Alive to McCook's shops prospects, Secretary of State Laws has planted a few dollars in McCook realty, having this week purchased three valuable business lots in block 15, Main avenue, north of Commercial House. And yet a substantial growth exists there.

The latest postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or tells the postmaster to mark it "refused," and have a postal card sent notifying the publisher, lays himself liable to arrest and fine, the same as for theft, etc.

The "Whittling Social" at the Congregational church, last night, was an immense success. The attendance was quite unusually large, and pleasure practically unlimited. A programme of music, recitations, etc., was rendered to the marked satisfaction of all present. In the "whittling match," Mrs. C. D. Belnap won the prize, a hand-painted bottle. This feature of the entertainment afforded no end of merriment. A corps of physicians, nurses, etc., were constantly on hand to minister to the wants of the wounded and it may be safely assumed that more than one mild-mannered jack knife "got in its work" on an offending digit.

Board of Trade Meeting.

A meeting of the Board of Trade was held in the Babcock building, Wednesday evening, the attendance being fair. Mr. Jennings of the road committee reported favorable progress, some three or four roads already to place before the county commissioners for official establishment. Mr. Meeker of the sugar commission read a partial report of the inspection of the Topoka cane sugar mill by himself, Judge Cochran and Frank Harris, exhibiting a specimen of the output of the mill. The gentlemen brought back a very favorably report indeed, and feel confident that a sugar mill would make a splendid, paying enterprise for McCook and Red Willow county. On their return, Judge Cochran stopped over at Lincoln and with the aid of Representative Wilcox prepared and introduced a bill in the state legislature providing for a bounty of two cents per pound on cane and beet sugar grown in this state. The following preamble and resolution were then framed and adopted by the board, and Messrs. Cochran, Green, Meeker and Harris were constituted a committee to go to Lincoln to urge the passage of the bill.

WHEREAS, This board has taken considerable pains to investigate the sugar manufacturing interests in Kansas, and

WHEREAS, The industry is new in the west and is one that must prove beneficial to the entire state, and

WHEREAS, The bonus or premium of 2 cents per pound paid by the state of Kansas for each pound of sugar manufactured in the state has been the principal impetus to sugar manufacturing in that state;

THEREFORE BE IT RESOLVED, That it is the sense of this board that it be introduced by Representative Wilcox in the legislature of Nebraska a bill in the right direction, and that the same, if passed, would be of great benefit to the state; and we most earnestly urge the passage of the said bill.

Bills of THE TRIBUNE, \$5.50, and of THE Democrat, \$7.50, allowed. Adjourned.

AN IMPORTANT MEASURE.

Representative Wilcox has introduced a bill entitled, "An act to encourage sugar manufacture," which in the writer's opinion is one of the most important measures brought before the present session. The bill provides the payment of a bounty of two cents per pound on all cane and beet sugar manufactured in Nebraska, and will no doubt, should it become a law, encourage what in Kansas, under a similar law, is becoming a great and growing industry, in which the people, the farming community, as well as the mill owner and capitalist, enjoy a good profit. To Western Nebraska the establishment and operation of sugar mills would be a great boon. Sugar cane is successfully grown here and in great quantities. It would bring eastern capital to our aid. Encourage the cultivation of cane, providing a local market for its purchase. Would give employment to a large number of hands at a time when demand for laborers is limited. THE TRIBUNE hopes to see the bill pass without opposition. The entire state will necessarily profit by the establishment of sugar manufacturing interests within its limit.

A bus load of young people from the city enjoyed a very pleasant evening at the "ranch" home of Mr. and Mrs. J. B. Meserve on Brus' creek, Monday evening. The party was in the nature of a surprise on Miss Edna, and in that particular was a complete success also. Progressive enclaves engaged the wrap attention of the young folks until the evening was well advanced. Upon inquiring it appeared that Miss Ida Hollister was entitled to the principal prize, Mr. Norman Forbes to the much-sought-after booby. The company was composed of: Miss Sara Lowman, Miss Ella Hart, Miss Grace Hamner, Miss Ollie Hannah, Miss Ida Hollister, Miss Anna Forbes, Miss Anna McNamara, Mr. and Mrs. F. M. Kimmell, Mr. A. C. Ebert, Mr. W. E. Mullen, Mr. E. E. Lowman, Mr. Norman Forbes, Mr. Geo. B. Berry, Mr. J. F. Forbes, Mr. J. D. Robb.

Death of Mrs. Geo. W. Roper.

[Indianola Courier.] It is with a feeling of sorrow that we chronicle the death of Mrs. Geo. W. Roper, the wife of our excellent county clerk, on Tuesday evening at her home in this city. That dread disease, consumption, had been gradually undermining her health for some time and a cold, caught a few weeks ago, hastened the close of her earthly career. A good wife, a loving mother and a kind neighbor has gone to her rest. A husband bereft of his helpmate, and five small children, of a mother's care. In behalf of this community we extend to the bereaved ones a heartfelt sympathy. The funeral takes place to-day, Thursday, at 2 P. M., at the M. E. church.

The Magic City.

[Hastings Republican.] McCook, the magic city of Western Nebraska, is to paralyze the natives by another surprise. An electric light plant is to be in operation within 90 days. The big infant of the Republic Valley, with water works, graded streets, electric lights and preserved forces of public spirited enterprise, is a hard hitter. In each mill the competitors record is paragonized in the brief report—"knocked out in the first round."

Subscribers Pay Up.

It is not the habit of the publisher to do persistent dunning; but there is a tide in the affairs of men which taken at the flood leads on to glory; so there is a time in the life of the publisher when a little cash seems to be necessary, in addition to glory. An urgent invitation is extended our delinquent subscribers to call at once and settle up. In other words we must have some money.

THE PUBLISHER.

The Time to Advertise.

Advertising is never so much in order by sagacious and merchants active as it is when a season has passed its first month. For in stance, the stock of all winter goods, whether in the hands of manufacturers or merchants, should be got rid of before the season has filled two-thirds of its length. To do this in all the lines for such goods needs far and liberal advertising.

Substantial Confidence.

C. H. Meeker has exhibited his substantial confidence in the city's future prospects, in the recent purchase of a tract of land from C. H. Boyle, comprising about seventeen acres, lying north of the city limits and east of Equi Park. The consideration is \$2,000.
