

TEN THOUSAND DOLLARS.

Fortune Smiles Upon John W. D. Stokes of Detroit. Detroit, Mich., Tribune, Feb. 27. John W. D. Stokes in January sent \$2 to the New Orleans National bank for the purchase of a ticket in the monthly drawing of the Louisiana State Lottery. The money was delayed in reaching the bank, and was invested in the February drawing, which came off on the 8th inst. Stokes received his ticket, a fifth of No. 45,151, and when he learned that it called for a part of the \$50,000 prize he promptly resigned his position as dealer in a prominent Detroit gambling house. A few days later the money arrived by express, prepaid, in the form of 1,000 ten-dollar bills. They were all new and crisp and made a pile nearly two feet high. The lucky man deposited his little fortune among a number of city banks, and is now enjoying a season of rest. He is also having his wife, who is nearly blind, treated for her affliction. Stokes says he will never deal faro again. He proposes to engage in some legitimate business as soon as he can find a suitable place to invest his money. He is past middle age, and has been a professional card player for twenty years. He says that friendly card playing for a consideration to lend interest to the game, is the stumbling block upon which many young men trip. In his judgment there is no money in gambling, the percentage being all against the guesser.

Some Folks Have much difficulty in swallowing the huge, old-fashioned pill, but anyone can take Dr. Pierce's "Pleasant Purgative Pellets," which are composed of highly concentrated vegetable extracts. For diseases of the liver and stomach, sick and bilious headache, etc., they have no equal. Their operation is attended with no discomfort whatever. They are sugar-coated and put up in glass vials.

Mark Twain has written something about "English as She is Taught."

It is a fact Well established that consumption if attended to in its first stages, can be cured. There is, however, no true and rational way to cure this disease, which is really a scrofulous ulceration of the lungs, except through purifying the blood. Keep the liver in perfect order and pure blood will be the result. Dr. Pierce's "Golden Medical Discovery," a purely vegetable compound does this and more, while it purifies the blood it also builds up the system, strengthening it against future attacks of disease. Ask for Dr. Pierce's "Golden Medical Discovery." Take no other. Of druggists.

Mrs. Harriet Beecher Stowe. Mrs. Harriet Beecher Stowe is living quietly at her home on Forest street, in this city. Her health remains the same as for the past year, although she shows the effect of approaching age, being one year older than her brother, the late Henry Ward Beecher. She received the announcement of his death with composure, and manifested no signs of breaking down, as was feared. During the last visit to this city of the late Rev. Henry Ward Beecher, last fall, he expressed to his sister his belief of approaching death, and that he anticipated it would be apoplexy.

Bodily pains are instantly relieved by the use of St. Jacobs Oil. Dr. R. Butler, Master of Arts, Cambridge University, England, says, "It acts like magic."

What it Costs to Smoke. Last year tax was paid upon 3,510,898, 488 cigars. The average smoker is content with a cigar worth \$30 per thousand, or one that retails at five cents. On that basis there annually goes up in smoke \$180,000,000, or \$15,000,000 every month. In addition, boys waste on cigarettes \$6,500,000, and those who prefer a pipe a further sum of \$20,000,000.—[American Grocer.

Incident of the Irish Agitation. Particulars of the recent outbreak at Millstreet, County Cork, when a band of militiamen surrounded a house and cut the hair from the heads of the two daughters of the occupant, are reported from Dublin to-day. The girls, it is said, were forced on their knees while a ruffian with shears cut the hair off. When this was done a quantity of tar was poured over the head, face and neck of one of them. The second daughter escaped this last indignity, all the tar having been wasted on her sister. The latter is a comely girl, and in addition to the shock received, her endeavors to remove the tar from her head and neck have had the effect of irritating and removing the skin. A man who protested against the outrage was fired at a revolver. The girl who was tarred had given offense by speaking to a policeman, and the ruffian, after disfiguring her in the manner described, said: "Now, will you speak to the bobbies again?"

"There may be some virtue in all of them," he said, "but for actual worth and rapidity of effect, I know that nothing made can excel Dr. Bull's Cough Syrup."

