The facts seem to be in the case of the recent "sale" by Phillips, the Pharisee, of Indianola, that the alleged sale is in reality a failure. The title has much of propriety in it.

The Smith residence on Madison street has been purchased by A. W. Corey, the consideration being \$1,400. Mr. Corey's family moved into their new home, Saturday last.

We are requested to announce that Rev. J. E. Kelsey will occupy the Congregational pulpit on next Sunday. The reverend gentleman and family are expected to arrive in the city, Saturday.

The 3-year-old race at Superior was taken by Starbuck's dark sorrel colt. The mayor evidently has one of the fleetest colts in Nebraska, and will doubtless scoop all the 3-year-old purses in that circuit.

The crosswalks at the inter-section of Main and Dennison streets should be raised. The occupation of the mud-shoveller would then be gone, but the convenience of pedestrians would be greatly subserved.

The B. & M. Eating House was struck by lightning, Tuesday night, during the severe rain storm which then prevailed. The electric current passed down the ventilator and occasioned but slight damage to the building.

The city authorities should never permit such games as those carried on, Tuesday evening, within the corporate limits. Such outrageous scamps should be promptly jugged, and there would soon be less of this style of robbery.

THE TRIBUNE was mis-informed as to the use to be made of the lots on Macfarland street, recently purchased by Rev. J. W. Kimmel. They were bought, Rev. Kimmel informs us, for his own personal use, not for the Lutheran church, as stated last week.

The M. E. church town of Bartley is materializing in fine shape, and promises to exceed the expectations of many. It is certainly one of the most beautiful and desirably located towns in the Republican valley, and is under good management and in business shape financially.

Next Saturday, the company operating the brick yard just east of the city, commence to burn their second kiln of machine pressed brick. They expect this kiln to be even superior to the first output. The company will close the season, this coming fall, by burning at one time a half million kiln.

Archibald; Treasurer, J. A. Wilcox; Secretary, W. S. Webster. The installation of officers will take place Thursday evening, June 24th.

THE sweet girl graduate will have the floor for the next two weeks, during which time many "shallops" will be loosed from their moorings to set sail upon the "ocean of life." A few hours later a large number of the barks will run upon the shoals of housework and home duties, wrecking sentiment and poetry for the time being for the benefit of common sense and a practical existence.

We notice that Carl Clark is having a neat one and one-half story residence built on the hill, southwest of R. R. Wood's house. He has one of the most eligible sites in the city, and will have a pleasant home. Ed. Etherton is the contractor.

Jupiter Fluvius seems to be arranging to supply us with moisture at the most opportune moments and in the most desirable quantities. Tuesday night's fall was gilt edged, and the farmer and nature now vie with each other in an attempt to smile the broader, the more audibly.

The Knight Templars of this city and vicinity have received a dispensation from the grand lodge to organize a commandery here, and to this end a meeting is to be held next Thursday evening. The honor of having a commandery is not enjoyed by any other town in the valley, save Red Cloud.

This evening, the first rendition of "Esther, the Beautiful Queen" will be given in the Opera Hall. We feel sure that our people will enjoy and appreciate this effort. The cantata is a very beautiful one and will be handled by our local talent, we think, in a most acceptable manner. It will be repeated also on Friday and Saturday night.

"What fools these mortals be," is exemplified in the most amplified form every time some poor, measly snide show comes into this vicinity. Of course the inevitable montebank is with the outfit, and suckers soon gather around and are numerous taken in on the monte's own snap game. After watching the crowd gather to bite voraciously at these fool baits, one is constrained to remark, "O, why should the spirit of mortals be proud?"

The suit brought by old man N. J. Schaffer and wife against Eli Brown, to recover the sum of \$62.75, the amount alleged to be due the plaintiffs for labor performed, etc., resulted in a judgment of \$41 for the plaintiffs. The case seems to have been one of those terribly mixed affairs, in which no well-defined understanding was had between the parties, and the verdict is spoken of as not being altogether just.

At the meeting held at the residence of H. C. Pade, last Sunday afternoon, an organization was effected under the name and title of Trinity Evangelical Church of McCook, Neb. C. Ebert, Deacons; E. C. Hall, Secretary; A. C. Ebert, Treasurer.

The manipulator of the corkscrew evidently prefers "sparkling, cooling lager beer" to fish, as his stupendous brain is manifestly located just below his belt. If the saloon organ can just get outside of enough beer he will possess immense brain power—on the Chinese plan—and peradventure can illuminate his readers on the election day, wet goods episode. He might incidentally explain the whyfore of the state stationery and waste baskets, etc.

The store of Wilcox & Fowler was broken into, Sunday night, entrance being effected in the rear of the building by cutting out a pane of glass, removing the "catch" and raising the window. The proprietors so far have not missed any goods or valuable to speak of, and the probabilities are that the thieves were very modest in their desires, or were frightened away before securing much plunder. A clerk, with the requisite artillery, will hereafter welcome these midnight marauders.

COUNTY INSTITUTE.

The Red Willow County Teachers' Institute will convene at the high school building, McCook, Monday, July 19th, and continue in session two weeks. Efforts are being made to make this institute eminently successful, and it is earnestly expected and desired that there be a full attendance of teachers and of those who are preparing for the work. Reduced rates will be secured at the hotels, and we feel assured that our citizens will entertain a large number. Prof. O. C. Hubbell, one of the most successful institute workers in the state, has been engaged as one of the instructors, and this fact will be a sufficient guarantee of success. The following are the lecturers: Prof. L. A. Sherman, of the University, Prof. O. C. Hubbell of Fairfield College, Dr. B. B. Davis, McCook, Rev. P. C. Johnson, Indianola, and Rev. C. F. Creighton of Lincoln. On Thursday afternoon, July 29th, Supt. Wheeler will be glad to meet the school officers of the county, in order that he may get their addresses and furnish them with efficient teachers when desired. The usual examination of teachers will occur at the close of the institute. Being absent, Supt. Wheeler directs me to make this announcement. Let us have a large and enthusiastic gathering. W. S. WEBSTER, Conductor.

A large company of our town-people participated in the social and dance held at the rink building, Monday evening, under the management of the ladies of the Catholic church of this city. The affair was a pronounced success, as indeed are all the undertakings of the ladies of the church. On this occasion about \$100 was cleared.

WANTS TO SEE HIM—C. H. Rogers would like to see the malacious scamp who has been misrepresenting his financial condition to eastern parties. We blush for shame, to localize the fact that this city contains an individual who would stoop to such business.

Our new postmaster has sent in his bond to the department and will doubtless receive his commission and be duly installed in the city postoffice within a few days. The day will be observed as one of general thanksgiving by the patrons of the office.

We judge from the supine inactivity prevailing that our citizens do not desire a Fourth of July celebration. If, however, such is not the case, active efforts better be made at once. The time is growing beautifully shorter.

A corps of carpenters are engaged on a livery barn for R. A. Evert on Macfarland street, opposite the Central House. The city will shortly be well supplied in this line.
