E. J. Hall has about 70,000 silk worms under his care. So far they are doing well. The raising of the silk larva lasts about five weeks, after which time the spinning of the cocoons takes place and silk is made. Anyone will be welcome at Mr. Hall's humble shanty on the claim to see the silk-worms, and he will be much obliged to those of our citizens who have mulberry trees or hedges to allow him to pick a few leaves for his worms. Should he be successful in his second attempt to raise silk he will go into silk raising on a larger scale, next year.

Go and see Ludwick's mammoth stock of second hand goods. Furniture, cook stoves, heaters and gasoline stoves, bought and sold. Will also rent goods by the week or month. A pawn broker's business in connection. Second door west of the McEntee Hotel.

COMMUNICATIONS.

Under this heading we will be pleased to include items of interest from all sections of the county. THE PUBLISHER.

Vailton Notes.

Rather dry at present.

Corn nearly all planted.

General good health is a noticeable feature in this locality.

Some movements in real estate, which we may notice later.

Mrs. Speer is about again, after a rather severe spell of sickness.

James Harris was at home, last week, but has since returned to the Lone Star state.

The amendment question is interesting us, at present. It will receive strong support.

Frank Everist was among us, Monday, on general business connected with stock dealing.

The ice cream supper was fairly well attended. Our young folks have great enterprise.

Brother Norval preaches to our people every two weeks. The sermons are made up of soundness, we are pleased to note.

There is no county-seat talk here or rather no controversy. All are of one mind and are willing to wait 'till the fullness of time, and come it will.

Stock look fine and hearty on the Driftwood. Does not take them all summer to regain what they lost during the previous winter. This kind of business is a thing of the past and we are glad of it. RALPH.

Banksville Budget.

Very dry.

Wm. Relp is running three cultivators on his corn crop and it looks fine.

The grangers are talking Alliance in these parts and seem to be anxious to organize a lodge.

Many newspapers are striking hard blows against the McKinley bill, that it reaches the "infant industries," but is sore on the farmers and laborers. There is no music in the howl. Increase of home industries means less produce and more home consumption and less transportation and more labor in other industries than farming, which results in a better price for farm products, and when the farmers get good prices for their goods other branches of business are prosperous. If the bill is suggestive of a Waterloo we hope it will be favorable to the United States in the victory instead of England. My arithmetic fails to figure any damage to American citizens by the U. S. doing its own manufacturing of four hundred millions of goods that now have to be imported. It is not high prices that is hurting us, but everything is too cheap. Let us stop kicking and help make the great machine move for the benefit of all our own people. OBSERVER.

Pleasant Prairie Posies.

Arthur Dodge has his new house almost finished.

Mother Ford went visiting, last Sunday. It surely will rain now.

A good many from this vicinity helped in the Memorial services at McCook, Friday.

John Goodenberger is waiting for it to rain, so that he can turn over some more of Mother Earth.

The Sabbath school is doing finely at the Dodge school house. Considerable interest is manifested by both teachers and scholars.

George Tucker is disposing of his property here, preparatory to returning to Iowa, his former home. His wife and baby have already gone. LA SUZ.
