"But John P. Robinson, he sez, they didn't know everythin' down in Judee." They certainly knew little, if they did not know that the safest, quickest and most pleasant cure for croup, bronchitis, cough, cold in the chest, etc., is Dr. Bull's Cough Syrup. Price twenty-five cents a bottle.

As a remedy for accidents common to every day life, such as cuts, bruises, sprains, burns, scalds, and frostbites, Salvation Oil has no equal in the market It literally annihilates pain. Price 25c.

James Russell Lowell is living with his sister at Boston.

The Greenland Expedition.

Dr. Nansen, the Danish explorer, and five companions, have succeeded in their attempt to cross Greenland, but the scientific results of the trip cannot yet be told. The party left their vessel in latitude 65 degrees on July 17, with the east coast in sight, but were twelve days reaching land over the pack ice. They crossed the narrow part of Greenland, far south of Nordenskjold's attempted route, and reached Godthaab October 4, where, being too late for the last ship, they will remain until spring.

Lo as a Wood-Worker.

.Carpentry was the trade of the American aborigines-Indians and mound builders. Mr. H. F. McLeod, of the Smithsonian institution, states that the tent poles of the Sioux Indians even now show pretty specimens of work, and the Moqui Indians, since long be fore the landing of Columbus, have known how to mortise timber, to make ladders, and to swing doors on hinges from the top. The chisel they push rather than hammer, and they work the board up and down on a fixed saw, but the results are creditable. The Aztecs made a good glass, which they used for their best cutting blades, swords, daggers, spears, saws, chisels and axes. They sharpened these by cleaving off the dull edge.

For Bruises and Burns.

HE DANCED AT HER WEDDING:

danced at her wedding last night, Abd none could have guessed my emotion As I saw her a bride-her on whom had lavished a lifetime's devotion. danced at her wedding. Why not? Having lived through the scene at th altar.

When the knot was tied fast for all time. Do you think that my courage would

I danced with as lightsome a step, With a face as unmoved as the next one He must be a fatuous fool Who in crisis like this could expect one, Though a tumult were raging within, To betray to onlookers his passion; I don't wear my heart on my sleeve That sort of thing isn't my fashion.

I danced-so did she. Though I'll swear, For a fact, that I hardly knew whether I stood on my heels or my head When we went wildly whirling together, When her breath was as sweet on my cheel As the blossoms of orange she carried, We danced till folks said 'twas bad tast,e Since I was the fellow she married!

The Mysterious Organist

A Legend of the Bhine.

"Kind hearts are more than coronets, And simple faith than Norman blood. Years ago, at a grand cathedral overlooking the Rhine, there appeared a mysterious organist. The great composer who played the organ so long, suddenly died, and everybody from the King to the peasant, was wondering who could be found to fill his place, when, one bright Sabbath morning, as the sexalong the Rhine. ton entered the church, he saw a stranger seated at the crape-shrouded organ. He was a tall, graceful man, with a pale but strikingly handsome countenance, great, black, melancholy eyes, and hair like a raven's wing in gloss and color. He had not tufts of plumes which floated from seemed to notice the sexton, but went on playing, and such music as he drew from the instrument no words of mine can describe. The astonished listeners declared that the organ seemed to have grown human that it wailed, and sighed and clamored, as if a tortured human heart was throbbing through it. When the music at length ceased the sexton hastened to the stranger and said:

"Pray, who are you, sir?" "Do not ask my name," he replied. "I have heard that you are in want of an organist, and have come here on trial."

dead organist, let my music breathe out the adieu I could not trust my

A low moan was the only answer, and he continued: "You are married on the morrow?"

"Yes," sobbed the girl. "Oh, Bertram, what a trial it will be to stand at yonder altar, and take upon me the vows that will doom me to a liv-

lips to utter."

ing death." "Think of me," rejoined the organist. "Your royal father requests me

to play at your wedding, and I have promised to be here. If I were your equal I could be the bridegroom instead of the organist; but a poor musician must give you up."

"It is rending body and soulasunder to part with you," said the girl. "To-night I may tell you this-tell how much I loved you, but in a few hours it will be always a sin. Go, go, and God bless you. She waved him from her as if she

would banish him while she had the power to do so, and he-how was it with him. He rose to leave her, then came back, held her to his heart in a long embrace, and with a halfsmothered farewell left her.

The next morning dawned in cloudless splendor, and at an earlier hour, the cathedral was thrown open, and the sexton began to prepare for the rinse well. Salts of lemon are made brilliant wedding. Flame colored of equal parts of oxalic acid and tarflowers nodded by the wayside, from the trees, and lay in light heaps upon the ground, and the ripe wheat waved like a golden sea, and berries dropped in red an purple clusters over rocks

At length the palace gates were opened, and the royal party appeared, escorting the Princess Elizariage was solemnized. It was a brave | nn the spot at night and soak it pageant; far brighter than the untwined blossoms and foilage were the stately heads, and festal robes that streamed over the housings of superb steeds. But the Princess, mounted tion being coupled with a nighton a snow white palfrey and clad in snow white velvet, looked pale and sad; and when on nearing the church, she heard a gush of organ music, which, though jubliant in sound, struck on her ear like a funeral knell, she trembled and would have fallen to the ground had not a page supported her. A few more moments afterward, she entered the cathedral. There, with his retinue, stood the royal bridegroom, whom

she had never before seen. But her eyes roved from him to the organ and she was obliged to return the

vulsive embrace, and whispered:

"Elizabeth! my queen! look up!"

THE HOUSEHOLD.

Hints for Housekeepers.

Sprinkle cayenne pepper in the resorts of rats, and they will leave the premises.

