

The McCook Tribune.

"You may curse the old Democracy,
And General Jackson, too;
Arraign us on our record past,
And everything we do;
We bear it all, we trust and pray,
Our captain leads the van;
And you mustn't touch McKeighan,
Our pet 'ewe lamb.'"

THE abolition of the saloon may cut off the revenue of our schools and add to the tax in this way. It will also cut down the expense of our courts most wonderfully, to say nothing of lessening the leakages from the pockets of the laborer, the mechanic, the farmer, and the professional and businessman, which ought to be devoted to the home and to the comfort of its inmates. The amount used for schools is but a mere pittance compared with these, to say nothing of the cost of the heartaches which come through the saloons.

Lend me your ear—long enough at least to let you into a valuable secret: Brewer has the edge on the "butcher business" and saves all who trade with him money.

This is the time of year when the man who has something to sell tells it to all the world through the medium of printer's ink. That is, he does if he is wise. If he is otherwise he doesn't advertise, and the people don't know that he has anything to sell and he doesn't sell it, and he durns his luck and says he can't account for it. He sees other people in the same line of business selling right along and doing business on the ground floor, and he doesn't understand it. It is easily understood. The people who are doing business have told the public what they have to sell, and cordially invited the public to call and buy. See?

"Now is the accepted time," and THE TRIBUNE feels warranted in harping on the irrigation question ad libitum. "Striking while the iron is hot" is good advice, and the logic of a dry season should be used to best advantage. Talk up ditches, storage reservoirs, artesian wells, etc.

While good sugar beets may be grown in all parts of Nebraska the investigations of the agricultural experiment station of the university show that the southeastern part of the state is hardly so well adapted to this industry as the counties toward the middle and the northwest. Half a dozen cities in the southeast are agitating the building of sugar factories. Enterprise should never be discouraged, but these cities ought to be informed that the new works put in by the Oxnards in the next few years will probably be in the west or north. Eventually Southeastern Nebraska may get works and refineries but not until the industry has been pretty well developed in the northwest. Anyway the rich corn lands of the southeast are sufficient for our people. The rest of the state may have the beets.—Journal.

"Col." Wheat and "Sergeant" Craddock of the Knights of Labor addressed a small audience in the opera house, Tuesday evening. The "Col." made quite an able and interesting speech, kept his audience in rare good humor by the Irish stories related, and with which he sandwiched his "tale of woe." It may be further stated that the "Col." likes a good pie, in fact he admitted the soft impeachment and his jolly roundity was offered as well fed evidence. The "Sergeant" exercised his lungs quite vociferously, but it is not claimed that his utterances are entitled to be engraved in steel and we forbear. The "Col." canonized McKeighan and "Old Man" Powers, smiled upon us all most bewitchingly, and we all went home with the impression of having heard an old-time Democratic speech, and the Democrats present recognized it too, for they did most of the applauding.

Kalstedt, The Tailor,

Successor to L. Bernheimer, wishes to announce that he is now located in the rear of The First National Bank, with a new stock of latest and most fashionable fall and winter suitings, and is prepared to give the public correct and satisfactory results in all branches of the merchant tailoring business. To the Friends of Temperance.

Arrangements are being made to have the celebrated lecturer, Joe Critchfield of Indiana, spend some two weeks in Red Willow county, speaking each night and Sunday on the Prohibitory Amendment. His first meeting is now being held at Bartley and a crowded house greets him on each occasion. He is wonderful, original and convincing. We desire to have him speak at McCook, Indianola, Danbury and Lebanon, probably in the order named; at the larger places he will spend several days. Will the parties interested in each place write me for any information wanted. As soon as full arrangements are made notice will be given through the press. Friends, let us rally for the greatest question ever before the American people.

C. W. BECK,
Pres. Co. Non-Partisan League.

To Our Readers.

Respected at Home.

From Sutton Advertiser.
Of all the candidates on all the tickets in all the different parties in Nebraska this fall, none receive a higher tribute of respect from their home people than J. C. Allen of McCook, republican candidate for secretary of state. He has been a business man there. Business is what tests the honor and capacity of a man. Business intercourse with the people proves the stuff he is made of and brings out the highest traits of character and citizenship. Everyone speaks highly of Mr. Allen at his home.

Col. John Sobieski,

The celebrated Polish orator, will deliver an address in the opera house, Monday evening, October 13th, at 8 o'clock, in favor of the prohibition amendment. The Colonel is well informed on the temperance question; is eloquent and convincing. The question is of vital importance, and a large audience should be present and hear it ably and fairly handled.

A New Jersey Famine.

ELLENDAL, N. J., Sept. 28.—[Special to Omaha World-Herald.]—Crops are a failure, owing to the drought and hot winds. There is a great deal of destitution among the settlers. Thousands are leaving for other states, and thousands who remain will have to be aided in procuring the necessities of life.

A Gentle Reminder.

The publisher would gently remind the readers of THE TRIBUNE that it is quite in order any of these fine days to drop in and make their peace and election sure by depositing the wherewithal for another year's subscription; or mayhap to square up that small delinquency.

Of Course You Are