MARK TWAIN AND PROF. LOISETTE. The Famous Humorist Tells How Prof. Loissette Taught Him to Improve His Memory.

In regard to Prof. Loissette's system of Memory that he is now teaching personally and by correspondence, at 227 Fifth Avenue New York City, Mark Twain says:—"Prof. Loissette did not create a memory for me, no, nothing of the kind. And yet he did for me what amounted to the same thing for he proved to me that I already had a memory, a thing which I was not aware of till then. I had before been able, like most people, to store up and lose things in the dark cellar of my memory; but he showed me how to light up the cellar. It is the difference—to change the figure—between having money where you can't collect it, and having it in your pocket. The information cost me no little, yet I value it at a prodigious figure."—N. CURRENT EVENTS.

A shipload of corn was recently sent from Norfolk, Va., to Germany.

A little girl was jailed at Santa Rosa, Cal., a few days ago, for throwing stones into a neighbor's yard.

Cat Island, near Mississippi City, Miss., was sold one day last week for \$10. Seven years ago the island brought \$10,000.

Artesian wells have been sunk in Algeria with such success that large tracts of wasteland has been reclaimed with the water thus provided.

The hallucination of an inmate of the insane asylum at Middletown, N. Y., who is worth \$50,000, is that he is president of the United States.

The merchants of China are reported to be well satisfied with last year's business. Dealers in tea, silk, and white manufacturers have all made money.

The combined weight of thirty hogs recently slaughtered at Recklesstown, N. J., was 21,854 pounds. The lightest weighed 583 pounds, the heaviest 875.

One of the most peculiar effects, says a well-known traveler, was produced by molian harps attached to kites and flown by Chinese boys. The wind music coming down through the air made a most singular impression upon the observers.

Living in the rural and mountainous districts of California is cheaper than in the east, but it is harder to make money. California is by no means a poor man's country, as capital is centralized and labor so cheap that a poor man has no chance.

The stingray is the natural enemy of San Francisco oysters. The fish has a powerful pair of jaws with which he considers it no trick whatever to smash the shell of an oyster into powder, after which he sucks the meat into his stomach and discards the rocky debris.

There is a little negro boy, about 7 years of age, living near Uniontown, Ala., who seems to possess a wonderful talent. He can take a lump of mud from the roadside and with his hand form any animal he ever saw, and the representation is almost perfect. All the proportions are good.

Miss Bertie Priddle, of Glenmeay, Canada, was knitting the other day, and thoughtlessly put the point of her needle in her ear. It went further than she expected and touched the tympanum, and as it did so she started with the pain, and the needle pierced the tympanum, destroying the hearing of that ear forever.

An after-dinner speaker in San Francisco, the other day, relating the hardships of some of the early Californians who came by the way of the isthmus, said that the piece de resistance at Panama dinner tables was then a "saddle of monkey," a dish which lunger might recommend, but which cosmopolitan could not but deplore.

An enthusiastic art lecturer recently said that art had so worked its way into American life and industries that a man who could invent an artistic lemon-squeezer would make much more money than one who confined himself to the merely useful. Artists would like to believe that the art feeling of the country has arrived at such a condition of pecuniary appreciation.

At a recent masquerade in Portland, Oregon, a number of the maskers, who had attracted attention from their dress and antics, which were those of the Salvation army, formed a circle in the middle of the room, and then a tall, athletic young man, who personated Satan, burst into the ring and tried to break it up. The army rose as a man, throttled Satan, and wiped the floor with him.

In Washington the other evening a woman while walking on the streets was startled by a shot which he heard, and turning she saw a boy running away. A man across the street ran over to her and picked up a bullet lying on the sidewalk. When she got home she found that the ball had gone through several folds of her dress and striking one of the wires of her bustle had fallen to the ground. No one knows why the boy shot.

The members of the present Arizona legislature, besides doing their own common duty, pay from their per diem \$5 enough to hire necessary clerks for the session, congress allowing only two clerks to each house, and prohibiting the employment of more. By scrupulously obeying the federal statute the legislature saves to the territory \$50,000 spent by its predecessor for clerk hire, printing and other legislative expenses. The taxpayers, citizens are enthusiastic ever the work of Arizona's reform legislature.