Vapor baths will clear the skin. Powdered charcoal, taken on first rising in the morning, is good. Sometimes a good medicine for biliousness is the remedy required.

Chloride of lime is an infallible preventative for rats, as they flee from its odor as from a pestilence. It should be thrown down their holes, and spread about wherever they would be likely to come, and should be renewed once a fortnight.

For biliousness squeeze the juice of a lime or small lemon into half a glass of cold water and stir in a little baking soda; drink while it foams. To be taken when rising in the morning. This will also relieve the sick headache, if taken in the beginning.

To remove iron rust or ink spots, moisten the spots, and apply salts of lemon until they disappear, and then taric acid. Another way is to moisten with lemon juice, sprinkle well with salt and lay in the sun.

According to Dr. Erasmus Wilson, the great authority on hair, any one who is threatened with baldness, if it has not made too much headway, can check the tendency by rubbing beth to the cathedral where the mar- a little mixed vaseline and sulphur with quinine every morning.

> Rather a novelty has been introluced lately in the shape of a noiseless clock for sick-rooms, the invenlamp. When the lamp is lighted the necessary diminution takes place by combustion. At other times a mechanical arrangement allows the water to drop in the regular fashion. The fluid escapes at a uniform rate and keeps both the clock and lamp a going.

The appointment of housekeeper at Windsor Castle, which has become vacant through the death of Mrs. allow three cooking spoonfuls, heap-Henderson, is one of the best things ing, of hot pumpkin, one spoonful of loft, where she expected to see the for women in the English queen's ginger, a little salt, one spoonful of mysterious organist. He was gone, gift, for there is not only an adequate molasses, and one-half cupful of salary, but the housekeeper has excellent apartments in the castle, valuable perquisites and numerous privileges. When the royal personages from abroad visit the queen at and made the responses. Then her Windsor a handsome present to the husband drew her to him in a conhousekeeper is a matter of course. Emperor Nicholas of Russia gave the housekeeper £1,000 and Emperor Trembling in every limb, she obey Napoleon a couple of splendid diaed. Why did those dark eyes thrill

goods are made from it."

The injunction said to have been laid on the dauphin by one of the Louises of France, applies to house plants: "My son, you must seem to love your people." "But, sire, how shall I seem to love them?" "My son you must love them."

But this tender regard must be wisely directed. For example: It is well understood that plants in pots need water; but they may easily have too much water; which is sure to do harm; but the harm will be much lessened if there is sufficient drainage. The pieces of broken pots in the bottom should never be omitted. Without proper drainage the soil becomes sour, the plants become sour, the plants languish and the leaves become yellowish. The only remedy then is to repot, shaking out as much of the soil as possible from among the roots, and using fresh soil, old. well-rotted manure, and sharp sand, about equal parts, will answer well. After re-potting and watering, the plant should be shaken for a few days. In a general way, too little water is better than too much. The drooping leaves indicating drouth, are easier remedied than the yellow leaves, the result of having been kept too wet .--

A family who had migrated to town from way Down East secured my valuable services as "help" one winter my knowledge thereby gained of real old-fashioned cooking has "helped" me since in a hundred ways. We used pumpkins-the real Jack-olantern kind-and prepared enough to last several weeks. This will keep well in the modern glass can with frequent scalding in a hot bath. We had to dry it if it "got ahead" of us. We made only one or two pies at a time, as they should be eaten hot from the oven like pudding. Chop the "vegetable" in sections-peel it if you can-and boil all day, stirring often till it is dry and brown. I used to stew it till soft, and then peel it and replace in the kettle to finish. For one large or two small modern pies

Mr. Clayer's Lucky Draw. Murray (lowa) News, Nov. E

Having interviewed Mr. John T. Cla ver in regard to his reported lucky draw in the Louisiana State Lottery, we find that he held one-twentieth of ticket No. 46,755, which drew the first capital prize of \$300,000 in the company's drawing on the 9th of October last, and that he has received his money-\$15,000-on the same. Mr. Claver's ticket cost him one dollar, and was the first and only money he had ever invested in that

By an agreement with Mr. William Foster of this place, who also held a ticket in the institution, that if either of their tickets drew a prize they would divide equally, Mr. Foster receives onehalf the amount.

Mr. Claver and Mr. Foster are both well respected citizens of this vicinity, and whatever may be said pro or con of the Lottery itself, this amount of money will elevate them from moderate to well to-do circumstances, and it is to be hoped that it will be invested in a way that will give it circulation in this city and community.

A Marine Battle, From the San Francisco Examiner. The whaling bark Josephine has

returned from the Japanese sea. While fishing there she had an unusual adventure. During the month of October the vessel, under command of Captain Horace Smith, saw more than 200 yards away. Two boats were manned, one by the first and the other by the third mate. They were launched and made for the scene of the disturbance. An ocean battle was going on. A couple of killers were tearing a humped back whale to pieces. The water for yards around was crimsoned with blood. It was apparent that two monsters were attacking a whale. The boatmen fired their harpoons and succeeded in sticking both of the monsters. They were captured and towed to the side of the bark.

The whale had been killed, but the discipline and eminently healthy as carcass was of no use in consequence of the species of the animal and no eat three meals daily. When a man attempt was made to recover it. Twelve barrels of good oil were got out of the killers and the head of one clergyman and the horror of some of intervals to be wholesome. When he was brought to this part and presented to William Bendt, of No. 8, Clay Street. It shows a row of large, savage-looking ivories numbering forty-four. They look ghastly and terrible. The fish is so rare that its capture is regarded asquite a triumph. Not one of the crew of the Josephine had ever before seen such a fish.

A Youthful Bear Hunter.

A bear for a long time made a regular visit to the orchard of Sheriff Power. near Coupeville, W.
