unqualified approval of the republicans of
this city—and of the state and nation may
be added with equal truthfulness.

H. C. Day is having some telling improve-
ments made on his residence in the north-
western part of the city, a neat porch along

Everybody come and help us celebrate the
Fourth of July. Every arrangement will
be perfected for a time galore. Bring the family,
your wife's folks and the neighbors. A rous-
ing time is absolutely assured.

Softer than the rustle of an angel's wing,
sweeter than the music of Apollo's lute,
more entrancing far than the notes from Or-
pheus' lyre, is the voice of him who says:
"Put me down for a year's subscription."

The Holdrege club and the "Famous" will
cross willows on the local "diamond," to-
morrow. The visiting boys are ballists of
no mean ability and they will doubtless
give our club an opportunity to exhibit their
professy fully.

Quite extensive improvements are progress-
ing on Banks & Horner's business place on
lower Main Avenue, this week. A commodi-
ous addition is being built in the rear and
the front elevated, and its appearance and
convenience otherwise greatly enhanced.

The reputation of any section of country
depends upon what is said about it. It is our
duty and to our interest to represent our
advantages in the best possible light—to talk up
our club an opportunity to exhibit their
professy fully.

McCook certainly has an unusually large
number of secret societies. If every man be-
longing to one or more of them put in every
day practice the principals of virtue and
religion taught and sworn to within the lodge
rooms there would be a far different showing
in their life records and their passports surer
for admittance into heaven.

Our fellow-townsmen, Frank H. Spearman
of the Farmers & Merchants bank, has an
excellent and exhaustive paper in the
Harper on "The Great American Desert."
The same is handsomely and appropriately
illustrated and is meritorious as a literary
production, besides being an able defense
and comprehensive resume of the so-called
G. A. D.

On or about July first the flour and feed
store of A. J. Thompson will pass into the
hands of C. G. Potter & Co., who will
conduct the business at the old stand; and as
C. G. will have personal charge of affairs of
the firm, its business will be conducted in a
careful, courteous manner which will no
doubt secure for them a goodly share of the
public patronage in that line. Here's to the
new firm's success.

THE DELUGE.

A HEAVY RAINFALL AND TERRIFIC
LIGHTNING.
A drenching rain fell in this city and vicin-
ity, Monday evening, the same being ac-
companied by vivid, ugly lightning and
startling peals of thunder. The water rushed
down the streets like diminutive rivers,
causing some damage to cellars on the low-
lands. The Fries & Hoeknell Lumber Co.'s
stable, situated in the rear end of yard was
struck by lightning and almost entirely
consumed, the fire company, with the assist-
ance of nature's bountiful water works, suc-
ceeding in confining the flames to that struc-
ture. The horses were saved as well as the
carriage and other property of value in the
stable. The loss will aggregate about \$500.

A regular "goose drover."
The few telephone wires in the city were
more or less affected by the electricity, some
more than less.

J. F. Ganschow suffered a loss of about \$100
in surplus stock damaged by the water that
ran into his cellar to the depth of two feet or
more.

H. H. Berry's cellar was full to the floor.
The goods stored therein were in the main in
jars and tins, and his damage was merely
nominal.

There were a few inches of water in the
McCook block cellar, in which George Paxton
had a small amount of tobacco stored. No
damage worthy of mention.

Messrs. Helm & Davis and C. A. Frederick
were damaged to considerable extent by the
water and mud, which filled their offices to a
depth of two or three feet.

One length of hose succumbed to the pres-
sure, a large rent being made in the same,
which necessitated its removal from the line
and occasioned a short delay.

The basement of the Citizens bank building
might have been utilized for maturation pur-
poses immediately after the deluge, before the
pump brigade got down to effective work.

The dwellings of Conductor John Morris
and Stanton Holt on East Dennison were also
struck by lightning, fortunately without in-
jury to the occupants or material damage to
the buildings, however.

The fire boys, or rather the few who remain
until the end, feel very grateful and under
obligations to Clerk Brandt of the Eating
House for favors extended and appreciated
and use this means of expressing their thanks.

A current ran into the pump house on the
electric line play, disporting itself through
the building in a wild, inoffensive way, oc-
casional little damage, more than the demol-
ishing of a few window lights and the sliver-
ing of some of the wood work.

The air chamber to the small engine and
pump at the water works broke during the
deluge; but in a few minutes the larger engine
was connected and pumping. The electric
bell was melted and the battery destroyed, be-
sides two of the poles were destroyed.

The State Republican League.
T. E. McCracken, C. T. Brewer and H. W.
Cole, delegates from the Republican club of
this city, went down to Lincoln, Wednesday
night, to participate in the ratification, "Thurs-
day night, of the republican national nomi-
nees, by the Nebraska Republican League.
The boys returned home, this morning, and
report a famous time and unbounded en-
thusiasm.

Sheriff W. O. Russell went down to Indian-
ola, Monday, and formally revoked the ap-
pointment of Deputy Sheriff Will McCook,
placing Lee Starbuck of this city in the of-
fice made this vacant. Sheriff Russell gives
as his reasons for taking the action that the
late deputy disregarded and disobeyed orders
and that he was using his official position to
work up a nice, large political boom to spring
at the accepted time.

LARGER WATER MAINS.
The iron pipes for the new twelve inch
supply main are here and being delivered on
the ground preparatory to being planted at
once. These pipes are twelve inches in di-
ameter and will increase the supplying ca-
pacity of the water works three fold. The
present supply pipe will be laid up Main Av-
enue to replace the 4-inch one now in use
there. This will be withal an important and
costly improvement to the water works.
Others are in view.

COUNTY TEACHERS' INSTITUTE.
On next Monday morning the regular ses-
sion of Red Willow county teachers' insti-
tute will be opened in the high school in this
city. Arrangements have been perfected to
make this the most interesting and profitable
meeting ever held in this county. It is ex-
pected that the teachers of the county will
be in attendance in large numbers, that the
most may be made of the benefits to be surely
derived from the instruction to be imparted.
Prof. Valentine will be one of the prominent
instructors. A number of lectures will be de-
livered during the session. Entertainment
at reasonable rates has been provided. Every
teacher should be present. The institute will
do you good.

DON'T DO IT AGAIN.
We have it on authority that quite a num-
ber of lawn sprinklers were RUNNING DURING
THE FIRE, Monday evening, notwith-
standing that the rain was descending in per-
fect torrents at the same time. The effect
was that the pressure in the fire mains was
greatly reduced, and the engine was run-
ning at the rate of 300 strokes a minute, and
the efficiency of the department, which was
working under unusual disadvantages, prop-
erly weakened. Such a thing ought
never to occur again. We simply suggest
this, feeling that the good sense of our citi-
zens will teach them compliance. In case of
fire the department needs every pound of
pressure available and it ought not to leak
through carelessness.