One of the largest scenes in the world is to use near G. H. Lester, N. J. It is a mile and a quarter long, and each year one-third of it is to be renewed, the work being done in Baltimore. It is used in catching shad, and at the opening of each season thousands of people gather to witness the haul. Old fishermen believe that shad will be running lively by the beginning of April. They declare that all the signs point to an early spring. The first Delaware shad was recently captured at Bayside, where it sold for 75 cents.

The postoffice in India is regarded as so important an agency by the more ignorant natives that in some out-of-the-way places the very letter-boxes are worshipped. In one case a man posted his letter in a box and shouted out its destination, to inform the presiding spirit whom he supposed to be inside. Another native humbly took off his shoes as he approached the box, went through various devotions before and after posting his letter, and finally put some coppers before the box as a propitiatory offering, retiring in the same attitude of humility.

There is one co-operative housekeeping society in New York city that is a success, and it was started only a short time ago by a woman, the wife of a horse car conductor. Like most poor people, she had bought groceries by the pound or half pound and coal by the cent. She persuaded the inmates of the tenement house to club together and buy their stores in larger quantities. They find that this saves about one-third of the cost. Six of the women have now clubbed together to hire a woman to wash and iron for them, while they take in tailoring or do other work, and they have some thoughts of trying a co-operative kitchen.

"M 71-38" is the official appellation of the new weapon adopted by the German army, which, translated, or rather written out in full, would signify: "Manser, gun invented in 1881, changed into magazine gun 1884." The first improvement to be noted is the fact that empty cartridges, after firing are expelled by a spring instead of being jerked out by a movement of the hand. Another improvement is the easy use of the trigger and all most entire absence of recoil. The magazine, consisting of a barrel running parallel with the bore, contains eight cartridges, which are pushed backward by means of a spiral spring. As they enter the lower chamber of the lock a so-called spring lifts them into the firing chamber, whence the shells are subsequently expelled by a special contrivance.

LIVER, BLOOD AND LUNG DISEASES.

LIVER DISEASE AND HEART TROUBLE. Mrs. MARY A. McCLURE, Columbus, Ky., writes: "I addressed you in November, 1884, in regard to my liver disease, and my strength was so weak, and my bowels so constipated, that I was advised to use Dr. Pierce's Golden Medical Discovery, Favorite Prescription and Pellets. I used one bottle of the 'Prescription,' five of the 'Discovery,' and four of the 'Pleasant Purgative Pellets.' My health began to improve under the use of your medicine. My difficulties have all disappeared. I can work hard all day, or walk four or five miles a day, and stand it well; and when I began using the medicine I could scarcely walk across the room, most of the time, and I did not think I could ever feel well again. I have a little baby girl eight months old. Although she is a little delicate in size and appearance, she is healthy. I give her remedies all the credit for curing me, as I took no other treatment after beginning their use. I am very grateful for your kindness, and thank God and thank you that I am as well as I am after years of suffering."

LIVER DISEASE. Mrs. I. V. WEBBER, of Foshahie, Cattaraugus Co., N. Y., writes: "I wish to say a few words in praise of your 'Golden Medical Discovery' and 'Pleasant Purgative Pellets.' For five years previous to taking them I was a great sufferer; I had a severe pain in my right side continually; I was unable to do my own work. I am happy to say I am now well and strong, thanks to your medicines."

Chronic Diarrhea Cured.—D. LAZARUS, Esq., 373 and 377 Decatur Street, New Orleans, La., writes: "I used three bottles of the 'Golden Medical Discovery,' and it has cured me of chronic diarrhea. My bowels are now regular."

