The Mad Buffalo of the Plaiss." Senator Benton always asserted that ae had a right to state what he said and did in executive session. When, ifter the Mexican war, he had resisted he nomination of Brigadier-Gen. Kearmey as major-general by brevet, because of his treatment of Col. Fremont, Mr. Benton gave to a reporter some esolutions which he had prepared, denouncing Gen. Kearney, saying: "Take hose, if you please, sir, and print them. give them to you in the presence of hese witnesses. I am responsible. I lesire that they be promulgated to the country." The resolutions were taken by the correspondent and duly printed. A few days afterwards, Mr. Butler nade a motion that the galleries be sleared and the doors closed, for the surpose of enabling him to make a moioa concerning the violation of certain executive proceedings. Every one knew hat Mr. Benton had avowed the publieation of his resolutions against Gen. Kearney, avowed it and glor fied in it, and defind all objections to it. An alercation of an hour followed, with excited remarks made under the cover of discussing the question of order, the perpetual sneers and jeers of Mr. Benon, his hundred interjectional exclanations, his final pompous declaration hat he threw upon Mr. Butler the nesessity of saving what he did, that he was ready to meet the senator from Missouri anywhere. Mr. Benton, alhough his defiance was thus accepted. continued to assert that the man who charged him with doing anything disionorable was a liar in his throat. A Call reporter found the fortunate Joseph in his office at the back part of the store fill ing out blank bank checks. He made no concealment of the fact that the March drawing at New Orleans had made him \$15,000 richer. About a week before it occurred he bought two tickets from a persuasive peddler of the coupons who entered his place. One of them happened to be numbered 66,551 and this number drew the first capital prize of \$150,000. The following words, in praise of Dr. Pierce's Favorite Prescription as a remedy for those delicate diseases and weaknesses peculiar to women, must be of interest to every sufferer from such maladies. They are fair samples of the spontaneous expressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been restored to them by the use of this world-famed medicine.

WRONG DISEASE. TREATING THE

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their casy-going and indifferent, or over-busy doctor, separate and distinct diseases. for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

much better aiready.'

Mrs. E. F. Morcan, of No. 71 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking Br. Pierce's Favorite Prescription and using the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. wrote a letter to my family paper, briefly mentioning how my let ith had been restored, and offering to send the full particulars to .ny one writing me for them, and enclosing a stamped-envelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and have carnestly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were

A Marvelous Cure. Mrs. G. F. SPRAGUE, of Crystat, Mich., writes: "I was troubled with female weakness, leucorrhea and failing of the womb for seven years, so I had to keep my bed for a good part of the time. I doctored with an army of different physicians, and spent large sums of money, but received no lasting benefit. At last my husband persuaded me to try your medicines, which I was loath to do, because I was prejudiced against them, and the doctors said they would do me no good. I finally told my husband that if he would get me some of your medicines, I would try them against the advice of my physician. He got me six bottles of the 'Favorite Prescription,' also six bottles of the 'Discovery,' for ten dollars. I took three bottles of 'Discovery' and four of 'Favorite Prescription,' and I have been a sound woman for four years. I then gave the balance of the medicine to my sister, who was troubled in the same way, and she cured herself in a short time. I have not had to take any medicine now for almost
