroad a day or two, between here and and Denver. But the snow is all gone now and has been gone for three weeks, and the roads are dry and solid, and in places where there is much travel, it is quite dusty. During my seven years residence here, I have seen very little mud. On Feb. 23d I drove about thirty miles and did not see any mud. There has not been a day since I came here but what a good team could draw a ton to market, ten miles. I know this sounds strange to Iowa people, but it is, nevertheless, a

The season for farming operations is much earlier here than in Iowa. Teams have been out breaking prairie here, since the 15th of this month, and farming operations have commenced. There has not been a season since I came here that we could not sow wheat in February. The ground is now in good condition for seeding or plowing, and farmers are improving these nice, warm days.

As to kind of crops, we raise wheat, both winter and spring; rye, oats and corn, cane, millet, potatoes, both Irish and sweet, melons of all kinds, and all kinds of garden vegetables.

Land within four miles of McCook is worth from \$8 to \$15 per acre, according to location and improvements. From 4 to 10 or 12 miles out it is worth from \$4 to \$10 per acre. Some good claims can be had at from \$400 to \$800 per claim of 160 acres. Posts are worth 8 cents a piece in the timber; wood in the tree \$2 per cord, cut and corded \$2.50 to \$2.75. Wire \$4.90 to \$5.25 per cwt. for 4-point barb, painted.

McCook is a division station on the B. & M. railroad, about midway between Omaha and Denver. The town was laid out a little over three years ago, and now FREES & HOCKNELL has a population of about 2,000. The railroad company has a large two-story depot, and a large hotel, and a round house with stalls for 15 engines. There are five hotels, besides a large number of restaurants, three lumber yards, two banks-First National Bank of McCook with a capital of \$50,000, Citizens Bank of McCook with a capital of \$50, 000, and the McCook Loan and Trust Co., capital, \$50,000. Also, the usual number of stores of different kinds to be found in a western town of its size. The United States land office is located here. Three newspapers, three churches, and one of the handsomest shool buildings in the state.

McCook has the best system of water State, except Omaha. There are now about twelve miles of pipe laid down. ameter, with about twenty feet of water in each well, that furnishes the supply of water.

A UNIQUE CYCLOPEDIA.

An extremely valuable Cyclopedia, and of very great popular interest is Alden's Cyclopedia of Universal Literature, Volume II, of which is just published. Novel in plan, and respondence of William Coloman, one novel in form, at once beautiful and convenof our old settlers, to the Muscatine, tent, and at a price low even compared with Mr. Alden's always low prices, this volume gives in its nearly 500 pages biographical sketches of one hundred and eleven promible in its statements concerning our nentauthors, with characteristic selections from their writings. The following authors, among others, appear in this volume: Audu-Having located here several years bon, St. Augustine, D'Auvergne, Bacon, Baiago, I propose to g ve information that zac, Bancroft, Banim, Barbauld, Beaumont, may be of benefit to some of the readers Beecher (several of the name). Bentham, ally, is sloping; enough so as to lead the Blessington (Countess of), and Boccaccio; water off, but no sloughs or ponds, yet thus representing nearly all ages and all nawith "draws" and canyons. The soil is tions even in this volume-American, Eng-Norwegian, and Danish authors-from the period 280 B. C. to A. D. 1886. The literary and mechanical workmanship are both of a where corn rows were ten to twelve ought to find a place in every home library; no course sand, gravel or red roots in the tion that will prove well-nigh inexhaustible. soil here, and any kind of a common The price, only 60 cents a volume, makes its boy. The work is published also in Parts of 16 pages each (exchangeable at any time for bound volumes), which are sent post-paid for 15 cents each. Every reader of this notice ought to get at least a specimen Part for ex-The winters are not so long or so se York. John B. Alden, Publisher, New