"THE BLOOD IS THE LIFE." Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, and bodily health and vigor will be established. Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially it proves its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

INDIGESTION BOILS, BLOTCHES. Rev. F. ASBURY HOWELL, Pastor of the M. E. Church, of Silvertown, N. J., says: "I was afflicted with catarrh and indigestion. Boils and pimples began to appear on the surface of the skin, and I experienced a tired feeling and dulness. I began the use of Dr. Pierce's Golden Medical Discovery, directed by him for such complaints, and in one week's time I began to feel like a new man, and am now sound and well. The 'Pleasant Purgative Pellets' are the best remedy for bilious or sick headache, or tightness about the chest, and taste in the mouth, that I have ever used. My wife could not walk across the room when she began to take your 'Golden Medical Discovery.' I can now walk quite a little ways, and do some light work."

HIP-JOINT DISEASE. Mrs. IDA M. STRONG, of Abingworth, Ind., writes: "My little boy has been afflicted with hip-joint disease for two years. When he commenced the use of your 'Golden Medical Discovery' and 'Pellets,' he was confined to his bed, and could not be moved without suffering great pain. But now, thanks to your 'Discovery,' he is able to be up all the time."

CONSUMPTION, WEAK LUNGS, SPITTING OF BLOOD. GOLDEN MEDICAL DISCOVERY cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Asthma, and kindred affections, it is a sovereign remedy. While it promptly cures the severest Coughs it strengthens the system. It rapidly builds up the system, and increases the flesh and weight of those reduced below the usual standard of health by "wasting diseases."

Consumption.—Mrs. EDWARD NEWCOM, of Harrodsburgh, Ohio, writes: "You will ever be remembered for the remarkable cure in my case. I was so reduced that my friends had all given me up, and I had also been given up by two doctors. I then went to the best doctor in these parts. He told me that medicine was only a punishment in my case, and would not undertake to treat me. He said I might try Cod Liver Oil as a last resort, but I was so weak I could not keep it to give me up yet, though he had bought for me everything he saw advertised for my complaint, procuring a quantity of your 'Golden Medical Discovery.' I took only four bottles, and to the surprise of everybody, am to-day doing my own work, and an entirely free from that terrible cough which harassed me night and day. I have been afflicted with rheumatism for a number of years, and now feel so much better that I believe, with a continuation of your 'Golden Medical Discovery,' I will be restored to perfect health. I would say to those who are falling a prey to that terrible disease consumption, do not do as I did, take everything else first, but take the 'Golden Medical Discovery' in the early stages of the disease, and thereby save a great deal of suffering and be restored to health at once. Any person who is still in doubt, need but write me, inclosing a stamped, self-addressed envelope for reply, when the foregoing statement will be fully substantiated by me."

Ulcer Cured.—ISAAC E. DOWNS, Esq., of Spring Valley, Rockland Co., N. Y. (P. O. Box 28), writes: "The 'Golden Medical Discovery' is sold by Druggists. WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, No. 663 Main Street, BUFFALO, N. Y.

GIVEN UP TO DIE. Consumption.—Mrs. EDWARD NEWCOM, of Harrodsburgh, Ohio, writes: "You will ever be remembered for the remarkable cure in my case. He told me that medicine was only a punishment in my case, and would not undertake to treat me. Any person who is still in doubt, need but write me, inclosing a stamped, self-addressed envelope for reply, when the foregoing statement will be fully substantiated by me."

WASTED TO A SKELETON. Consumption and Heart Disease.—"I also wish to thank you for the remarkable cure you have effected in my case. For three years I had suffered from this terrible disease, consumption, and heart disease. Before consulting you I had wasted away to a skeleton; could not sleep nor eat, and many times wished to die to be out of my misery. I then consulted you, and you told me you had hopes of curing me, but it would take time. I took five months' treatment in all. The first two months I was almost discouraged; could not perceive any favorable symptoms, but the third month I began to pick up in flesh and strength. I cannot now recite how, step by step, the signs and realities of returning health gradually but surely developed themselves. To-day I tip the scales at one hundred and sixty, and am well and strong."

BLEEDING FROM LUNGS. JOSEPH F. McFARLAND, Esq., Athens, Ga., writes: "My wife had frequent bleeding from the lungs before she commenced using your 'Golden Medical Discovery.' She has not had any since its use. For some six months she has been feeling so well that she has discontinued it."
