

# The McCook Tribune.

F. M. AND E. M. KIMMELL,  
Editors and Publishers.

As a newspaper, and independent of its politics, the Omaha Daily Herald is fast assuming a prominent position among the great journals of the west.

THE Hastings Gazette-Journal is taking unto itself additional honors, having lately enlarged to an eight column paper, and improved vastly otherwise.

WHEN the red flag is hung out in front of an auctioneer's store it is a sign that his stock is to be "knocked down." The red flag, when displayed at the head of a socialistic procession, ought to be a signal for the authorities to knock down the outfit without any further ceremony.

The old soldiers who fought for the union would like to know what the war was about. They are at a loss to know whether it was to put down rebellion and make treason odious or whether it was only for fun. The recent ovation to Jeff. Davis beneath the stars and stripes, which the arch traitor did all in his power to tear to pieces, has set the loyal veterans of the north to thinking.

THE boys down in Missouri have got their war paint on. The whoop, "Who keeps 'em in?" may be heard all the way to Washington and may even creep through the latticed window of the White House. It is said that a Nebraska delegation is returning from the national capital after having obtained all the information it wanted. Any member of it can tell the indignant Missourians something of value. They are kept in up here in Nebraska, and the delegation no doubt inquired about it.

THERE is a storm brewing in this country. Demagogues of high and low degree, in and out of congress, better climb "down and out" of the possible lines of fire. Mr. Powderly has lost his power to control the volcanic forces that he has called into being. The anarchist scorns the moderation and scouts the wisdom of his counsels. "Organized hell" has broken loose in Chicago, and there is a storm brewing that may put the powers of self-government to the supreme test of ascertaining whether the primary function of all governments among civilized men, which is the protection of life and property, can be secured in our country. A cognate and still more vital question is, can labor itself be protected against itself?

PRESIDENT CLEVELAND'S approaching wedding is likely to get him into trouble, and the result may be a boycott against him and his bride. The Washington women wage-workers have a serious grievance against him for permitting his bride-elect to purchase her wedding outfit in Paris. They protest against patronizing foreign dressmakers, and claim they can get up a better trousseau than any Parisian modiste. They ask the president to inspect samples of their work and give them a chance. We are in full sympathy with the Washington dressmakers in this movement. We believe that it is only in accord with the eternal fitness of things that the president of the United States and his bride-elect should patronize home industry. Although he really knows nothing about wedding outfits, he could rely upon the judgment of his lady friends in Washington, whom he could call to his assistance to inspect and pass judgment upon the merits of the samples presented.

A child can buy as cheap as a man at J. F. Ganschow's.

## COUNTY-SEAT ITEMS.

Mr. Lawler of McCook was in our place, Wednesday.

John Kirkman of our place was a visitor at McCook, Tuesday.

J. D. Welborn and family went up to McCook, Tuesday and returned, Wednesday.

George Short went up to Curtis, Saturday, accompanied by his little brother "Willie."

Mrs. C. D. Cramer is quite sick, having been unable to leave her bed for several days.

George Papin and Dr. Gibson were among the Indianola visitors at the metropolis, Monday.

Miss Jones, late of Iowa, has accepted a position on our post-office staff, where she is now busy.

Miss Nellie Cramer of Iowa, who has been visiting at her uncle C. D. Cramer's, returned to her home, Tuesday.

The Garricks are very busily engaged rehearsing, and it is probable that they will appear some time next week.

J. H. Goodrich's game leg, although it has been improving rapidly in the last few days, still makes a cripple of him.

Michael Morris of the First National Bank of Indianola made a flying visit to Curtis, Monday. He returned on Tuesday.

We have heard nothing of the great canning factory that was to have located in our city. Will it, too, fail to materialize?

George Hill returned from Curtis, where he was looking after the interests of The Frees & Hocknell Lumber Co., Thursday.

Mr. Baxter's new temperance billiard hall, under the management of Mr. Rittenberg, will be opened to the public some time this week.

E. C. Ballew went up to his family in Colorado, Saturday, and returned, Monday. P. S. This item will be put in each week, with variations.

A party of our young folks, numbering about a dozen, went on a fishing excursion up to the Willow, Tuesday. They report very good luck.

Messrs. Saltzgeber & Sibbett, a couple of our young citizens, intend going into business at Curtis, and are making active preparations to that end.

Indianola now has a base ball club and would be pleased to hear from like organizations in the near surrounding country, who are anxious to "have a game."

Sheriff Welborn returned from his business trip, last Thursday evening, after a remarkable quick trip, considering the number of miles he had to travel, and the number of places he had to make.

Dr. Eskey's new residence on Fifth Avenue is rapidly nearing completion, and will be occupied some time in the very near future. The same may be said of Mr. Smith's house on "Nobs Hill," especially the occupancy part of it. The saying we mean.

The Stockville Faber's mode of comparing Indianola, when deserted by a few business men who went to McCook, to the "deserted village," which Stockville will be when "they all go to Curtis," must be intended as a compliment to Stockville. If otherwise, we would infer that the editor of that "high kicker" had not been down to our capital for a few years at least.

THE TRAVELERS INSURANCE COMPANY began business in April, 1864, and is still managed by the men who started it. It is not only the oldest, largest and strongest Accident Company in America but the only one of any considerable size. Its Cash Assets have steadily increased year by year, and now reach \$7,826,000, the liabilities being \$5,879,000, leaving a surplus to policy-holders of \$1,947,000. It has written nearly 1,100,000 General Accident Policies, and paid cash benefits to over one in nine of the insured, amounting to over \$7,300,000. No better or surer investment of the small sum required can be made than in a Yearly Accident Policy in THE TRAVELERS, which secures the principal sum in event of accidental death, or a weekly indemnity for injury causing total disability and loss of time. Any agent will write a policy at short notice. R. S. COOLEY, Agent, McCook, Neb.

H. MENFE, a blacksmith at Sigel, Ill., wrote March 22, that he was very lame with rheumatism, he could hardly walk and the joints of his limbs were badly swollen and very sore, and so painful he could scarcely turn in bed. His physician advised him to use Chamberlain's Pain Balm. The effect was beneficial from the first application, and he is now able to attend to his regular work. This medicine has only to be tried to convince the most skeptical that it is the best treatment for rheumatism. Sold by M. A. Spalding and Wiley & Walker.
