Passenger No. 2, Tuesday morning, carried four extra coaches of tourists returning from an excursion to California. With twelve cars she presented a metropolitan aspect indeed.

No fire and brimstone for the present. It has been demonstrated that there is at least one business man in the corporation who can repeat the Lord's prayer verbatim et literatim. We refer by permission to C. T. B.

Any business man who will take the time to consider the matter will come to the conclusion most certainly that the proposed bridges will result most advantageously to their trade—in an increase not inconsiderable.

The coming shooting tournament for June 7-11, in this city, is attracting considerable attention, in the way of practice and preparation for the event. The local team is regarded as able to cope with any and all comers.

Good, well-worked roads and an accommodating number of bridges have much to do with the country trade of a town. Our merchants have the goods. The next thing in order is the provision of facilities for getting into town.

It is rumored that the B. & M. contemplates the erection of a freight house at this place. Their present facilities are entirely inadequate to the business transacted. We hope the report may bloom into a commodious building.

A fine boy baby assumed the dictatorship of the Kenyon household, last Friday night. Mother and child doing nicely. The councilman is expected to recover, although grievously afflicted with a generous dose of joyous delight.

The tin-horn gamblers and dissolute females of the city were arrested and fined, the close of last week. The dose can be repeated frequently with good effect—the weeding out of a large number of the disreputables. The net might be enlarged.

The Ladies' Aid Society of the M. E. church will give a social at the home of H. H. Berry, Thursday evening, May 19. Refreshments will be served and a general good time is anticipated. Everybody cordially invited.

The city will display wisdom in accepting the railroad company's proposition on the sewer question. We are assured that in case of the city's failure, a private company will accept the same. It is obviously advantageous to the city.

The assessment for school purposes will not be made until some time in June. The present prospects are that a levy of 15 or 20 mills will be necessary. The matter of providing a sinking fund for future liquidation of existing school bonds will also absorb some attention, in addition to usual annual interests thereon.

The regular meeting of the Y. P. A., the same being the semi-annual meeting of the association as well, at which time the election of officers and other important business will come up for disposal, will be held at the residence of L. Lowman on North Madison Avenue, to-morrow evening. A general invitation is extended.

Last Saturday evening, William Hamilton, the Carrico well digger, completed a well for G. W. Minkler on the latter's property north of the public school block. An abundant supply was had at a depth of 85 feet. During the latter part of the digging some peculiar petrifactions were unearthed, specimens of which this office is under obligations to Mr. Hamilton for. The cost of the well is less than \$50.

The matter of voting bonds for bridges east and west of the present structure really deserves consideration. That the building of the same will increase the trade from the localities they are intended to accommodate is acknowledged. The burden upon the precincts, the advantages being taken into the account, will be exceedingly light. Our business men might bestir themselves in this behalf with profit. Agitate the projects.

Even railroad life has its amusing features: A few days since, a west end section hand, learning that his head would shortly adorn the official waste basket, conveyed, per telegram, his "resignation" to headquarters. The same was duly appreciated in the following terse language: "Your resignation not accepted. You are hereby discharged." And the "resigner" was promptly black listed. The moral or deduction is obvious.

We desire to attract the attention of the members of Hocknell Hose Co. to the call for a meeting of the company, Friday afternoon at 4 o'clock, mountain time, and to impress upon them the importance of turning out in force in response thereto. The hose has not been inspected in months, and it is desirable to know whether or not, in case of fire, the same can be depended upon. Every member of the organization should devote an hour, Friday afternoon, to inspection and practice.

It is contemplated the erection of a two-room school house, in the eastern part of the city, the same to be completed in season for the fall term of school, and the consequent vacation of the Main Avenue building at the expiration of the present term. This will add another teacher to the corps of instructors in our city schools, and will increase the running expenses of the same. The prospects are that our board of education will not have any great surplus of shekels to dispense, this year, even with a goodly levy.

"They say" that the redoubtable Judge William Gaslin is now a genuine anti-monopolist, which is explained on this wise: It appears that the Judge recently purposed in his heart to go to Benkelman, buying a ticket which he supposed would take him to the desired destination. It further appears, however, that the ticket agent blunderingly gave the Judge a ticket to Orleans instead. Upon the Judge's arrival at Oxford, he resting under the firm impression of having paid his fare to Benkelman, and vociferously objecting to double payment as a matter of equity, was summarily bounced, much to his disgust and wrath. The Judge may only be "coddled" on this subject at a safe distance.

HOCKNELL HOSE CO. The members of Hocknell Hose Co. are requested to meet at the home house, to-morrow (Friday) afternoon, at 4 o'clock, M. T., for the purpose of a short practice. All members are urgently requested to be present. By order of R. B. ARCHIBALD, Chief. F. M. KIMMELL, Sec'y.

TO THE FARMERS

Who need Twine Binding Harvesters, this season: Do not be induced into buying a machine that is not durable and that CANNOT last. WOOD CANNOT STAND WITH STEEL. Below I give an exact copy of a letter written me, from William Deering, Chicago, Ills., Manufacturer of the Deering ALL STEEL Binders:

CHICAGO, ILLS., May 1st, 1887. C. P. RINKER, McCook, Neb.

DEAR SIR:—You will find your competitors representing Wooden Machines, unusually active this season. They are canvassing industriously. This is owing to the fact that the makers of Wooden Machines are painfully aware that this is the last season in which they can expect to do any business, and they will make desperate efforts to unload their stock before it becomes entirely worthless. YOU SHOULD CALL AT ONCE ON EVERY PROSPECTIVE OR POSSIBLE CUSTOMER IN YOUR TERRITORY. If you see that your customers are properly informed on this subject, are made fully aware of the fact that the Wooden Machine is almost a thing of the past and will not be manufactured after this season, you will find that in most cases they do not want Wooden Machines at any price. But unless you are VIGILANT AND ACTIVE and see your friends IMMEDIATELY your information may REACH THEM TOO LATE. Very Truly Yours, WILLIAM DEERING & CO.

The prices on the above "all Steel Binder" is very low in accordance with their worth. Terms and prices given upon application. Write me. Very truly, C. P. RINKER.

Carpets, Curtains and Upholstery Goods we have a large stock. Come and examine them. L. LOWMAN & SON.
