Not in the "Book Trust."

The statement has been widely circulated, probably by parties who wished it might be true, that John B. Alden, Publisher, of New York, Chicago, and Atlanta, had joined the "Book Trust," which is trying to monopolize the publication of standard books, and to increase prices from 25 to 100 per cent. Mr. Alden sends us word that he has not joined the trust, and there is not and never has been any probability of his joining it. The "Literary Revolution" which has accomplished such wonderful results within the past ten years, in popularizing literature of the highest character (no "trash" ever finds place on his list) still goes on. Instead of increasing prices, large reduction in prices has recently been made particularly on copyright books by American authors. A catalogue of 88 pages is sent free to any applicant. One of the latest issues from his press is "Stanley's Emin Pasha Expedition," by Wauters, a very handsome, large type, illustrated volume, reduced in price from \$2.00 to 50 cents. This work tells a most interesting and complete story, beginning with the conquest of Sudan, and continuing through years of African exploration, the revolt of the Mahdi, the siege of Khartoum, with the death of Gordon, the return of Dr. Junker, besides the story of Stanley's own adventures, including his successful Relief Expedition. It is one of the best and most complete works issued upon the subject. Send Alden your address, and you will receive his 96-page catalogue, and from time to time specimen pages of his new publications. JOHN B. ALDEN, Publisher, 363 Pearl St., New York, also Chicago and Atlanta.

Two traveling men named Waterman and Anderson, respectively, while here on Tuesday took occasion to go bathing, and because another traveling man named Mosier wouldn't be persuaded into accompanying them they took one of his shoes and "hung it up." They then went swimming, and Mosier, oh, where was he? He was making a sneak on Waterman's pants, and he got 'em, too, and ran up town with them, much to the discomfort of Waterman, who was obliged to pluck a fig leaf to cover his nakedness in order to make proper connection with his pants, which were quietly reposing up town. He reached them at last, and putting them on, Mosier kept the flies off his lower extremities by sprinkling generously with ice water—a service greatly appreciated by Waterman, judging by the muscular effort he put forth in hurrying shoes and other misdeeds at his benefactor. When he went down into his jeans for his cash Mosier told him to "never mind," he'd pay for the cigars for the crowd, as he had taken charge of that pocket book himself. The joke was taken all in good part by Waterman, who, we'll guarantee, will get even, if he has not done so 'ere this. —Wauneta Breeze.

Bartley Boomings.

Otto Gossard has been very sick, but is now improving rapidly.

Mr. V. Sills' little girl had her hand crushed by a falling window, last Tuesday.

P. H. Graves, of Pinder, Neb., spent a few days last week with his nephew, G. W. Bartlett.

Miss Minta Campbell of Syracuse, this state, was visiting with her brother here a few days last week.

B. F. Sibbitt is pushing the brick making along and will have another large kiln ready to fire in a few days.

Wm. Leap and S. Cox are busily engaged in hauling brick to the college grounds and will soon have the first kiln delivered there. They have the contract for hauling the rock for the dam and the mill basement, on which they will commence in a few days.

The house and wind mill of David Evans, about four miles north-east of this place, was blown down during the storm of Sunday night. Fortunately, Mr. Evans and family were visiting Mr. Dush, Sunday, and remained there over night, so no one was hurt.

T. B. Hilton, Treas. of the Bartley Improvement Co., and the other officers of the company were in consultation last week, with N. A. Sherman, the college architect, Geo. GENERAL ITEMS.

The long expected rain has filled the hearts of many with joy and gladness. True the wheat crop is a failure, but outside of that, the crops are more promising.

The silk worms of the Rev. E. J. Hall are doing well so far. In about three weeks, they will begin to spin their cocoons. In allowing Mr. Hall to pick leaves off your mulberry hedges, you are enabling him to promote a most valuable industry.

Persons who have nothing else to employ the flying minutes of their life but to spread false reports with the determined purpose of breaking up a church and overthrowing the work of God, are unworthy of any respect and consideration in the community in which they live, whether they engage in their evil and low work under the impulse of their own mind, or whether they are the rational tools of other still baser minds.

The farmer certainly has the hardest time of any other class of business men. He wears out his strength to raise some crops that will put him in shape to meet his debts and keep his family from starvation. If his crops fail, he then becomes the easy prey of his creditors and money lenders who, void of any human feelings, crush him under the weight of their unreasonable demands, with the prospect of robbing him of his home and, by way of advertising our western country, drive him back east in a broken down and starving condition. A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live but a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read Dr. King's New Discovery, and got a sample bottle; it helped her, she bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. H. L. Lincoln, one of McCook's legal lights, was in this seat of county affairs, last Thursday, on legal business, and called at this office for a social chat. Mr. Lincoln is a staunch republican but thinks the McKinley tariff bill is an imposition on the western people. —Hayes Centre Times, 18th inst.
